The Early Letters of Bishop Richard Hurd, 1739-1762 Richard Hurd, 1995 A model edition of the early correspondence of one of George III's favourite bishops ARCHIVES Richard Hurd is best known to ecclesiastical historians as one of George III's favourite bishops who was offered and declined the archbishopric of Canterbury These letters therefore illuminate the early career of one of the most prominent clerics of the late eighteenth century The letters begin in 1739 just after Hurd had graduated B A at Emmanuel College Cambridge They chart his gradual climb up the ladder of ecclesiastical preferment through his time as Fellow at Emmanuel and end with him settled in the comfortable country rectory of Thurcaston in Leicestershire Hurd had a wide circle of correspondents He became a close friend of William Warburton Bishop of Gloucester perhaps the most prominent controversialist of the period He was also a member of a literary circle which included the poets Thomas Gray and William Mason Indeed Hurd himself is well known to students of English literature as the author of *Letters on Chivalry and Romance* and as a significant figure among the so-called pre-romantics Hurd's letters reveal the full range of his interests from theology and university politics through literature to painting and sculpture This edition therefore not only tells us about Hurd's early life and career but also provides a valuable insight into the social life of the Anglican clergy in the eighteenth century

**Essays on Literature** Thomas Carlyle, 2020-02-04 *Essays on Literature* brings together ten of the most important literary reviews and essays written by the acclaimed Victorian philosopher, social critic and essayist Thomas Carlyle. Spanning his writing career, the essays allow the reader to track Carlyle's development as a reviewer and stylist, the evolution of his perennial themes and the tremendous impact of his writing on the development of British and American literature. In keeping with the Norman and Charlotte Strouse Edition of the Writings of Thomas Carlyle, these essays are accompanied by a thorough historical introduction to the material, extensive notes providing historical and cultural context while expanding on references and allusions, and a textual apparatus that carefully details and explains the editorial decisions made in reconciling the many editions of each essay

Bolingbroke John Churton Collins, 1886 The English Republican tradition and eighteenth-century France Rachel Hammersley, 2013-07-19 *The English republican tradition and eighteenth-century France* offers the first full account of the role played by seventeenth and eighteenth-century English republican ideas in eighteenth-century France. Challenging some of the dominant accounts of the republican tradition, it revises conventional understandings of what republicanism meant in both Britain and France during the eighteenth century, offering a distinctive trajectory as regards ancient and modern constructions and highlighting variety rather than homogeneity within the tradition. Hammersley thus offers a new and fascinating perspective on both the legacy of the English republican tradition and the origins and thought of the French Revolution. The book focuses on a series of case studies featuring such colourful and influential characters as John Toland, Viscount Bolingbroke, John Wilkes and the Comte de Mirabeau. This book will thus be of value to all those interested in the fields of intellectual history and the history of political thought, seventeenth and eighteenth
