Reduction Et Donation Recherches Sur Husserl Heidegger Et La Phenomenologie:

Réduction et donation Jean-Luc Marion, 1989 *Heidegger and French Philosophy* Tom Rockmore, 2002-09-11 Martin Heidegger's impact on contemporary thought is important and controversial. However in France the influence of this German philosopher is such that contemporary French thought cannot be properly understood without reference to Heidegger and his extraordinary influence. Tom Rockmore examines the reception of Heidegger's thought in France. He argues that in the period after the Second World War due to the peculiar nature of the humanist French Philosophical tradition Heidegger became the master thinker of French philosophy. Perhaps most importantly he contends that this reception first as philosophical anthropology and later as postmetaphysical humanism is systematically mistaken. **Husserl's Ethics and Practical Intentionality** Susi Ferrarello, 2015-12-17 Husserl's 20th century phenomenological project remains the cornerstone of modern European philosophy. The place of ethics is of importance to the ongoing legacy and study of phenomenology itself. Husserl's Ethics and Practical Intentionality constitutes one of the major new interventions in this burgeoning field of Husserl scholarship and offers an unrivaled perspective on the question of ethics in Husserl's philosophy through a focus on volumes not yet translated into English. This book offers a refreshing perspective on stagnating ethical debates that pivot around conceptions of relativism and universalism, shedding light on a phenomenological ethics beyond the common dichotomy. Heidegger's Concept of Truth Daniel O. Dahlstrom, 2001 This major new study of Heidegger is the first to examine in detail the concept of existential truth that Heidegger developed in the 1920s. Daniel Dahlstrom offers a critical focus on the genesis, nature, and viability of Heidegger's radical reconceptualization. The book has several distinctive and innovative features. First, it is the only study that attempts to understand the logical dimension of Heidegger's thought in its historical context. Second, no other book-length treatment explores the breadth and depth of Heidegger's confrontation with Husserl, his erstwhile mentor. Third, the book demonstrates that Heidegger's deconstruction of Western thinking occurs on three interconnected fronts: truth, being, and time. **The Reason of the Gift** Jean-Luc Marion, 2011-09-26 This book represents a continuation of Jean-Luc Marion's work on givenness as a foundational concept. A former student of Jacques Derrida, Marion is known for his work in twentieth-century French philosophy for his theory of God without being and for his reformulation of phenomenology. Marion's groundbreaking work on givenness is articulated through attentive readings in a striking array of philosophical texts. The four pieces collected here, based on the fall 2008 Richard Lectures at the University of Virginia, expand upon and go beyond the lines of Marion's previous work and exemplify the intersection of his own constructive brilliance with his talent and rigor as a historian of philosophy. Reengaging philosophers long central to Marion's own work: Husserl, Heidegger, Levinas, and highlighting the significance of lesser-known but decisive influences: Natorp, Rickert, Meinong, these lectures will be valuable to readers interested in the ongoing conversation seeking to bridge the divide between Continental and analytic philosophies, particularly through the exploration of common points of origin.

These pieces tackle some of the most pressing debates in contemporary European philosophy and offer students of Marion material to ponder as they seek to further understand his influences Taken together these essays form an important volume by a major figure in contemporary philosophy *The History of Continental Philosophy* Alan D. Schrift, 2013-04-12 From Kant to Kierkegaard from Hegel to Heidegger continental philosophers have indelibly shaped the trajectory of Western thought since the eighteenth century Although much has been written about these monumental thinkers students and scholars lack a definitive guide to the entire scope of the continental tradition The most comprehensive reference work to date this eight volume History of Continental Philosophy will both encapsulate the subject and reorient our understanding of it Beginning with an overview of Kant's philosophy and its initial reception the History traces the evolution of continental philosophy through major figures as well as movements such as existentialism phenomenology hermeneutics and poststructuralism The final volume outlines the current state of the field bringing the work of both historical and modern thinkers to bear on such contemporary topics as feminism globalization and the environment Throughout the volumes examine important philosophical figures and developments in their historical political and cultural contexts The first reference of its kind A History of Continental Philosophy has been written and edited by internationally recognized experts with a commitment to explaining complex thinkers texts and movements in rigorous yet jargon free essays suitable for both undergraduates and seasoned specialists These volumes also elucidate ongoing debates about the nature of continental and analytic philosophy surveying the distinctive sometimes overlapping characteristics and approaches of each tradition Featuring helpful overviews of major topics and plotting road maps to their underlying contexts A History of Continental Philosophy is destined to be the resource of first and last resort for students and scholars alike **The Rigor of Things** Jean-Luc Marion, Dan Arbib, 2017-08-08 In a series of conversations Jean Luc Marion reconstructs a career's path in the history of philosophy theology and phenomenology Discussing such concepts as the event the gift and the saturated phenomenon Marion elaborates the rigor displayed by the things themselves He discusses the major stages of his work and offers his views on the forces that have driven his thought The conversation ranges from Marion's engagement with Descartes to phenomenology and theology to Marion's intellectual and biographical backgrounds concluding with illuminating insights on the state of the Catholic Church today and on Judeo Christian dialogue Marion also reflects on the relationship of philosophy to history theology aesthetics and literature At the same time the book provides an account of French intellectual life in the late twentieth century In these interviews Marion's language is more conversational than in his formal writing but it remains serious and substantive The book serves as an excellent and comprehensive introduction to Marion's thought and work *Being and Nothing* Lorenz B. Puntel, 2025-05-15 In this masterful work leading German philosopher Lorenz B Puntel answers the primordial question of philosophy Why is there Being at all and not absolutely nothing Considering the history of philosophy from Parmenides through to Heidegger and beyond Puntel charges philosophy

with persistently failing to adequately confront the question of Being In response Puntel sets out a systematic philosophy to rival Hegel's Science of Logic and Whitehead's Process and Reality In two parts the book first surveys the history of Western philosophy through the theoretical framework of Structural Systematic Philosophy SSP which unites continental philosophy's comprehensiveness with the precision and linguistic rigor of the analytic tradition Analysing all of the major stages in the forgetfulness of Being in Western philosophy Puntel establishes a dialogue with a vast number of thinkers and movements in the history of philosophy including Plato Aquinas Duns Scotus Francisco Suarez Christian Wolff Leibniz Hegel Nietzsche Heidegger Sartre W O Quine Peter van Inwagen Kit Fine Alexius Meinong and Jean Luc Marion The second part develops the methodical question of a systematic theory of Being Puntel sets out a universal metaphysics introducing concepts of world existence and types of beings Moreover he examines the plurality of possible worlds the disclosure of Being and modern philosophies of subjectivity since Kant including the analytic philosophies of Robert Brandom and Ernst Tugendhat The book culminates in a theory of Being and explains the relation of Being to the concept of God Being and Nothing is the third in Puntel's trilogy comprising Structure and Being 2008 and Being and God 2011 and is a book that will appeal to all those with an interest in the history of philosophy continental philosophy theology and analytic philosophy

Appositions of Jacques Derrida and Emmanuel Levinas John Llewelyn, 2002 If not simple opposition or simple juxtaposition what is the relation between the writings to which Derrida and Levinas appose their signatures What would each endorse in the writings of the other What is it to sign and endorse How does one assume responsibility and how does one avoid assuming it These are some of the probing questions that the prominent Continental philosopher John Llewelyn takes up in Appositions which brings together and synthesises fifteen essays written during the past twenty years Drawing out the metaphor of the Greek letter chi or x Llewelyn apposes the discussions of the two philosophers applying their thought to one another In considering the work of Derrida and Levinas from the points of view of philosophy linguistics logic and theology Llewelyn invokes a diverse array of philosophers theologians and literary figures including Austin Defoe Hegel Heidegger Jankelevitch Kant Mallarme Plato Ponge Ramsey Rosenzweig Russell Saussure and Valery This book by a powerfully original thinker and first rate interpreter is essential reading for all those interested in the writings of Derrida and Levinas and in the ways in which their thinking intersects

Jean-Luc Marion Robyn Horner, 2017-03-02 Jean Luc Marion is one of the leading Catholic thinkers of our time a formidable authority on Descartes and a major scholar in the philosophy of religion This book presents a concise accessible and engaging introduction to the theology of Jean Luc Marion Described as one of the leading thinkers of his generation Marion's take on the postmodern is richly enhanced by his expertise in patristic and mystical theology phenomenology and modern philosophy In this first introduction to Marion's thought Robyn Horner provides the essential background to Marion's work as well as analysing the most significant themes for contemporary theology This book serves as an ideal starting point for students of theology and philosophy as well as for those seeking to further their knowledge of

cutting edge thinking in contemporary theology *Emmanuel Levinas* John Llewelyn, 2003-09-02 First Published in 2004 Routledge is an imprint of Taylor Francis an informa company The Enigma of Divine Revelation Jean-Luc Marion, Christiaan Jacobs-Vandegeer, 2020-03-04 This volume explores the possibilities and pressures of the language of revelation on human understanding How can we critically account for divine self disclosure in the linguistically mediated world of human concerns Does the structure of interpretation limit the language of revelation Does revelation open up new horizons of critical interpretation The volume brings together theologians who approach the interactions of revelation and hermeneutics with different perspectives including various forms of phenomenology and comparative theology It approaches the theme of revelation central as it is to the theological endeavour from several angles rather than a single methodological program Dealing as it does with revelation and understanding the volume addresses the foundational issues at stake in the challenges around change identity and faithfulness currently facing the church **The Rigor of a Certain Inhumanity** John Llewelyn, 2021-12-22 Focusing on the idea of universal suffrage John Llewelyn accepts the challenge of Derrida's later thought to renew his focus on the ethical political and religious dimensions of what makes us uniquely human Llewelyn builds this concern on issues of representation language meaning and logic with reflections on the phenomenological figures who informed Derrida's concept of deconstruction By entering into dialogue with these philosophical traditions Llewelyn demonstrates the range and depth of his own original thinking The Rigor of a Certain Inhumanity is a rich and passionate playful and perceptive work of philosophical analysis *Does the World Exist?* Anna-Teresa Tymieniecka, 2012-12-06 Does the World exist There would be no reason to resurrect this question of modernity from its historical oblivion were it not for the fact that recent evolution in science and technology impregnating culture makes us wonder about the nature of reality of the world we are living in and of our status as living beings within it Thus great metaphysical subjacent queries are forcefully revived calling for new investigations to proceed in the light of the innumerable novel insights of science This collection presents a wealth of material toward an elaboration of a new metaphysical groundwork of the onto-poiesis phenomenology of life sought to effect such investigations The classic postulates of the metaphysics of reality those of necessity and certainty here find a new formulation Away from sclerotized ontological and cognitive assumptions and congenial with the views of contemporary science the understanding of reality of our world of life and of ourselves within it is to be sought in the existential onto-poietic ciphering of life Tymieniecka God Without Being Jean-Luc Marion, 2012-07 God Without Being is a key discussion on the nature of God It offers a controversial contemporary perspective Christian Philosophy J. Aaron Simmons, 2019 One of the marks of being a philosopher is participating in debates about what counts as philosophy Of particular note in such debates is the question of how to distinguish philosophy from theology Although a variety of answers to this question have been offered in the history of philosophy in recent decades the prominence of Christian philosophy has been heralded by many as a genuine triumph over the problematic narrowness of strong foundationalism positivism and

scientism For others however it signals that philosophy continues to risk being replaced by confessional theology Wherever one comes down on such issues and however one interprets recent trends in philosophy of religion the idea of Christian philosophy continues to present pressing questions for those working in meta philosophy epistemology metaphysics hermeneutics and value theory In this volume established scholars representing a variety of cultural traditions religious perspectives and philosophical priorities all wrestle with how the idea of Christian philosophy should be understood appropriated and engaged in light of where philosophy is and where it is likely to go The volume includes classical essays that have deeply marked the field and also new essays that explore the relevance of Christian philosophy to issues in disability studies engaged pedagogy lived phenomenology the academic study of religion and the workings of social power Rather than offer a unified view that seeks to settle things the contributors demonstrate that Christian philosophy remains a topic of lively debate Wherever one comes down on the issues considered here this volume shows that Christian philosophy is neither merely of historical interest nor of interest only to Christians but instead remains a thoroughly philosophical topic worthy of serious consideration and substantive critique With a Foreword by Nicholas Wolterstorff Noah Porter Professor Emeritus of Philosophical Theology at Yale University Senior Research Fellow in the Institute for Advanced Studies in Culture at the University of Virginia and Honorary Professor of Australian Catholic University Givenness and Revelation Jean-Luc Marion, 2016 This work is based on Professor Marion's Gifford Lectures at the University of Glasgow *Dialectical Anatomy of the Eucharist* Donald Wallenfang, 2017-05-16 For centuries Christian theology has understood the Eucharist in terms of metaphysics or in protest against it Today an opening has been made to imagine the sacrament through the method of phenomenology bringing about new theological life and meaning In *Dialectical Anatomy of the Eucharist* Donald Wallenfang conducts a sustained analysis of the Eucharist through the aperture of phenomenology yet concludes the study with poetic and metaphysical twists Engaging the work of Jean Luc Marion Paul Ricoeur and Emmanuel Levinas Wallenfang proposes pioneering ideas for contemporary sacramental theology that have vast implications for interfaith and interreligious dialogue By tapping into the various currents within the Judeo Christian tradition Jewish Catholic Orthodox and Protestant a radical argument is developed that leverages the tension among them all Several new frontiers are explored dialectical theology a fourth phenomenological reduction the phenomenology of human personhood the poetics of the Eucharist and a reinterpretation of the concept of gift as conversation On the whole Wallenfang advances recent debates surrounding the relationship between phenomenology and theology by claiming an uncanny way out of emerging dead ends in philosophical theology return to the fray Emmanuel Donald Wallenfang, 2021-11-12 Emmanuel Levinas 1906 1995 is perhaps one of the best kept philosophical secrets of recent times By locating ethics as first philosophy based on the call of the other Levinas has revolutionized the Western philosophical tradition In effect the perennial priority of the self is displaced by the uncanny urgency of the other Emmanuel Levinas and *Variations on God with Us* gives the reader an introduction to the life and work

of this humble philosophical genius Several applications are made of Levinas's insights interreligious dialogue analytic versus continental philosophy law and freedom maternity childhood hermeneutics and ethical contemplation Most especially Levinas is brought into lively conversation with Jean Luc Marion Levinas's phenomenology of proclamation is set in confrontation with Marion's phenomenology of manifestation throughout the book Erotic love is met with a love filled with responsibilities for the other Mount Carmel and Mount Zion face one another in a topography of the infinite Readers will appreciate the variety of themes treated as well as the dynamic interaction between philosophy and theology Given the fragmented postmodern milieu of the world today perhaps the philosophical intuitions of Emmanuel Levinas were prepared for such a time as this Esth 4 14

Human and Divine Being Donald Wallenfang, 2017-04-10 Nothing is more dangerous to be misunderstood than the question What is the human being In an era when this question is not only being misunderstood but even forgotten wisdom delivered by the great thinkers and mystics of the past must be recovered Edith Stein 1891 1942 a Jewish Carmelite mystical philosopher offers great promise to resume asking the question of the human being In *Human and Divine Being* Donald Wallenfang offers a comprehensive summary of the theological anthropology of this heroic martyr to truth Beginning with the theme of human vocation Wallenfang leads the reader through a labyrinth of philosophical and theological vignettes spiritual being the human soul material being empathy the logic of the cross and the meaning of suffering The question of the human being is asked in light of divine being by harnessing the fertile tension between the methods of phenomenology and metaphysics Stein spurs us on to a rendezvous with the stream of perennial philosophy that has watered the landscape of thought since conscious time began In the end the meaning of human being is thrown into sharp relief against the darkness of all that is not authentically human
