Redefining Culture Conceptualizing Culture Across Disciplines:

Redefining Culture John R. Baldwin, Sandra L. Faulkner, Michael L. Hecht, Sheryl L. Lindsley, 2006-08-15 Argues that culture is perhaps the most important thing to know about people if one wants to make predictions about their behavior The goal of this volume is to present a theoretically exhaustive integration of multidisciplinary approaches *Handbook of Ethics and Social Psychology* Simon M. Laham, 2025-06-09 This thought provoking Handbook examines a range of novel intersections between ethics and social psychology extending the boundaries of the field beyond concerns of moral and positive psychology It reflects on a range of social psychological approaches to moral issues as well as on the ethical implications of social psychology research *School Culture Development in China - Perceptions of Teachers and Principals* Kai Yu, Xiangyun Du, Xiaoju Duan, 2022-09-01 School culture is playing an increasingly important role in school performance and educational development Within the national campaign in China for the innovative and sustainable development of education local governments in Beijing Municipality have encouraged and facilitated educational innovation toward better school culture In recent years various initiatives have been undertaken by a select group of schools to develop strategies and further action toward innovation and change This book documents an investigation of how teachers and principals perceive school culture development in China A survey was conducted among 1 992 informants from 37 schools located in four different districts in Beijing Municipality The results of this study indicated that the respondents had overall positive perceptions of school culture construction and development in the educational change process In general they showed a positive attitude toward the school culture improvement initiatives reported satisfaction about their current school culture and held confidence in the direction their school culture is heading The study demonstrated that certain factors such as school geographical location and respondents job duty job title and gender make a difference in how participants perceive their school s culture Teachers and principals from a less economically developed district had less awareness of involvement in and understanding of school culture development in all its aspects A notable gap between teachers and principals was identified in their perception of the core values and norms of the school and of communication between teachers and principals This study suggests that for educational development to be further carried forward successfully there is an urgent need for better distribution of educational resources both financial and leadership common understanding agreed upon goals and efficient communication between principals and teachers Keywords Educational philosophy Ethics Chinese context Gender Learning *A Communication Universe* Igor E. Klyukanov, 2010-09-02 A Communication Universe Manifestations of Meaning Stagings of Significance presents a new theoretical understanding of communication Igor E Klyukanov conceptualizes the process of communication in terms of space and time i e as a continuous process of meaningful spatiotemporal transformation He goes on to examine four fundamental transformations and the four theoretical perspectives on the nature of communication From the first perspective communication appears to be pure space then time comes into

play more and more actively and from the fourth perspective communication appears to be pure time Following the fourth transformation communication is seen as returning back to the first stage where it again appears as pure space however now its reality contains all meanings created in the process of the previous transformations Based on these four transformations the process of communication is understood as a universe meaning whole entire turned into one *Handbook of School-Family Partnerships* Sandra L. Christenson, Amy L. Reschly, 2010-06-10 Family and community involvement are increasingly touted as a means of improving both student and school level achievement This has led to an increase in policies initiatives and goals designed to address family involvement in schools Once recognized and implemented such family school partnerships can lead to the following benefits enhanced communication and coordination between parents and educators continuity in developmental goals and approaches across family and school contexts shared ownership and commitment to educational goals increased understanding of the complexities of children's situations and the pooling of family and school resources to find and implement quality solutions to shared goals **Virtual exchange in the Asia-Pacific: research and practice** Eric Hagley, Yi'an Wang, 2020-12-21 Virtual Exchange VE is of great import to language and culture teachers and researchers but is also gaining popularity in other fields However around the world and in the Asia Pacific region in particular the number of exchanges is not high and the quality of those that exist needs to continue to improve It is essential that the latest research and best practice can be disseminated to ensure VE develops further In this edited volume various researchers and practitioners provide firsthand perspectives well researched accounts of current situations ideas for future exchanges and areas in need of further development We hope it will be of use to the VE practitioner and researcher alike

Latino K-12 Schools Leonard A. Valverde, 2014-08-26 This book is a comprehensive guide for educators and policy makers who are ready to create schools for Latinos particularly Mexican Americans such that students will be successful in learning and achieving in K 12 grades and college and help to advance society in the 21st century The contents address how to redefine schools for a new century and goes well beyond school reform It speaks to educators on adopting a positive mindset one that sees Latinos with assets not deficits and on expanding the school's purpose to serve not just students but the local community The author also emphasizes how to gain better understanding about Latino students and families to lose stereotypic thinking to engage families and local community resources in a more productive way to gather information and help evaluate school program effectiveness and not just testing students on standardized test and how schools can help themselves develop much needed financial and human resources **Conceptions of Culture** Thomas E. Wren, 2012-07-16 The concept of culture stands clearly but unsteadily at the heart of multicultural education This book provides a systematic in depth understanding of the role that culture plays in the massive literature of multicultural education as multiple and antithetical definitions of culture exist The book also shows multicultural educators how to discern the definition used in any particular book or article Thomas Wren deploys methods and concepts from philosophy and the social sciences to provide an

analytic framework within which the history and current state of culture theory can be understood both for its own sake and for its educational significance Although the book is full of theory it is not a theoretical book in the usual sense It is a road map accompanied by the related theoretical information and tools that graduate students and faculty need to 1 navigate the complex terrain of multicultural education literature 2 apply the book's analytical framework to that literature and to their own future practice and 3 anticipate the social changes and accompanying conceptual changes in our notions of culture that are now occurring as part of the cultural hybridity of today's students

Advances in Peacebuilding O. Richmond, 2010-01-20 The quality of the peace arrived at via liberal peacebuilding approaches has been poor The related statebuilding praxis has generally been unable to respond to its critics What is at stake is a recognition of peacebuilding's everyday political social economic and cultural dynamics This indicates the emergence of a post liberal form of peace *Four Overarching Patterns of Culture* Robert Strauss, Christopher Strauss, 2019-08-20 Justice has been the dominant cultural framework of people in the West for two centuries ever since the rise of constitutional democracies Consciously or not most people in the West have a strong awareness of right and wrong Their sense of morality is generally rooted in an obligation to the rule of law In democratic societies the rule of law ultimately relies on constitutional documents ratified by a widely accepted process of development and implementation For millennia honor has been the dominant cultural framework of most people in the East and Middle East Here people know that speech and behavior display respect or disrespect While pervasive in all relationships honor and shame are most important in the family extended family and local community In the East honor is not necessarily an internal feeling as it is in a justice culture Honor is more often an external attribution bestowed by others rather than claimed by oneself Harmony is prevalent globally in indigenous cultures Many indigenous peoples do not distinguish between the supernatural and natural worlds All aspects of life are connected Interactions with spirit beings are the key to maintaining harmony in order to be secure Reciprocity is a common cultural framework in the Global South Here one learns to develop connections with the right people in given circumstances for needed resources These connections may or may not be characterized as friendships and provide not so

much close friendships as reciprocal exchange In some places reciprocity is the means whereby one survives
