that helps the reader to see God's hand at work in conception pregnancy and birth. Some examples look at the body's preparation for labour then see how David the Shepherd boy also had a period of preparation before he became King. The waters of the amniotic fluid and its qualities lead to a discussion of Jesus the giver of living water. Coping with the pain of labour along with lots of practical advice also recognises the pain of the Children of Israel as they left slavery and wandered in the wilderness. Each of the 17 chapters deal with a different aspect of the progression from conception to birth and each leads to a short Bible story or example. Woven throughout the book is Judith's own midwifery stories and also some of her own personal story nursing her husband through a terminal cancer journey. Our babies are fearfully and wonderfully made and Reflections of a Midwife the miracle of birth is a delightful book and contains both medical information and Christian devotional in one. If you are fascinated and captivated by the process of pregnancy and birth or if you are or hoping to one day be a mother or even a grandmother I know that you will enjoy reading Reflections of a Midwife.

Evidence Based Midwifery Helen Spiby, Jane Munro, 2009-10-13 Evidence based practice is now widely accepted as a fundamental tenet of midwifery. The importance of evidence in defining midwifery policy and practice in the UK health system and others is acknowledged and enduring. While the development and evaluation of research in midwifery is well charted the question of how such evidence is incorporated into practice has to date received less attention and discussion in the midwifery profession. Answering this need Evidence Based Midwifery focuses on the dissemination and use of evidence for midwifery practice and explores midwives experiences in using the evidence base to inform policy and enhance clinical practice. Written by a highly regarded and diverse group from the UK and international midwifery community Evidence Based Midwifery addresses issues of relevance to all midwives whether clinical practitioners or educators students or supervisors researchers or managers. Issues that influence evidence based midwifery are discussed and topics covered include problem based learning implementation of evidence based guidelines and the involvement of service users. Edited by founder members of the Evidence Based Midwifery Network International collaboration with contributions from the UK Greece Canada and the Netherlands. Primary focus on the incorporation of evidence into midwifery practice. Real life examples throughout.

The Best Country to Give Birth? Linda Bryder, 2023-11-09 In 2012 following his investigation of the deaths of two babies in childbirth at Waikato Hospital Hamilton coroner Gordon Matenga asked Does New Zealand have the safe world leading system the Government says we do or are we losing babies because the balance has swung too far towards the idea that because childbirth is natural then the philosophy of non intervention is best. Babies deaths reignite maternity row the New Zealand Herald announced from the introduction by Linda Bryder. Is New Zealand the best country to give birth. Historian of medicine Linda Bryder explores how New Zealand developed a unique approach to the role of midwives in childbirth in the 1990s and analyses the consequences of that change for mothers and babies. The Best Country to Give Birth traces the genesis of the 1990 Nurses Amendment Act which allowed midwives to practise alone in the community back to the

homebirth movement of the 1970s and explores the aftermath of the Act including the withdrawal of GPs from maternity care In investigating the consequences of the reforms it uncovers repeated criticism of services and what were deemed preventable deaths from coroners commissioners for health and disability other health professionals including some midwives academic researchers and parents and families How and why does maternity care in Aotearoa differ from other countries How has it shaped the equitable care of our mothers and babies Why have critical reports had so little impact This is a major historical account of an issue at the heart of our maternity care
