Pizer, 2006-04-15 Johann Wolfgang von Goethe introduced the concept of Weltliteratur in 1827 to describe the growing availability of texts from other nations Although the term World Literature is widely used today there is little agreement on what it means and even less awareness of its evolution In this wide ranging work John Pizer traces the concept of Weltliteratur in Germany beginning with Goethe and continuing through Heinrich Heine Karl Marx and Friedrich Engels to the present as he explores its importation into the United States in the 1830s and the teaching of World Literature in U S classrooms since the early twentieth century Pizer demonstrates the concept s ongoing viability through an in depth reading of the contemporary Syrian German transnational novelist Rafik Schami He also provides a clear methodology for World Literature courses in the twenty first century Pizer argues persuasively that Weltliteratur can provide cohesion to the study of World Literature today In his view traditional World Lit classes are limited by their focus on the universal elements of literature A course based on Weltliteratur however promotes a more thorough understanding of literature as a dialectic between the universal and the particular In a practical guide to teaching World Literature by employing Goethe s paradigm he explains how to help students navigate between the extremes of homogenization on the one hand and exoticism on the other learning both what cultures share and what distinguishes them Everyone who teaches World Literature will want to read this stimulating book In addition anyone interested in the development of the concept from its German roots to its American fruition will find *The Idea of World Literature* immensely rewarding *The World Tomorrow* Norman Thomas, John Nevin Sayre, Devere Allen, Kirby Page, 1923 Catalogue of Title-entries of Books and Other Articles Entered in the Office of the Librarian of Congress, at Washington, Under the Copyright Law ...
