Imprinting Britain Michael Eamon, 2015-04-01 Printing presses were instrumental in creating and upholding a sense of community during the eighteenth century While the importance of print in the development of colonial America and the nascent United States is well established *Imprinting Britain* extends the historical discussion northward to explore the dynamic and interrelated world of newspapers coffee houses and theatre in the British imperial capitals of Halifax and Quebec City Michael Eamon describes how an English language colonial community coalesced around the printed word establishing public spaces for colonists to propose debate and define their visions of an ideal society Whereas American newspapers functioned as incubators of republican and revolutionary thought their British North American counterparts featured a moderate discourse that rejected republicanism favoured civic engagement advocated liberty with propriety extolled democracy under monarchy promoted reason over superstition and encouraged social criticism without revolution The press also safeguarded against the uncertainties of colonial life by providing a steady stream of transatlantic news literature and fashion that helped construct a sense of Britishness in an environment rife with mixed loyalties *Imprinting Britain* is the story of communities that turned to the press for a canon of British norms literary touchstones and Enlightenment inspired ideas which offered a blueprint for colonial growth and a sense of stability in an ever changing transatlantic milieu

Reflections on Native-Newcomer Relations J.R. Miller, 2004-12-15 The twelve essays that make up *Reflections on Native Newcomer Relations* illustrate the development in thought by one of Canada's leading scholars in the field of Native history J R Miller The collection comprising pieces that were written over a period spanning nearly two decades deals with the evolution of historical writing on First Nations and Métis methodological issues in the writing of Native newcomer history policy matters including residential schools and linkages between the study of Native newcomer relations and academic governance and curricular matters Half of the essays appear here in print for the first time and all use archival published and oral history evidence to throw light on Native Newcomer relations Miller argues that the nature of the relationship between Native peoples and newcomers in Canada has varied over time based on the reasons the two parties have had for interacting The relationship deteriorates into attempts to control and coerce Natives during periods in which newcomers do not perceive them as directly useful and it improves when the two parties have positive reasons for cooperation *Reflections on Native Newcomer Relations* opens up for discussion a series of issues in Native newcomer history It addresses all the trends in the discipline of the past two decades and never shies from showing their contradictions as well as those in the author's own thinking as he matured as a scholar

Bibliographie de la Vie Militaire Au Canada, 1867-1995 O. A. Cooke, Canada. Department of National Defence. Directorate of History and Heritage, 1997 Canadian military history and military matters have not been well represented in general in retrospective bibliographies of Canadian or in international military bibliographies What has been attempted in this document is a bibliography of published primary sources and secondary works on Canadian military topics excluding poetry and fiction covering the period from Confederation to the present Entries in the bibliography represent printed monographs books and pamphlets and serial titles The prime criteria of inclusion were that the work be chiefly or uniquely both Canadian and military in its contents Many in house publications of the training pamphlet or regulations type have been included but only insofar as they tell us something of the armed forces themselves rather than details of tactical doctrine or of pieces of equipment Works by or about Canadians serving with the armed forces of other countries have been included as well as materials relating to the military history of Newfoundland since 1867

Britain and the Origins of Canadian Confederation, 1837-67 Ged Martin, 2011-11-01 In explaining why the British North American provinces united in 1867 historians have tended to see Confederation as a logical response to the internal and external challenges of the 1860s With some ambiguity they have also attributed a major role to the British imperial factor in forcing the Maritime provinces to accept their predestined place in the Canadian nation In *Britain and the Origins of Canadian Confederation 1837-1867* Ged Martin offers a sceptical review of claims that Confederation answered all the problems facing the provinces and examines in detail British perceptions of Canada and ideas about its future The major British contribution to the coming of Confederation is to be found not in the aftermath of the Quebec conference where the imperial role was mainly one of bluff and exhortation but prior to 1864 in a vague consensus among opinion formers that the provinces would one day unite Faced with an inescapable need to secure legislation at Westminster for a new political structure British North American politicians found they could work within the context of a metropolitan preference for intercolonial union

The People who Own Themselves Heather Devine, 2004 With a unique how to appendix for Metis genealogical reconstruction this book will be of interest to Metis wanting to research their own genealogy and to scholars engaged in the reconstruction of Metis ethnic identity The search for a Metis identity and what constitutes that identity is a key issue facing many aboriginals of mixed ancestry today This book reconstructs 250 years of the Desjarlais family history across a substantial area of North America from colonial Louisiana the St Louis Missouri region and the American Southwest to the Red River and central Alberta In the course of tracing the Desjarlais family social economic and political factors influencing the development of various Aboriginal ethnic identities are discussed With intriguing details about the Desjarlais family members this book offers new original insights into the 1885 Northwest Rebellion focusing on kinship as a motivating factor in the outcome of events
