Cognitive

Linguistics William Croft, D. Alan Cruse, 2004-01-22 Cognitive Linguistics argues that language is governed by general cognitive principles rather than by a special purpose language module This introductory textbook surveys the field of cognitive linguistics as a distinct area of study presenting its theoretical foundations and the arguments supporting it Clearly organised and accessibly written it provides a useful introduction to the relationship between language and cognitive processing in the human brain It covers the main topics likely to be encountered in a course or seminar and provides a synthesis of study and research in this fast growing field of linguistics The authors begin by explaining the conceptual structures and cognitive processes governing linguistic representation and behaviour and go on to explore cognitive approaches to lexical semantics as well as syntactic representation and analysis focusing on the closely related frameworks of cognitive grammar and construction grammar This much needed introduction will be welcomed by students in linguistics and cognitive science

Action, Embodied Mind, and Life World Ralph D. Ellis, 2023-10-01 Action Embodied Mind and Life World combines embodied consciousness research existential phenomenology Gendlin's focusing concept and recent self organizational work on basic emotions e.g. Panksepp Frijda to explore the way patterns of motivated action shape our interpretations of reality personally biologically and within a sociopolitical community Like a bat projecting sonar we understand our world by sensing patterns of resistance against our own self initiated actions If hammering is the action we find nails and non nails Actions in turn express a self organizing process rooted in motivational structures that presuppose values These patterns of motivation therefore prefigure the shape of what we think or perceive But the emotions feelings sensings through which we discern motivation are never just about what they seem especially given ample incentives to distortion and self deception The trigger is the tip of an iceberg This book works toward a coherent method for getting at the basement level of the action trajectories that motivate exploration selective attention and thus interpretations of reality a crucial question in an age of motivated disinformation

Hot Tropics and Cold Feet Diann Hunt, 2008-02-05 When the going gets tough the tough hit the beach After years of being single Lily's about to head down the aisle again But just as she's about to take the plunge she gets cold feet ice cold To calm her pre wedding jitters Lily and her girlfriends take off on a getaway to Siesta Key Florida Harkening back to younger days they stalk Donny Osmond get tattoos henna and turn the heads of local studs But not far from any of their minds are the challenges of midlife grown children coming home to roost husbands in midlife crisis mode and could it be a first time pregnancy at forty five The girls all have their baggage in tow but the salty air and laughing with friends is just what the doctor ordered if they can weather the hot flashes until wedding bells ring
