 Peter R. Stork, 2021-09-30 Science and technology have profoundly altered the cosmic and societal perceptions of the world Regrettably the Christian imagination has not kept pace Most believers still adhere to pre scientific views Cosmos and Revelation urges the Christian community to reimagine God's creation by engaging the data of science For if God has indeed brought forth an intelligible world for us to explore through scientific research those who profess this faith ought to as a minimum allow scientific findings to expand their theological horizon Drawing on his scientific qualification and academic background in theology Peter R Stork opens several windows on God's creation from galactic star nurseries to the wonderland of living cells After rereading Genesis 1 and 2 the author interlaces examples and reflections to present a coherent yet provocative sketch of the new landscape that spreads out before us leaving it to his readers to intuit for themselves the immensities Christians are challenged to embrace in the age of science *History of North Carolina: North Carolina biography, by special staff of writers*, 1919 *The Art of Taking a Walk* Anke Gleber, 1999 Anke Gleber examines one of the most intriguing and characteristic figures of European urban modernity the observing city stroller or flaneur In an

age transformed by industrialism the flaneur drifted through city streets inspired and repelled by the surrounding scenes of splendor and squalor Gleber examines this often elusive figure in the particular contexts of Weimar Germany and the intellectual sphere of Walter Benjamin with whom the concept of flanerie is often associated She sketches the European influences that produced the German flaneur and establishes the figure as a pervasive presence in Weimar culture as well as a profound influence on modern perceptions of public space The book begins by exploring the theory of literary flanerie and the technological changes street lighting public transportation and the emergence of film that gave a new status to the activities of seeing and walking in the modern city Gleber then assesses the place of flanerie in works by Benjamin Siegfried Kracauer and other representatives of Weimar literature arts and theory She draws particular attention to the works of Franz Hessel a Berlin flaneur who argued that flanerie is a reading of the city that perceives passersby streets and fleeting impressions as the transitory signs of modernity Gleber also examines connections between flanerie and Weimar film and discusses female flanerie as a means of asserting female subjectivity in the public realm The book is a deeply original and searching reassessment of the complex intersections among modernity vision and public space Great English Prose
