Estado populista y populismo constitucional Juan Carlos Cassagne, 2023-11-29 Esta obra recoge el texto de dos libros de dos profesores de derecho administrativo ambos amigos entre sí desde hace varias décadas que giran sobre el mismo tema del populismo escritos cada uno desde su perspectiva y trabajando en los extremos del continente americano El libro del profesor Cassagne titulado *El Estado Populista* y las ideologías trata el tema del populismo desde una perspectiva más teórica y comparada advirtiendo que si bien el populismo no constituye una ideología susceptible de ser englobada en la izquierda ni en la derecha de la política tradicional ello no implica que las ideologías no estén presentes en los distintos regímenes populistas destacando la aparición de un nuevo modelo proveniente de la llamada izquierda radicalizada pretendidamente democrático el cual por su tipicidad ha denominado Estado Populista El libro del profesor Brewer Carías titulado *El populismo constitucional y el nuevo constitucionalismo* O de cómo se destruye una democracia desde dentro apunta a estudiar precisamente ese nuevo modelo de Estado populista y de cómo utilizándose los instrumentos constitucionales en las últimas décadas se ha desarrollado en varios de los países iberoamericanos en particular en Venezuela demoliendo desde dentro todos los principios de la democracia utilizándose sus propios instrumentos y la pantalla de una democracia participativa en lo que denomina el populismo constitucional Ediciones Olejnik ha considerado importante divulgar en conjunto estas dos obras dada la importancia del tema y dadas la recurrencia de los planteamientos que se abordan en las mismas en muchos países democráticos de América y Europa Allan R Brewer Carías Juan Carlos Cassagne *Del desencanto al populismo* Jorge Alemán, Germán Cano, 2017-03-15 **Fichte in the Americas**, 2023-05-30 This collection is the first comprehensive history of Fichte's reception in America highlighting the existence of a long and strong tradition of Fichtean studies throughout the continent and demonstrating the centrality of Fichtean ideas in contemporary discussions of issues such as feminism social criticism and decolonial thought Read and reinterpreted in the highly diverse circumstances across the American continent Fichte's ideas are presented in a radically new light uncovering the Fichtean spirit of self activity and autonomous thought in an American context *The Mexican Transition* Roger Bartra, 2013-01-15 This book is a collection of essays on the Mexican transition to democracy that offers reflections on different aspects of civic culture the political process electoral struggles and critical junctures *The International Political Economy of Communication* C. Martens, E. Vivares, R. McChesney, 2014-10-28 This collection reflects on the international political economy of media and the valuable lessons to be learned from the media reforms currently taking place across South America The contributors present a range of theoretical and methodological perspectives on the ongoing battle for media space in South America and the volume includes a foreword by Ernesto Laclau Decolonizing the Westernized University Ramón Grosfoguel, Ernesto Rosen Velásquez, Roberto Hernández, 2016-10-26 An underlying assumption undergirding institutions of higher education is that they serve as a means to upward socioeconomic mobility and in turn a way to address poverty that is tied to certain racialized sexualized bodies

Although the education crisis is not an American or European problem in the geographic sense but instead a global problem that plays itself out differentially across space and time this volume focuses on the westernized university in the US and abroad It asks questions about what is westernized about the university what its aims are and how those who work in through and outside these sites of knowledge production with local or global social movements can participate in the slow careful process of decolonizing the westernized university Decolonizing the Westernized University Interventions in Philosophy of Education from Within and Without provides a sharper understanding of the crisis and the responses to the westernized university at multiple sites around the world As an intervention in the philosophy of education discourse which tends to assume the university is a neutral space this collection will be of particular value to students and scholars working in philosophy of education Latina o philosophy Africana philosophy social epistemology education cultural studies and ethnic studies as well as to intellectual activists in the United States south of the border and around the world **Resonances of**
