Where Men Hide James B. Twitchell, 2006-03-21 If you ask men if they spend any time hiding they usually look at you as if you re nuts What men hide But if you ask women whether men hide they immediately know what you mean from Where Men Hide Where Men Hide is a spirited tour of the dark and often dirty places men go to find comfort camaraderie relaxation and escape Ken Ross s striking photographs and James Twitchell s lively analysis trace the evolution of these virtual caves and question why they are rapidly disappearing Ross documents both traditional and contemporary male haunts such as bars barbershops lodges pool halls strip clubs garages deer camps megachurches the basement Barcalounger and Twitchell examines their

provenance purpose and appeal He finds that for centuries men have met with each other in underground lairs and clubhouses to conduct business or in the case of strip clubs and the modern rec room to bond and indulge in shady entertainments In these secret dens certain rules are abandoned while others are obeyed However Twitchell sees this less as exclusionary behavior and more as the result of social anxiety when women want to get together they just do it when men get together it s a production Drawing on literary historical and pop cultural sources Twitchell connects the places men hide with figures like Hemingway and Huck Finn Frederick Jackson Turner s theory of the American frontier and the mythological interpretations of Joseph Campbell and Robert Bly Instead of blaming the disappearance of the man cave solely on feminism simple fair play or the demands of Title IX Twitchell believes this evaporation is due as well to the rise of solitary pursuits such as driving watching television and playing videogames By blending together anecdote research and keen observation Ross and Twitchell bring this little discussed and controversial phenomenon to light *Branded Nation* James B.

Twitchell,2004-09-08 Branding says James Twitchell is nothing more than commercial storytelling brands are the stories that are associated with products For example the special taste of Evian says Twitchell is in the brand not the water Branding has become so successful so ubiquitous that even institutions that we thought were above branding antithetical to branding have succumbed Such cultural institutions as religion higher education and the art world have learned to love Madison Avenue or lose market share Of course most ministers university presidents and museum directors will insist that branding has nothing to do with them but as Twitchell brilliantly demonstrates in this witty insightful examination of three of our most important cultural institutions wherever supply exceeds demand branding follows The rise of the megachurch epitomizes branding in religion From its inception the megachurch was designed not to compete with other churches but to bring in the unchurched especially men worshippers who might otherwise be home watching television or strolling through the mall on a Sunday morning The megachurches have been phenomenally popular none more so than Willow Creek Community Church just south of Chicago one of the oldest megachurches which Twitchell analyzes in *Branded Nation* Colleges and universities have embraced branding as they have grown more alike Especially among the top schools in the country the student bodies the faculties often even the campuses themselves are practically interchangeable What distinguishes each school is the story it tells about itself Now every institution of higher learning has its image organizers its brand managers usually in the admissions or development offices whose job it is to make their institution seem different from all the rest Even museums with their multimillion dollar Monets have seen the advantages of branding The blockbuster exhibitions often put familiar paintings in a new context that is they provide a new narrative branding the art Museums keep expanding their stores placing them not just near the entrance on the ground floor but throughout the museum in the galleries themselves Some museums such as the Guggenheim even franchise themselves turning the institution itself into a brand In short high culture is beginning to look more and more like the rest of our culture In perhaps his most subversive observation Twitchell doesn t

condemn the branding of cultural institutions On the contrary he believes that branding may be invigorating our high culture bringing it to new audiences making it a more integral part of our lives Not since Bobos in Paradise has there been such a trenchant provocative analysis of our world

God's Red Son Louis S. Warren,2017-04-04 The definitive account of the Ghost Dance religion which led to the infamous massacre at Wounded Knee in 1890 Winner of the Bancroft Prize in American History In 1890 on Indian reservations across the West followers of a new religion danced in circles until they collapsed into trances In an attempt to suppress this new faith the US Army killed over two hundred Lakota Sioux at Wounded Knee Creek In God's Red Son historian Louis Warren offers a startling new view of the religion known as the Ghost Dance from its origins in the visions of a Northern Paiute named Wovoka to the tragedy in South Dakota To this day the Ghost Dance remains widely mischaracterized as a primitive and failed effort by Indian militants to resist American conquest and return to traditional ways In fact followers of the Ghost Dance sought to thrive in modern America by working for wages farming the land and educating their children tenets that helped the religion endure for decades after Wounded Knee God's Red Son powerfully reveals how Ghost Dance teachings helped Indians retain their identity and reshape the modern world
