

Cherokee Reflection

My first impression of the Cherokee story is positive, as it imparts a valuable lesson about the power of choice and the internal struggle between positive and negative forces within oneself. The metaphor of the two wolves vividly illustrates the ongoing battle between kindness and anger, emphasizing the idea that our actions and choices determine which aspect of our character prevails. The story underscores the importance of mindfulness and self-awareness, urging individuals to consciously choose to nurture the positive aspects within them. It serves as a reminder that we have the agency to shape our own character and responses to life's challenges. In relating this to life, the narrative encourages reflection on the choices we make and their impact on personal growth and relationships. It suggests that by feeding the wolf of kindness and reason, we contribute to a more harmonious existence both within ourselves and in our interactions with others.

In relating to my personal experience, there's this one scenario that one of my colleagues asked for my help in creating the alphalist system, and I willingly assisted. However, when she asked if I would come to work on Sunday, I truthfully answered no since I had no pending tasks. I responded this way because, I already completed my work, and it wasn't my responsibility to create an alphalist for the employees. Soon after, she began ignoring me, no longer inviting me as she used to. There were instances when she would deliberately avoid eye contact and give me hostile looks. Months passed, and the tension grew, but I still tried to maintain harmony. It wasn't until I couldn't contain my curiosity and asked another colleague about her behavior and I discovered she was upset to me due to my response about not coming to work on Sunday. Moreover, she spread false stories about me. Despite my initial attempt to keep my feelings hidden, I eventually confronted her, expressing my anger at his unfair treatment and the false accusations. Even though I knew I had done nothing wrong, she continued to portray me as the bad person. It became evident that no matter the decision you make or whether you express your feelings, if someone is narrow-minded and adept at manipulating situations to make you look bad, you'll end up losing. This made me realize the relevance of the Cherokee story, where the choice of which "wolf" to feed influences the outcome of the internal struggle.

In the Cherokee story, the two wolves represent the internal conflict between positive and negative aspects within oneself. Similarly, my situation reflects the ongoing battle between your honest response to my colleague's question and the negative consequences that ensued. Just as the Cherokee story emphasizes the importance of feeding the right wolf, my experience highlights the repercussions of choices and the need to navigate internal and external conflicts wisely. It underscores the significance of

Postcolonial Literature and the United States: Race, Ethnicity, and Literature , Probing essays that examine critical issues surrounding the United States s ever expanding international cultural identity in the postcolonial era Download Plain Text version At the beginning of the twenty first century we may be in a transnational moment increasingly aware of the ways in which local and national narratives in literature and elsewhere cannot be conceived apart from a radically new sense of shared human histories and global interdependence To think transnationally about literature history and culture

requires a study of the evolution of hybrid identities within nation states and diasporic identities across national boundaries. Studies addressing issues of race, ethnicity, and empire in U.S. culture have provided some of the most innovative and controversial contributions to recent scholarship. *Postcolonial Theory and the United States: Race, Ethnicity, and Literature* represents a new chapter in the emerging dialogues about the importance of borders on a global scale. This book collects nineteen essays written in the 1990s in this emergent field by both well-established and up-and-coming scholars. Almost all the essays have been either especially written for this volume or revised for inclusion here. These essays are accessible, well-focused resources for college and university students and their teachers, displaying both historical depth and theoretical finesse as they attempt close and lively readings. The anthology includes more than one discussion of each literary tradition associated with major racial or ethnic communities. Such a gathering of diverse complementary and often competing viewpoints provides a good introduction to the cultural differences and commonalities that comprise the United States today. The volume opens with two essays by the editors: first, a survey of the ideas in the individual pieces, and second, a long essay that places current debates in U.S. ethnicity and race studies within both the history of American studies as a whole and recent developments in postcolonial theory. Amritjit Singh, a professor of English and African American studies at Rhode Island College, is coeditor of *Conversations with Ralph Ellison* and *Conversations with Ishmael Reed*, both from University Press of Mississippi. Peter Schmidt, a professor of English at Swarthmore College, is the author of *The Heart of the Story: Eudora Welty's Short Fiction*, University Press of Mississippi. **Resources in Education**, 1997 **Newsletter**, 2002

Writing Indian Nations Maureen Konkole, 2005-11-16 In the early years of the republic, the United States government negotiated with Indian nations because it could not afford protracted wars, politically, militarily, or economically. Maureen Konkole argues that by depending on treaties, which rest on the equal standing of all signatories, Europeans in North America institutionalized a paradox: the very documents through which they sought to dispossess Native peoples in fact conceded Native autonomy. As the United States used coerced treaties to remove Native peoples from their lands, a group of Cherokee, Pequot, Ojibwe, Tuscarora, and Seneca writers spoke out. With history, polemic, and personal narrative, these writers countered widespread misrepresentations about Native peoples: supposedly primitive nature, their inherent inability to form governments, and their impending disappearance. Furthermore, they contended that arguments about racial difference merely justified oppression and dispossession, deriding these arguments as willful attempts to evade the true meanings and implications of the treaties. The writers insisted on recognition of Native peoples' political autonomy and human equality. Konkole demonstrates that these struggles over the meaning of U.S. Native treaties in the early nineteenth century led to the emergence of the first substantial body of Native writing in English, and as she shows, the effects of the struggle over the political status of Native peoples remain embedded in contemporary scholarship. **Postcolonial Theory and the United States** Amritjit Singh, Peter Schmidt, 2009-11-12 At the beginning of the twenty-first century, we may be in a transnational
