Kirby, 2020-10-26 In 2009 the Fairbank Center for Chinese Studies convened a major conference to discuss the health and longevity of China's ruling system and to consider a fundamental question After three decades of internal strife and turmoil followed by an era of reform entrepreneurialism and internationalization is the PRC here for the dynastic long haul Bringing together scholars and students of China from around the world the gathering witnessed an energetic exchange of views on four interrelated themes politics social transformations wealth and well being and culture belief and practice Edited and expanded from the original conference papers the wide ranging essays in this bilingual volume remain true to the conference's aim to promote open discussion of the past present and future of the People's Republic of China **The End of American Exceptionalism** David M. Wrobel, 1993 A lucid and rewarding synthesis of cultural and western history Richard W Etulain author of *Writing Western History* Wrobel makes a fine contribution to the study of myth by analyzing the anxiety or angst Americans felt about the frontier in the half century after 1890 This is an excellent book on a big subject executed with much skill *Western Historical Quarterly* Direct admirably brief and crisply written *Journal of American History* **Your Library** , 1926 *Dark Directions* Kendall R. Phillips, 2012-02-28 A Nightmare on Elm Street Halloween Night of the Living Dead These films have been indelibly stamped on moviegoers' psyches and are now considered seminal works of horror Guiding readers along the twisted paths between audience auteur and cultural history author Kendall R Phillips reveals the macabre visions of these films' directors in *Dark Directions* Romero Craven Carpenter and the Modern Horror Film Phillips begins by analyzing the works of George Romero focusing on how the body is used cinematically to reflect the duality between society and chaos concluding that the unconstrained bodies of the Living Dead films act as a critical intervention into social norms Phillips then explores the shadowy worlds of director Wes Craven In his study of the films *The Serpent and the Rainbow* *Deadly Friend* *Swamp Thing* *Red Eye* and *Shocker* Phillips reveals Craven's vision of technology as inherently dangerous in its ability to cross the gossamer thresholds of the gothic Finally the volume traverses the desolate frontiers of iconic director John Carpenter Through an exploration of such works as *Halloween* *The Fog* and *In the Mouth of Madness* Phillips delves into the director's representations of boundaries and the haunting consequences for those who cross them The first volume ever to address these three artists together *Dark Directions* is a spine-tingling and thought-provoking study of the horror genre In analyzing the individual works of Romero Craven and Carpenter Phillips illuminates some of the darkest minds in horror cinema

The Frontiers of Women's Writing Brigitte Georgi-Findlay, 2022-05-10 Although the myth of the American frontier is largely the product of writings by men a substantial body of writings by women exists that casts the era of western expansion in a different light In this study of American women's writings about the West between 1830 and 1930 a European scholar provides a reconstruction and new vision of frontier narrative from a perspective that has frequently been overlooked or taken for granted in discussions of the frontier Brigitte Georgi Findlay presents a range of writings that reflects the diversity

of the western experience Beginning with the narratives of Caroline Kirkland and other women of the early frontier she reviews the diaries of the overland trails letters and journals of the wives of army officers during the Indian wars professional writings focusing largely on travel by women such as Caroline Leighton from the regional publishing cultures that emerged in the Far West during the last quarter of the century and late nineteenth and early twentieth century accounts of missionaries and teachers on Indian reservations Most of the writers were white literate women who asserted their own kind of cultural authority over the lands and people they encountered Their accounts are not only set in relation to a masculine frontier myth but also investigated for clues about their own involvement with territorial expansion By exploring the various ways in which women writers actively contributed to and at times rejected the development of a national narrative of territorial expansion based on empire building and colonization the author shows how their accounts are implicated in expansionist processes at the same time that they formulate positions of innocence and detachment Georgi Findlay has drawn on American studies scholarship feminist criticism and studies of colonial discourse to examine the strategies of women s representation in writing about the West in ways that most theorists have not She critiques generally accepted stereotypes and assumptions both about women s writing and its difference of view in particular and about frontier discourse and the rhetoric of westward expansion in general as she offers a significant contribution to literary studies of the West that will challenge scholars across a wide range of disciplines
