The Image of the River in Latin/o American Literature Jeanie Murphy, Elizabeth G. Rivero, 2017-12-20 Although fictional and often fantastic representations of nature have been a distinguishing feature of Latin American literature for centuries ecocriticism understood as the study of literature as it relates to depictions of the natural world environmental issues and the ways in which human beings interact and identify with their natural surroundings did not emerge as a field of scholarly interest in the region until the end of the twentieth century This volume employs an ecocritical lens in order to explore and question the use of the river imagery in Latino and Latin American literature from the colonial period to our modern world creating a space in which to examine both its literal and figurative meanings associated as much with processes of a personal nature as with those of the collective experience in the region The slow meandering streams of nostalgia the raging currents of conflict or the stagnant waters of social decay are just a few of the ways in which the river has become an important symbol and inspiration to many of the region s writers This book offers a diverse collection of writings that through a trans historical and trans geographical perspective allows us from the vantage point of the twenty first century to reflect on the rich and dynamic image of the river and by extension on the vital context of Latin o America its people and societies *The Cambridge History of Latin American Literature* Roberto Gonzalez Echevarría, Enrique Pupo-Walker, 1996-09-13 Volume 1 of a comprehensive three volume history of Latin American literature including Brazilian the only work of its kind **Colonial Latin American Literature** Rolena Adorno, 2011-11-04 An account of the literature of the Spanish speaking Americas from the time of Columbus to Latin American Independence this book examines the origins of colonial Latin American literature in Spanish the writings and relationships among major literary and intellectual figures of the colonial period and the story of how Spanish literary language developed and flourished in a new context Authors and works have been chosen for the merits of their writings their participation in the larger debates of their era and their resonance with readers today *Magical Realism and the History of the Emotions in Latin America* Jerónimo Arellano, 2015-05-21 Iconoclastic in spirit *Magical Realism and the History of the Emotions in Latin America* is the first study of affect and emotion in magical realist literature Against the grain of a vast body of scholarship it argues that magical realism is neither exotic commodity nor postcolonial resistance but an art form fueled by a search for spaces of wonder in a disenchanted world Linking the rise and fall of magical realism and kindred narrative forms to the shifting value of wonder as an emotional experience this thought provoking study proposes a radical new approach to canonical novels such as *One Hundred Years of Solitude* Received as one of the most convincing manifestations of the turn to affect in contemporary Latin American critical thought *Magical Realism and the History of the Emotions* draws on affect theory the history of emotions and new materialism to reframe key questions in Latin American literature and culture **Latin American Literature in Transition Pre-1492-1800** Rocío Quispe-Agnoli, Amber Brian, 2022-12-08 The year 1492 invokes many instances of
