Reading Contemporary Serial Television Universes Paola Brembilla, Ilaria A. De Pascalis, 2018-05-25 Reading Contemporary Serial Television Universes provides a new framework the metaphor of the narrative ecosystem for the analysis of serial television narratives Contributors use this metaphor to address the ever expanding and evolving structure of narratives far beyond their usual spatial and temporal borders in general and in reference to specific series Other scholarly approaches consider each narrative as composed of modular elements which combine to create a bigger picture The narrative ecosystem approach on the other hand argues that each portion of the narrative world contains all of the main elements that characterize the world as a whole such as narrative tensions production structures creative dynamics and functions The volume details the implications of the narrative ecosystem for narrative theory and the study of seriality audiences and fandoms production and the analysis of the products themselves

Bruns, 1876 **Reading and Relevance, Reimagined** Katie Scirba, 2024 What do we mean when we say that a text is relevant to a young person or to a group of young people And how might a reimagining of relevance shaped through the voices of young men of color enhance literacy teaching and learning Based on case studies of six young Black Latino and South Asian men and their reading experiences this book reconceptualizes the term relevance as it applies to and is applied within literacy education middle school through college The author reveals how four dimensions of relevance Identity Spatiality Temporality and Ideology can guide educators in supporting the reading and

meaning making experiences of students in ways that honor the complexities of their lives and enhance their criticality

Sciurba frames relevance from a student centered perspective as conditions that are practically socially and or conceptually applicable to one s life Readers can use this book to disrupt problematic enactments of relevance in literacy spaces that are rooted in assumptions about who young people are culturally or otherwise as well as how they think and maneuver through their complex worlds

Book Features Provides a nuanced understanding of relevance in literacy education in order to successfully enact culturally relevant pedagogy Draws on scholarly literature from a broad range of fields including sociology cultural studies literary studies and physical science studies Showcases what a nondeficit approach to working with Black Latino South Asian and other young people of color can look like in educational contexts Examines data from longitudinal qualitative studies with six students and young men of color that took place across 10 years beginning in a New York City middle school
