Duffy,1997

Duffy's work traces nuclear politics from the creation of a powerful subgovernment through the public lobby reforms of the late 1960s and early 1970s and the deregulatory backlash of the Reagan years. He demonstrates that while policies did change in the 1970s they did not change as much as other accounts have suggested and that the industry continued to receive considerable federal support. The book is particularly significant for extending the discussion of nuclear policy through the Bush and Clinton years including the controversy over waste disposal, new licensing procedures enacted in the 1992 Amendments to the Atomic Energy Act and the effects of deregulation of electric utilities. In today's world where other cultures are being tapped to a greater extent than ever before, the processes of mixing and matching are especially relevant in making sense of Russia. Not only do borrowing and assimilation, interaction between the familiar and the alien, constitute a venerable tradition in Russian culture, but during the two last post-Soviet decades a notable Western influence has become apparent. This book provides means for understanding Russianness in this new situation. By bringing together Russian and Western eminent and younger scholars, it provides insights both from inside and outside. By extending its perspectives to three fields—linguistics, cultural studies, and social sciences—it covers different dimensions of creative

Reformation and the Visual Arts Sergiusz Michalski, 2013-01-11 Covering a vast geographical and chronological span and bringing new and exciting material to light The Reformation and the Visual Arts provides a unique overview of religious images and iconoclasm starting with the consequences of the Byzantine image controversy and ending with the Eastern Orthodox churches of the nineteenth century The author argues that the image question played a large role in the divisions within European Protestantism and was intricately connected with the Eucharist controversy He analyses the positions of the major Protestant reformers Luther Zwingli Calvin and Karlstadt on the legitimacy of religious paintings and investigates iconoclasm both as a form of religious and political protest and as a complex set of mock revolutionary rites and denigration rituals The book also contains new research on relations between Protestant iconoclasm and the extreme icon worship of the Eastern Orthodox churches and provides a brief discussion of Eastern protestantizing sects especially in Russia
