**Mastery and Drift** Brent Cebul, Lily Geismer, 2025-02-11 A revelatory look at modern liberalism's historical evolution and enduring impact on contemporary politics and society Since the 1960s American liberalism and the Democratic Party have been remade along professional class lines widening liberalism's impact but narrowing its social and political vision In *Mastery and Drift* historians Brent Cebul and Lily Geismer have assembled a group of scholars to address the formation of professional class liberalism and its central role in remaking electoral politics and the practice of governance Across subjects as varied as philanthropy consulting health care welfare race immigration economics and foreign conflicts the authors examine not only the gaps between liberals' egalitarian aspirations and their approaches to policymaking but also how the intricacies of contemporary governance have tended to bolster professional class liberals' power The contributors to *Mastery and Drift* all came of age amid the development of professional class liberalism giving them distinctive and important perspectives in understanding its internal limitations and its relationship to neoliberalism and the Right With never ending disputes over the meaning of liberalism the content of its governance and its relationship to a resurgent Left now is the time to consider modern liberalism's place in contemporary American life

*African American Nationalist Literature of the 1960s* Sandra Hollin Flowers, 2019-09-25 Bringing together political theory and literary works this study recreates the political climate which made the 1960s an unforgettable era for young black Americans A chapter on *The Many Shades of Black Nationalism* for instance explains why black nationalism is known by more than a dozen different names how events in Africa influenced black nationalism in America why Malcolm X's death had a greater impact on nationalism than did his life and how the United States government unwittingly became nationalism's ally Another chapter explores the bitter feud between the dominant factions of the 1960s cultural and revolutionary nationalists This feud erupted in both verbal and armed warfare and generated an abundance of political theory and literary works much of which is out of circulation but is examined in the study Nationalist poetry theater and fiction are each treated in separate chapters which exemplify the aesthetic and political concerns of this memorable period in American history and letters Aside from its unique combination of artistic and political works what makes this book important is the current revival of nationalist sentiment in African American life and arts Though this revival is closely identified with the nationalism of the 1960s it lacks the focus of that

period This study explains what gave the nationalism of the 1960s its focus how that focus was expressed in art forms and why 1960s nationalism continues to influence the African American identity and will probably do so well into the twenty first century

**Black Women Abolitionists** Shirley J. Yee, 2024-09-04 By virtue of being both black and female in antebellum America black women abolitionists confronted a particular set of tensions. Whether they supported the movement directly or indirectly cooperated with whites or primarily with other blacks worked in groups or independently were well off financially or struggled to make ends meet their lives reflected the complex dynamics of race, sex and class. Against the background of slavery constructing a life in freedom meant adopting many of the values of free white society symbolized in part by male dominance and female subordination. In championing both their race and their sex female black abolitionists found themselves caught between the sexism of the antislavery movement and the racism of the white women's movement. Throughout their writing speeches petitions and participation in antislavery and self help organizations these women established a pattern of black female activism centered on community building political organizing and forging a network of friendships with other activists that served as a model for later generations of black women. Drawing on a wide array of previously untapped primary sources Shirley Yee examines the activism of black women in the Northeast the Midwest and to some extent California and Canada. The activists' experiences render heartbreakingly clear the pervasiveness of middle class white values in antebellum America and the contradictions and ironies inherent in prevailing conceptions of freedom.

**What is Constructive Theology?** Marion Grau, Jason Wyman, 2020-10-29 This essential introduction to contemporary constructive theology charts the most important disciplinary trends of the moment. It gives a historical overview of the field and discusses key hermeneutical and methodological concerns. The contributors apply a constructive perspective to a wide range of approaches ranging from biblical hermeneutics and postcolonial studies to comparative political and black theology. What is Constructive Theology shows how diverse and interdisciplinary constructive theology can be by exploring key themes in the field. The contributors explore the porous boundaries between Christianity and other religions, reflect on contextual liberation and constructive theologies from Africa and from Black British perspectives, explore the connection between embodiment, epistemology and hermeneutics and take a constructive approach to the dangerous memories and theologies of colonial histories in Belgium and Native Americans in the United States. This sampler of the field will help you rethink theologies and find constructive alternatives.

**African American Nonfiction Books in the 21st Century** Harry B. Dunbar, 2005 This work is essentially a bibliography consisting of a representative sampling of 58 nonfiction books published in the year 2004 about African Americans and about the issues that impacted and impact us viewed in the context of the canon of 664 selected from those published in the last two decades of the twentieth century The offerings of the mainstream press in the period 1939 1964 are cited as a backdrop Ninety one titles published over the years 2001 to 2003 constitute the sampling for that period The surge in the publication of books in the canon at the end of the 20th century is analyzed

**Civility in the City** Jennifer Lee, 2002 Hollywood and the news media have repeatedly depicted the inner city retail store as a scene of racial conflict and acrimony Civility in the City uncovers a quite different story Jennifer Lee examines the relationships between African American Jewish and Korean merchants and their black customers in New York and Philadelphia and shows that in fact social order routine and civility are the norm Lee illustrates how everyday civility is negotiated and maintained in countless daily interactions between merchants and customers While merchant customer relations are in no way uniform most are civil because merchants actively work to manage tensions and smooth out incidents before they escalate into racially charged anger Civility prevails because merchants make investments to maintain the day to day routine recognizing that the failure to do so can have dramatic consequences How then do minor clashes between merchants and customers occasionally erupt into the large scale conflicts we see on television Lee shows how inner city poverty and extreme inequality coupled with the visible presence of socially mobile newcomers can provide fertile ground for such conflicts The wonder is that they occur so rarely a fact that the media ignore
