Literacy Across Languages and Cultures Bernardo M. Ferdman, Rose-Marie Weber, Arnulfo G. Ramirez, 1994-03-08

This book examines the linkage between literacy and linguistic diversity embedding them in their social and cultural contexts. It illustrates that a more complete understanding of literacy among diverse populations and in multicultural societies requires attention to issues of literacy per se as well as to improving an educational process that has relevance beyond members of majority cultures and linguistic groups. The focus of the book is on the social and cultural contexts in which literacy develops and is enacted with an emphasis on the North American situation. Educators and researchers are discovering that cognitive approaches while very valuable are insufficient by themselves to answer important questions about literacy in heterogeneous societies. By considering the implications of family, school, culture, society, and nation for literary processes, the book answers the following questions: In a multi-ethnic context, what does it mean to be literate? What are the processes involved in becoming and being literate in a second language? In what ways is literacy in a second language similar and in what ways is it different from mother tongue literacy? What factors must be understood to better describe and facilitate literacy acquisition among members of ethnic and linguistic minorities? What are some current approaches that are being used to accomplish this? These are vital questions for researchers and educators in a world that has a large number of immigrants, a variety of multi-ethnic and multi-lingual societies, and an increasing degree of multinational activity. Beyond addressing applied concerns, attending to these questions can provide new insights into basic aspects of literacy.

Reading, Writing, and Revolution Philis Barragán Goetz, 2020-05-05. Language has long functioned as a signifier of power in the United States. In Texas as elsewhere in the Southwest, ethnic Mexicans' relationship to education, including their enrollment in the Spanish language community schools called *escuelitas*, served as a vehicle to negotiate that power. Situating the history of *escuelitas* within the contexts of modernization, progressivism, public education, the Mexican Revolution, and immigration, *Reading, Writing, and Revolution* traces how the proliferation and decline of these community schools helped shape Mexican American identity. Philis Barragán Goetz argues that the history of *escuelitas* is not only a story of resistance in the face of Anglo hegemony but also a complex and nuanced chronicle of ethnic Mexican cultural negotiation. She shows how *escuelitas* emerged and thrived to meet a diverse set of unfulfilled needs, then dwindled as later generations of Mexican Americans campaigned for educational integration. Drawing on extensive archival, genealogical, and oral history research, Barragán Goetz unravels a forgotten narrative at the crossroads of language and education as well as race and identity.

Assessing the English Language Writing of Chinese Learners of English Liz Hamp-Lyons, Yan Jin, 2022-05-24. This book focuses on the assessment of English language writing in China mainland, the territories of Hong Kong and Macau, and Taiwan. The first part of the book describes how writing in English has been assessed in Chinese contexts in the past 25 years and how it continues to be assessed at present. The second part of the book presents reports of work such as formative, classroom-based assessment, feedback-based or feedback-led approaches, learning-oriented assessment portfolios, as well as the important issue of teacher professional development in writing assessment. This two-part division relates to and reflects

what has been happening in writing assessment internationally in the UK from the 1940s and in the US in the past 25 years The use of English for international business communication for international political negotiations and its rapidly increasing use as a medium of instruction in some subject areas has led to a rapid increase in the numbers of Chinese L1 speakers who are learning and being assessed in English This is often done with an emphasis on reading and writing The vast majority of assessments of English language writing are done through large scale direct testing that uses simple prompts tasks and short writing samples This book explores best practices in assessing the writing in English of native speakers of Chinese Assessing the English Language Writing of Chinese Learners of English edited by long time experts Liz Hamp Lyons and Yan Jin clearly demonstrates the authors collective years of writing and teaching about writing assessment The book s 13 chapters written by recognized experts in assessment of Chinese speakers learning English represent a wide array of important topics written in reader friendly language and offering evidence for pedagogical practices as well as high stakes testing of writing Teachers researchers administrators of writing programs in China and test developers who seek counsel about this population need look no further than to add Assessing the English Language Writing of Chinese Learners of English to their reading list Deborah Crusan Wright State University USA **English as a Second Language** DIANE Publishing Company,1996-02 Focuses on adult learners of English as a second language Will equip students with the language and cultural proficiency needed for full participation in American society Describes general standards defines language proficiency levels and identifies possible tests for measuring language proficiency Designed to assist administrators and teachers in providing programs that promote communication based instruction in which students are engaged in the purposeful use of language
