Reference And Information Services:

Reference and Information Services Melissa A. Wong, Laura Saunders, 2020-05-04 This revised and updated sixth edition of *Reference and Information Services* continues the book's rich tradition covering all phases of reference and information services with less emphasis on print and more emphasis on strategies and scenarios. *Reference and Information Services* is the go-to textbook for MSLIS and i School courses on reference services and related topics. It is also a helpful handbook for practitioners. Authors include LIS faculty and professionals who have relevant degrees in their areas and who have published extensively on their topics. The first half of the book provides an overview of reference services and techniques for service provision including the reference interview, ethics instruction, reader's advisory, and services to diverse populations including children. This part of the book establishes a foundation of knowledge on reference service and frames each topic with ethical and social justice perspectives. The second part of the book offers an overview of the information life cycle and dissemination of information followed by an in-depth examination of information sources by type including dictionaries, encyclopedias, indexes, and abstracts, as well as by broad subject areas including government statistics and data, health, and legal information. This second section introduces the tools and resources that reference professionals use to provide the services described in the first half of the text.

Reference and Information Services Kay Ann Cassell, Uma Hiremath, 2013 Search skills of today bear little resemblance to searches through print publications. Reference service has become much more complex than in the past and is in a constant state of flux. Learning the skill sets of a worthy reference librarian can be challenging, unending, rewarding, and yes, fun.

Introduction to Reference and Information Services in Today's School Library Lesley S.J. Farmer, 2014-03-27 Students come to the school library every day with questions ranging from "How many people live in China?" to "I need to find out how the Sun began for my science paper." Helping students find the answers to their questions is one of the most important responsibilities school librarians have. In *Introduction to Reference and Information Services in Today's School Library*, one of America's premier school library educators covers the A-Z of both reference and information services for today's library. Everything from teaching students how to use sources to both in-person and virtual reference service is covered. A key feature of the text is an annotated bibliography of core print and electronic sources for elementary, middle, and high school collections. Yes, reference and information services are vital library functions in the digital age. Even students who appear to be tech-savvy have trouble finding the right information efficiently and knowing what to do with it. This book examines information needs and behaviors and provides strategies for assessing and meeting the informational needs of the school community. The book also addresses the conditions for optimum service: physical access, including virtual access, effective interaction, and collaboration; instructional design; and systematic planning. Newer issues such as embedded librarianship, curation, collective intelligence, and web 2.0 intellectual property are also addressed. This book introduces the entering professional and updates practitioners to current standards and useful strategies.

Reference and Information Services Melissa A. Wong, Laura Saunders, 2024-08-22 Written as a textbook for LIS students taking reference courses this fully updated and revised seventh edition of *Reference and Information Services* An Introduction also serves as a helpful handbook for practitioners to refamiliarize themselves with particular types and formats of sources and to refresh their knowledge on specific service topics The first section grounds the rest of the textbook with an overview of the foundations of reference and an introduction to the theories values and standards that guide reference service The second section provides an overview of reference services and techniques for service provision establishing a foundation of knowledge on reference service and extending ethical and social justice perspectives The third part offers an overview of the information life cycle and dissemination of information followed by an in depth examination of information sources by type as well as by broad subject areas Finally the concluding section guides the reader through the process of developing and maintaining their own vision of reference practice This textbook is essential reading for all preservice and working librarians particularly those concerned with ethical and social justice perspectives on reference work

Reference and Information Services Richard E. Bopp, Linda C. Smith, 2011-05-23 Reflecting the dramatic changes shaped by rapidly developing technologies over the past six years this new fourth edition of *Reference and Information Services* takes the introduction to reference sources and services significantly beyond the content of the first three editions In Part I Concepts and Processes chapters have been revised and updated to reflect new ideas and methods in the provision of reference service in an era when many users have access to the Web In Part II Information Sources and Their Use discussion of each source type has been updated to encompass key resources in print and on the Web where an increasing number of freely available sources join those purchased or licensed by libraries A number of new authors are contributors to this new edition bringing to their chapters their experience as teachers of reference and as practitioners in different types of libraries Discussions of services in Part I integrate digital reference as appropriate to each topic such as how to conduct a reference interview online using instant messaging Boxes interspersed in the text are used to present scenarios for discussion to highlight key concepts or to present excerpts from important documents Discussions of sources in Part II place more emphasis on designing effective search strategies using both print and digital resources The chapter on selection and evaluation of sources addresses the changing nature of reference collections and how to evaluate new types of sources Each chapter concludes with an updated list of additional readings to guide further study A new companion website will provide links to Web accessible readings and resources as well as additional scenarios for discussion and example search strategies to supplement those presented in the text

Evolution in Reference and Information Services Linda S Katz, 2013-05-13 Explore ways to bring and keep your library's electronic services up to date From editor Di Su Some years ago if you were told that a library's catalog would be available on a 24/7/365 basis you'd think it was just another fiction Perhaps as influential as Johannes Gutenberg's invention of movable type printing the Internet is one of the most significant happenings in the information
