Global Realignments and the Canadian Nation in the Third Millennium Karin Ikas,2010 With aggravating global realignments the dynamics and contradictions of a world risk society are looming ahead in the unfolding Third Millennium while globalization is gaining further steam To this bears witness a potpourri of often frightening geopolitical social cultural economic demographic ecological and other changes and challenges that gives substantial cause for concern about getting lost in a trans whatever sea of turmoil uncertainty and indeterminateness The resultant current backlash or rather renewed interest in the nation as a collective identity establishing category is an effort to gain some anchorage in ever more disintegrating times and proves especially those theoreticians wrong for whom the whole concept of the nation has worn off since long In 16 resourceful essays internationally distinguished Canadian and European experts from a variety of fields take a fresh look at these developments by focussing on one of the most fascinating multicultural and multifaceted nation state s in the world Canada in the Third Millennium The topics they discuss include among others Canada's difficult dissociation from Europe and the USA the reframing and reclaiming of the Canadian story the role of nations within the nation the efforts to transcend the nation pending geopolitical and geo ecological crises global issues and new wars Collectively the entries prove that Canada is a very progressive nation and opens up new perspectives for other collectives currently reassessing their national identities in a global environment Thus the book reaches well beyond the study of Canada and will be valuable to academics professionals teachers and students of various disciplines coping with the issue at stake as well as the general reader

Beyond the End of the Road Michael D. Pitt,2009-08 Join Kathleen and Michael Pitt as they leave the comfort and temperate climate of suburban Vancouver to spend an isolated winter north of the Arctic Circle With neither power nor running water over 40 kilometres from the nearest community of 75 people this middle aged couple learns to embrace temperatures that regularly fall below minus 40 degrees From their home base in a small one room cabin they seek the challenge of winter camping and the adventure of expeditions across the ice In January 1999 the Pitts flew by Twin Otter to Colville Lake to pursue Michael's life long dream of living beyond the reach of roads and concrete By the time the ice went out of the lakes and rivers in mid June their lives had been changed forever Michael and Kathleen Pitt had been paddling the rivers of Northern Canada for ten years Yet their experience seemed incomplete Summer is for visitors Michael needed to spend a winter in the North where rivers lakes and muskeg remain frozen for 7 to 8 months of the year Only by following the winter trail did Michael believe that he could truly know the character and soul of Canada's vast seemingly limitless Northern landscape A mesmerizing account of the North's beauty and the winter Michael and his wife Kathleen lived in a tiny
