Reforming Metropolitan Schools:

Reforming Metropolitan Schools Allan C. Ornstein, Daniel U. Levine, Doxey Alphonso Wilkerson, 1975 *Reforming Schools* Kimberly Kinsler, Mae Gamble, 2004-12-30 Reforming Schools will transform the study of school reform development and improvement It not only provides an overview of research findings professional and political issues and policy developments and their history it also relates such thinking to practice through a rich and multi faceted case study of school reform Particular emphasis is given to urban schooling with a candid look at what can be learnt not only from successful school reforms but also from failure The authors provide questions and exercises throughout to help readers interact with case study material Reforming Schools enables the readers to experience what it is like to work in the field in a way that no other book on school reform does The Business of Reforming American Schools Denise Gelberg, 1997-10-02 A critical look at the influence of the business community on the school reform movement specifically how popular business management theories have been used as tools to produce a workforce for the 21st century *Metropolitan School Organization: Proposals for reform* Troy V. McKelvey, 1974 **Education Reform in Florida** Kathryn M. Borman, Sherman Dorn, 2012-02-01 In Education Reform in Florida sociologists and historians evaluate Governor Jeb Bush s nation leading school reform policies since 1999 They examine the startlingly broad range of education policy changes enacted in Florida during Bush s first term including moves toward privatization with a voucher system more government control of public education institutions with centralized accountability mechanisms and a superboard for all public education The contributors arrive at a mixed conclusion regarding Bush s first term education policies while he deserves credit for holding students to higher standards his policies have unfortunately pushed for equality in a very narrow way The contributors remain skeptical about seeing significant and sweeping improvement in how well Florida schools work for all students Urban School Reform Frederick M. Hess, 2005-01-01 An indispensable book for administrators policymakers scholars and practitioners Urban School Reform presents a revealing portrait of reform efforts while identifying the full range of issues that education reformers will need to address in districts across the country in the years ahead Today s urban school reformers face a bewildering array of challenges Urgent problems pertaining to governance management labor relations classroom instruction and numerous other areas face those who wish to reform and improve urban schools Having undergone one of the nation s most comprehensive school reform efforts in recent years San Diego has been a site of nationwide interest one that is uncommonly well suited to learning about the challenges facing all reformers This timely book addresses the full range of critical issues pertaining to urban school reform by looking closely at the recent reform efforts in San Diego In essays by an impressive gathering of scholars and practitioners from across the country the book considers crucial dimensions of reform efforts in the San Diego schools including performance governance the external environment central leadership and management district infrastructure support services and school level instructional efforts The result is a full scale assessment

of San Diego's reform efforts a record of unmistakable relevance and value to other urban reform movements throughout the United States

Race and Educational Reform in the American Metropolis Dan A. Lewis, Kathryn Nakagawa, 1994-12-23

Resources in Education, 1975

Collective Choice in Education M.J. Bowman, 2013-03-09

The persistently increasing scale and complexity of government of quasi public organizations and of private organizations pose many problems in the economics of collective choice Moreover education as a quasi public good has drawn ever more heavily on public budgets Yet economic research into collective behavior with respect to education has been sparse with the partial exception of recent work on teacher unions In view of these trends it was decided that the third conference under the Ford sponsored UK-US Programme in the Economics of Education should make the high risk effort of encouraging and bringing together studies relating to collective choice in education with some emphasis on studies in educational finance The conference exploited opportunities for an exchange of ideas between economists in the United Kingdom and in the United States there were special gains that could come from such an interchange British and American economists do share a common inheritance that goes back to Benthamite utilitarianism and a common training in neo classical economic theory even when one or both of these is challenged which happens of course on both sides of the Atlantic They share also a culture of political democracy despite important dissimilarities in governmental structures and institutions These commonalities and contrasts facilitate comparative testing of analyses developed in either setting

Innovative School Reforms Kim Beasy, Meg Maguire, Kitty te Riele, Emma Towers, 2024-09-01 This book is a curated collection of international chapters focused on the reform of K-12 schools Three key yet different cultural economic and political settings are highlighted Australia the UK and the US Within their own context each author details the required reforms that would maximize learning for all students The intersectionalities of factors such as race gender class ethnicity disability language and economic inequities are interrogated for their impact on the efficacy of reform strategies Authors explore both a range of dysfunctional factors which have historically limited the efficacy of school reform initiatives and detail a variety of forward looking and cutting edge alternative reforms Thus this text can serve to stimulate a much needed dialogue about the reconceptualization of schools in the future Moreover the cross cultural analysis can focus this dialogue on both the similarities and differences in varying cultural settings

Routes to Reform Ben Ross Schneider, 2024 This is an open access title available under the terms of a CC BY-NC-ND 4.0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations The key to sustained and equitable development in Latin America is high quality education for all However coalitions favoring quality reforms in education are usually weak because parents are dispersed business is not interested and much of the middle class has exited public education In *Routes to Reform* Ben Ross Schneider examines education policy throughout Latin America to show that reforms to improve learning especially making teacher careers more meritocratic and less political are possible Several Andean countries and state governments in Brazil

achieved notable reform since 2000 though on markedly different trajectories Although rare the first bottom up route to reform was electoral The second route was more top down and technocratic with little support from voters or civil society Ultimately by framing education policy in a much broader comparative perspective Schneider demonstrates that contrary to much established theory reform outcomes in Latin America depended less on institutions and broad coalitions but rather due to the emptiness of the education policy space on more micro factors like civil society organizations teacher unions policy networks and technocrats

Suggested Reforms in Public Schools C. C. Cotterill,1885 **PISA Public and Private Schools How Management and Funding Relate to their Socio-economic Profile** OECD,2012-04-20 This analysis of PISA results finds that while the prevalence of privately managed schools in a country is not related to socio economic stratification within a school system the level of public funding to privately managed schools is

Problems and Possibilities of Neoliberal Education Reforms Mustafa Toprak,2024-11-14 Neoliberal education reforms promise but often don t succeed to improve student outcomes and provide more equitable educational opportunities to students with different backgrounds They hold schools accountable for their performance through high stakes testing and linking performance to rewards and sanctions and by empowering parents This book presents a critical and objective appraisal of these neoliberalist education reforms Mustafa Toprak considers the practical elements of neoliberal reforms including voucher systems choice accountability competition within and between schools educational inequalities and high stakes testing and in doing this contributes to social justice debates and the idea of education as a common good He uses reforms in Chile as a case study and offers a critique of its neoliberal educational reforms Rather than discrediting all the central tenets of neoliberal education Toprak considers the pros and cons of these reforms for students teachers schools and societies and proposes new reforms to ensure that policies accurately and responsively address the needs of all stakeholders

Ability, Equity, and Culture: Sustaining Inclusive Urban Education Reform Elizabeth B. Kozleski,Kathleen King Thorius,2013 This comprehensive book is grounded in the authentic experiences of educators who have done and continue to do the messy everyday work of transformative school reform The work of these contributors in conjunction with research done under the aegis of the National Institute of Urban School Improvement NIUSI demonstrates how schools and classrooms can move from a deficit model to a culturally responsive model that works for all learners To strengthen relationships between research and practice chapters are coauthored by a practitioner researcher team and include a case study of an authentic urban reform situation This volume will help practitioners reformers and researchers make use of emerging knowledge and culturally responsive pedagogy to implement reforms that are more congruent with the strengths and needs of urban education contexts
