Reading America Essays On American Literature:

Reading America Denis Donoghue, 1988-01-01 Here is a selection by the distinguished critic of his essays and commentaries on American writing and writers from Emerson and Whitman through Auden and Ashbery Denis Donoghue examines the canon in the light of what he takes to be the central dynamic of the American enterprise the imperatives of a powerful national past versus the subversions of an irrevocably anarchic spirit *The Islamic Lineage of American Literary Culture* Jeffrey Einboden, 2016-08-02 Uncovering Islam's formative impact on U S literary origins this book traces the influence of Arabic and Persian literature in America from the Revolution beginnings to Reconstruction Focusing on informal engagements and intimate exchanges Jeffrey Einboden excavates fresh witnesses to early American engagement with the Muslim world

American Literature and the Culture of Reprinting, 1834-1853 Meredith L. McGill, 2013-10-11 The antebellum period has long been identified with the belated emergence of a truly national literature And yet as Meredith L McGill argues a mass market for books in this period was built and sustained through what we would call rampant literary piracy a national literature developed not despite but because of the systematic copying of foreign works Restoring a political dimension to accounts of the economic grounds of antebellum literature McGill unfolds the legal arguments and political struggles that produced an American culture of reprinting and held it in place for two crucial decades In this culture of reprinting the circulation of print outstripped authorial and editorial control McGill examines the workings of literary culture within this market shifting her gaze from first and authorized editions to reprints and piracies from the form of the book to the intersection of book and periodical publishing and from a national literature to an internally divided and transatlantic literary marketplace Through readings of the work of Dickens Poe and Hawthorne McGill seeks both to analyze how changes in the conditions of publication influenced literary form and to measure what was lost as literary markets became centralized and literary culture became stratified in the early 1850s *American Literature and the Culture of Reprinting 1834 1853* delineates a distinctive literary culture that was regional in articulation and transnational in scope while questioning the grounds of the startlingly recent but nonetheless powerful equation of the national interest with the extension of authors rights

On Eloquence Denis Donoghue, 2008-10-01 On Eloquence questions the common assumption that eloquence is merely a subset of rhetoric a means toward a rhetorical end Denis Donoghue an eminent and prolific critic of the English language holds that this assumption is erroneous In this book Donoghue maintains that eloquence should be examined independent of mere rhetoric and that it has its own intrinsic value *The American Classics* Denis Donoghue, 2008-10-01 How is a classic book to be defined How much time must elapse before a work may be judged a classic And among all the works of American literature which deserve the designation In this provocative new book Denis Donoghue essays to answer these questions He presents his own short list of relative classics works whose appeal may not be universal but which nonetheless have occupied an important place in our culture for more than a century These books have

survived the abuses of time neglect contempt indifference willful readings excesses of praise and hyperbole Donoghue bestows the term classic on just five American works Melville's *Moby Dick* Hawthorne's *The Scarlet Letter* Thoreau's *Walden* Whitman's *Leaves of Grass* and Twain's *Adventures of Huckleberry Finn* Examining each in a separate chapter he discusses how the writings have been received and interpreted and he offers his own contemporary readings suggesting for example that in the post 9/11 era *Moby Dick* may be rewardingly read as a revenge tragedy Donoghue extends an irresistible invitation to open the pages of these American classics again demonstrating with wit and acuity how very much they have to say to us now

Outlines of American Literature William Joseph Long, 1923

Making America / Making American Literature, 2021-11-01 If 1776 heralds America's Birth of the Nation so too it witnesses the rise of a matching and overlapping American Literature For between the 1770s and the 1820s American writing moves on from the ancestral Puritanism of New England and Virginia though not as yet into the American Renaissance so strikingly called for by Ralph Waldo Emerson Even so the concourse of voices which arise in this

period that is between and including Benjamin Franklin and James Fenimore Cooper mark both a key transitional literary generation and yet one all too easily passed over in its own imaginative right This collection of fifteen specially commissioned essays seeks to establish new bearings a revision of one of the key political and literary eras in American culture Not only are Franklin and Cooper themselves carefully re evaluated in the making of America s new literary republic but figures like Charles Brockden Brown Washington Irving Philip Freneau William Cullen Bryant the other Alexander Hamilton and the playwrights Royall Tyler and William Dunlop Other essays take a more inclusive perspective whether American epistolary fiction a first generation of American women authored fiction the public discourse of The Federalist Papers the rise of the American periodical or the founding African American generation of Phillis Wheatley What unites all the essays is the common assumption that the making of America was as much a matter of creating its national literature as the making of American literature was a matter of shaping a national identity

American Literature as World Literature Jeffrey R. Di Leo, 2017-12-28 For better or worse America lives in the age of worlded literature Not the world literature of nations and nationalities considered from most powerful and wealthy to the least And not the world literature found with a map Rather the worlded literature of individuals crossing borders mixing stories and speaking in dialect Where translation struggles to be effective and background is itself another story The worlded literature of the multinational corporate publishing industry where the global market is all The essays in this collection from some of the most distinguished figures in American studies and literature explore what it means to consider American literature as world literature
