Reframing Culture:

Reframing Culture William Uricchio, Roberta E. Pearson, 2014-07-14 The works of Shakespeare and Dante or the figures of George Washington and Moses do not often enter into popular conceptions of the silent cinema yet between 1907 and 1910 the Vitagraph Company frequently used such material in producing quality films that promulgated respectable culture William Uricchio and Roberta Pearson situate these films in an era of immigration labor unrest and mainstream American xenophobia in order to explore the cultural views promoted by the films and the ways the audiences the middle classes as well as workers and immigrants related to what they saw The authors associate the production of quality films with a top down forging of cultural consensus on issues such as patriotism and morality and reveal the surprising bottom up negotiations of these films meanings Devoting chapters to the literary historical and biblical subjects used by Vitagraph this book draws upon plays pageants school textbooks and even product advertisements to illuminate the conditions of cinematic production and reception It provides a detailed look at one aspect of the film industry s transformation from despised cheap amusement to the nation s dominant mass medium while showing how cultural elites engaged in a struggle similar to that of today s American academy over the literary canon and national value systems Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Culture and Tactics Robert F. Carley, 2019-10-01 Juxtaposes Antonio Gramsci's work and critical race theory to offer a new understanding of tactics as a transformative practice While scholars of social and political movements tend to analyze tactics in terms of their effectiveness in achieving specific outcomes Robert F Carley argues by contrast that tactics are above all what social movements do They are not mere means to an end so much as they are a public form of expression pointing out injustices and making just demands Rooted in a highly original analysis of the tactically mediated relationship between race and mobilization in the work of Italian philosopher and revolutionary Antonio Gramsci Culture and Tactics demonstrates how tactics impact the organizational structures of social movements and expand the affinities of political communities Carley looks at how Gramsci used innovative tactics to bridge perceptions of racial differences between factory workers and subaltern groups the latter having been denigrated to the point of subhumanity by a complex Italian national racial economy Newly envisioning Gramsci as a theorist of race within a broader context of social struggle Carley connects Gramsci's insights into the political mobilizations of racialized subaltern groups to contemporary critical race theory and cultural studies of racialization and racism Speaking across disciplines and drawing on a number of empirical examples Carley offers a battery of original concepts to assist scholars and activists in analyzing the tactical practices of protests in which race is a central factor This book provides an excellent rendering of Gramsci's political perspective applied to race and usefully extended to broader theoretical and practical applications Lee Artz coauthor of Cultural Hegemony in the United States

Quality Hollywood Geoff King,2015-11-30 What defines

quality in contemporary Hollywood film Although often seen as inhospitable to such work the studios of the blockbuster franchise era continue to produce features that make claims to higher status Films such as *The Social Network* *The Assassination of Jesse James by the Coward Robert Ford* and *Mystic River* are marked as distinctive from the mainstream norm But how exactly and how are such qualities mixed with more familiar Hollywood ingredients as found in larger doses in other examples such as *Blood Diamond* and the blockbuster scale *Inception* *Quality Hollywood* is the first book to address these issues featuring close analysis of case study films critical responses and the wider notions of cultural value on which these draw Geoff King argues that such films retain a presence as a minority strand of studio output The reasons for this combine factors relating to economics the power of certain filmmakers and Hollywood's investment in its own prestige

The Red Rooster Scare Richard Abel,1999-03-15 This outstanding work offers a new description of the evolution of American cinema in the nickelodeon period With his usual groundbreaking research Abel demonstrates the key role Path films played in this transformation Although clearly of crucial importance to film studies and film history this treatment of the issues of the rise of nationalism within the cinema should make the work of great interest to historians dealing with modern nationalism and its relation to mass media Tom Gunning author of *D W Griffith and the Origins of Narrative Film*

Rewriting Moses Brian Britt,2004-08-01 Exalted for centuries as a hero and author of the Bible Moses is inseparable from biblical tradition itself Moses is also an inherently ambiguous figure and a perennial focus of controversy from ancient disputes of priestly rivalry to modern issues of class gender and race In

Rewriting Moses Brian Britt analyses elements of polemic and ideology in the Moses of the Bible of film novel visual art and scholarship He argues that the biblical Moses lives within writing while the post biblical Moses lives more often in biography Yet later rewritings of Moses refract biblical traditions of writing in surprising ways Rewriting Moses provides an original account of the Freudian insight that traditions preserve what they repress This is volume 14 in the Gender Culture Theory series and is volume 402 in the Journal for the Study of the Old Testament Supplements series **Screen Culture and the Social Question, 1880-1914** Ludwig Vogl-Bienek, Richard Crangle, 2014-01-20 Essays exploring how reformers and charities used the magic lantern to raise public awareness of poverty Public performances using the magic or optical lantern became a prominent part of the social fabric of the late nineteenth century Drawing on a rich variety of primary sources Screen Culture and the Social Question 1880 1914 investigates how the magic lantern and cinematograph used at public lectures church services and electoral campaigns became agents of social change The essays examine how social reformers and charitable organizations used the art of projection to raise public awareness of the living conditions of the poor and the destitute as they argued for reform and encouraged audiences to work to better their lot and that of others *Cinema and the Wealth of Nations* Lee Grieveson, 2018-01-02 The silver screen and the gold standard The Panama Caper Empire of liberty Liberty bonds The State of extension The work of film in the age of Fordist mechanization The Pan American road to happiness and friendship Highways of Empire League of corporations The silver chains of mimesis The golden harvest of the silver screen Welfare media The world of tomorrow today **American Empire and the Politics of Meaning** Julian Go, 2008-03-14 An assessment of Americans efforts to provide the elite of Puerto Rico and the Philippines an education in self government in the early years of U S colonial rule **Mapping Inequality in an Era of Neoliberalism** Stephen Valocchi, 2024-09-20 Offering a unique comprehensive and critical introduction to increasingly visible social inequalities this textbook examines the political and economic causes and cultural consequences of a stratifying system that allocates material resources and human dignity on the basis of private profit and labor exploitation Mapping Inequality in an Era of Neoliberalism foregrounds capitalism as the major source of the power relations in the United States as a class system that serves the dominant vector of inequality and sets the parameters of social mobility The book starts with racialized capitalist power and shows how this power is constituted in structures of opportunity and constraint It also uses ethnographic accounts to flip the script to show how individuals in the class structure construct identities Providing students with tools for understanding Valocchi engagingly introduces many of the crucial concepts in this area of sociology power opportunity structures ideology social and cultural capitals and intersectional class identities connecting them as part of a uniquely critical approach The History of British Literature on Film, 1895-2015 Greg M. Colón Semenza, Bob Hasenfratz, Robert J. Hasenfratz, 2017-01-26 From The Death of Nancy Sykes 1897 to The Hobbit The Battle of the Five Armies 2014 and beyond cinematic adaptations of British literature participate in a complex and fascinating history The History of British Literature

on Film 1895 2015 is the only comprehensive narration of cinema's 100 year old love affair with British literature Unlike previous studies of literature and film which tend to privilege particular authors such as Shakespeare and Jane Austen or particular texts such as Frankenstein or particular literary periods such as Medieval this volume considers the multiple functions of filmed British literature as a cinematic subject in its own right one reflecting the specific political and aesthetic priorities of different national and historical cinemas In what ways has the British literary canon authorized and influenced the history and aesthetics of film and in what ways has filmed British literature both affirmed and challenged the very idea of literary canonicity Seeking to answer these and other key questions this indispensable study shows how these adaptations emerged from and continue to shape the social artistic and commercial aspects of film history **Handbook of**
