Reaction Against Experiment In The Engli:

Radical Fictions Nick Bentley, 2007 Nick Bentley takes a fresh look at English fiction produced in the 1950s By looking at a range of authors he shows that the novel of the period was far more diverse and formally experimental than previous accounts have suggested *Understanding Kingsley Amis* Merritt Moseley, 1993 **British Literature in Transition, 1940-1960: Postwar** Gill Plain, 2019 Examines debates central to postwar British culture showing the pressures of reconstruction and the mutual implication of war and peace **Late Modernism and the Avant-Garde British Novel** Julia Jordan, 2020-03-24 In the decades following the immediately postwar period in Britain a loose grouping of experimental writers that included Alan Burns Christine Brooke Rose B S Johnson and Ann Quin worked against the dominance as they saw it of the realist novel of the literary mainstream Late Modernism and the Avant Garde British Novel reassesses the experimentalism versus realism debates of the period and finds a body of work engaged with rather than merely antagonistic towards the literary culture it sought to renovate Charting these engagements it shows how they have significance not just for our understanding of these decades but for the broader movement of the novel through the century This volume takes some of the claims made about experimental fiction that it is unreadable nonlinear elliptical errant plotless and reimagines these descriptors as historically inscribed tendencies that express the period's investment in the idea of the accidental These novels are interested in the fleeting and the fugitive in discontinuity and shock The experimental novel cultivates an interest in methods of representation that are oblique attempting to conjure the world at an angle or in the rear view mirror by ellipsis or evasion These concepts error indeterminacy uncertainty accident all bear a relation to that which evades or resists interpretation and meaning Asking what are the wider political ethical and philosophical correlates of this incommensurability Late Modernism and the Avant Garde British Novel reads experimental literature in this light as suffused with anxiety about its adequacy in the light of its status as necessarily imitative and derivative and therefore redolent of the forms of not knowing and uncertainty that mark late modernism more generally **The British Veterinary Journal**, 1908

Reading the Novel in English 1950 - 2000 Brian W. Shaffer, 2009-02-09 Written in clear jargon free prose this introductory text charts the variety of novel writing in English in the second half of the twentieth century An engaging introduction to the English language novel from 1950 2000 exclusive of the US Provides students both with strategies for interpretation and with fresh readings of selected seminal texts Maps out the most important contexts and concepts for understanding this fiction Features readings of ten influential English language novels including Margaret Atwood's *The Handmaid's Tale* Kazuo Ishiguro's *Remains of the Day* and Chinua Achebe's *Things Fall Apart* **The Transvaal agricultural journal**, 1908 [Transvaal Agricultural Journal](#) Transvaal (Colony). Dept. of Agriculture, 1908 *The History of British Women's Writing, 1945-1975* Clare Hanson, Susan Watkins, 2017-09-14 This volume reshapes our understanding of British literary culture from 1945 1975 by exploring the richness and diversity of women's writing of this period Essays by

leading scholars reveal the range and intensity of women writers engagement with post war transformations including the founding of the Welfare State the gradual liberalization of attitudes to gender and sexuality and the reconfiguration of Britain and the empire in the context of the Cold War Attending closely to the politics of form the sixteen essays range across literary middlebrow and popular genres including espionage thrillers and historical fiction children s literature and science fiction as well as poetry drama and journalism They examine issues including realism and experimentalism education class and politics the emergence of second wave feminism responses to the Holocaust and mass migration and diaspora The volume offers an exciting reassessment of women s writing at a time of radical social change and rapid cultural expansion

The American Journal of Psychology Granville Stanley Hall,Edward Bradford Titchener,Karl M. Dallenbach,Madison Bentley,Edwin Garrigues Boring,Margaret Floy Washburn,1893 **“The” American Journal of Psychology** ,1893 **The British Journal of Experimental Pathology** ,1922 *English Studies in Transition* Piero Boitani,Robert Clark,2002-09-11 Bringing together twenty five contributors from all over Europe this volume represents the vitality and diversity of the current transcultural European dialogue on English studies Topics addressed include the nature of the canon the poetics of language the representation of women and the notion of nationalism in post colonial literature The significance of this volume lies not only in the quality of the individual contributions but also in the fact that it marks an important turning point in the history of English studies in Europe *Useless Activity* Christopher Webb,2022-07-01 Using a broad range of archival material from Washington University St Louis the University of Glasgow and the British Library *Useless Activity Work Leisure and British Avant Garde Fiction 1960 1975* is the first study to ask why the experimental writing of the 1960s and 1970s appears so fraught with anxiety about its own uselessness before suggesting that this very anxiety was symptomatic of a unique period in British literary history when traditional notions about literary work and what worked in terms of literature were being radically scrutinised and reassessed The study is divided into five chapters with three of those dedicated to the close analysis of work produced by three writers representative of the 1960s British avant garde Eva Figs 1932 2012 B S Johnson 1933 1973 and Alexander Trocchi 1925 1984 The book argues that these writers preoccupations with concepts related to work such as leisure debt and various forms of neglected labour like housework allow us to rethink the British avant garde s relation to realism while posing broader questions about the production and value of post war literary avant gardism more generally *Useless Activity* proposes that only with an understanding of the British avant garde s engagement with the idea of work and its various corollaries can we appreciate these writers move away from certain forms of literary realism and their contribution to the development of the modern British novel during the mid twentieth century
