Reformation Applied:

Sexuality, Law and Legal Practice and the Reformation in Norway Anne Riisøy, 2009-02-23 Based on legislation and legal practice from the period c 1250 1600 the book takes issue with the most important viewpoints in earlier research by early modernists that the Reformation represented a watershed in a development characterized by greater criminalisation of sexual acts increase in the severity of sentences and deterioration of the position of women According to this study in principle all or mostly all factors were already in place in the Middle Ages In Norwegian historiography the period investigated is characterized by paucity of sources and the period has tended to fall between two stools respectively the medievalist and the early modernist The ambition of this book has been to bridge the gap

Developments in Numerical and Experimental Methods Applied to Tribology D. Dowson, C. M. Taylor, M. Godet, 2014-05-20 Developments in Numerical and Experimental Methods Applied to Tribology contains the proceedings of the 10th Leeds Lyon Symposium on Tribology held at the Institut National des Sciences Appliquées in Lyon France on September 6 9 1983 The papers explore developments in numerical and experimental methods used in tribology and cover topics ranging from ferrography and rheology to bearings and bearing dynamics hydrodynamics contact phenomena and plasticity The papers are organized into 13 sessions The first two papers examine the use of ferrography in the analysis of non ferrous particles as well as some of the methods of obtaining approximate numerical solutions to boundary value problems that arise in elastohydrodynamic lubrication The next session is concerned with rheology and contains papers that describe numerical solutions for power law fluids as applied to slider bearings grease lubricated finite length bearings and the use of the ball bearing as rheological test device The papers that follow discuss bearings and their dynamics oil films on lubricated surfaces hydrodynamic lubrication and finite element analysis of transient elastohydrodynamic lubrication The final session considers plastic deformation two body abrasion processes and micropitting and asperity deformation This monograph will appeal to tribologists

In *Lectures on Modern History* Lord Acton presents a compelling assessment of the evolution of political thought and the transformative events that shaped modern Europe His eloquent and analytical style reveals the philosophical underpinnings of history delving into the intersections of morality power and governance By examining pivotal moments from the Reformation to the French Revolution Acton critiques the moral implications of historical progress inviting readers to reflect on the cyclical nature of tyranny and freedom His lectures stand as a crucial contribution to the historical discourse of the Victorian era marked by a profound belief in the importance of liberty and the moral responsibilities of statesmen John Emerich Edward Dalberg Acton Baron Acton was a notable historian and political thinker deeply influenced by his Catholic faith and classical liberal principles Educated at Oxford his intellectual pursuits were fervently guided by a commitment to understanding the complexities of history and its ethical dimensions Acton's famous maxim that power tends to corrupt and absolute power corrupts absolutely reflects his dedication to examining the moral fabric of historical narratives making him a pivotal figure in the evolution of modern historiography *Lectures on Modern History* is an essential read for those interested in the interplay between ethical considerations and political history Acton's incisive analyses provide not only a historical framework but also evoke a timely conversation about power and responsibility Historians political scientists and engaged citizens will find in this work a profound meditation on the lessons of the past and their relevance to contemporary society **Lectures on Modern History** Lord Acton, 2016-11-10

Fellow Students I look back to day to a time before the middle of the century when I was reading at Edinburgh and fervently wishing to come to this University At three colleges I applied for admission and as things then were

I was refused by all Here from the first I vainly fixed my hopes and here in a happier hour after five and forty years they are at last fulfilled I desire first to speak to you of that which I may reasonably call the Unity of Modern History as an easy approach to questions necessary to be met on the threshold by any one occupying this place which my predecessor has made so formidable to me by the reflected lustre of his name You have often heard it said that Modern History is a subject to which neither beginning nor end can be assigned No beginning because the dense web of the fortunes of man is woven without a void because in society as in nature the structure is continuous and we can trace things back uninterruptedly until we dimly descry the Declaration of Independence in the forests of Germany No end because on the same principle history made and history making are scientifically inseparable and separately unmeaning The Vindication of Tradition Jaroslav Pelikan,1984-01-01 This book clearly constitutes a unified plea that modern society find ways and means to recapture the resources of the past and to overcome its fear of the tyranny of the dead Lectures on Modern History Baron John Emerich Edward Dalberg Acton,2019-09-25 Reproduction of the original Lectures on Modern History by Baron John Emerich Edward Dalberg Acton Dr. Wells's Controversial Treatises Against the Dissenters.
