Foster, Sylvain Bellenger, Patrick Shaw Cable, Cleveland Museum of Art, 2001 Accompanying an exhibition at the Cleveland Museum of Art last fall and now at the Dahesh Museum in New York this catalog focuses upon the French drawings in Muriel Butkin s highly specialized collection which she has promised to the Cleveland Museum To assemble her diverse yet nicely integrated set of drawings Butkin started buying 18th century French

drawings when they were affordable In the mid 1970s with the guidance of art historian Gabriel Weisberg she expanded her collection to include 19th century French drawings These drawings were counter to the mainstream impressionist and postimpressionist taste of the time and focused more on academic French subject matter such as life drawings portraits or compositional studies In the preface Butkin herself reinforces her taste by saying that drawings are much more personal and spontaneous than paintings often demonstrating the artistic process Foster curator of drawings at the Cleveland Museum and other scholars present a well researched volume that contributes new information to a very specialized field of art history It is greatly disappointing however that the bulk of the reproductions are in black and white often missing the subtly colored tones in many of the drawings Nonetheless this is recommended for museum and academic libraries that support graduate programs in art history 183 b w illustrations

*Visualizing the Nation* Joan B. Landes,2018-08-06 Popular images of women were everywhere in revolutionary France Although women s political

participation was curtailed female allegories of liberty justice and the republic played a crucial role in the passage from old regime to modern society In her lavishly illustrated and gracefully written book Joan B Landes explores this paradox within the workings of revolutionary visual culture and traces the interaction between pictorial and textual political arguments Landes highlights the widespread circulation of images of the female body notwithstanding the political leadership s suspicions of the dangers of feminine influence and the seductions of visual imagery The use of caricatures and allegories contributed to the destruction of the masculinized images of hierarchic absolutism and to forging new roles for men and women in both the intimate and public arenas Landes tells the fascinating story of how the depiction of the nation as a desirable female body worked to eroticize patriotism and to bind male subjects to the nation state Despite their political subordination women too were invited to identify with the project of nationalism Recent views of the French Revolution have emphasized linguistic concerns in contrast Landes stresses the role of visual cognition in fashioning ideas of nationalism and citizenship Her book demonstrates as well that the image is often a site of contestation as individual viewers may respond to it in unexpected even subversive ways *Portraiture and Politics in Revolutionary France* Amy Freund,2015-06-13

*Portraiture and Politics in Revolutionary France* challenges widely held assumptions about both the genre of portraiture and the political and cultural role of images in France at the beginning of the nineteenth century After 1789 portraiture came to dominate French visual culture because it addressed the central challenge of the Revolution how to turn subjects into citizens Revolutionary portraits allowed sitters and artists to appropriate the means of representation both aesthetic and political and articulate new forms of selfhood and citizenship often in astonishingly creative ways The triumph of revolutionary portraiture also marks a turning point in the history of art when seriousness of purpose and aesthetic ambition passed from the formulation of historical narratives to the depiction of contemporary individuals This shift had major consequences for the course of modern art production and its engagement with the political and the contingent Watteau, Music, and Theater Antoine Watteau,Georgia Cowart,2009 Accompanying an exhibition in honor of Philippe de Montebello Director Emeritus of The Metropolitan Museum of Art this engaging book examines the influence of music and theater on the art of Jean Antoine Watteau 1684 1721 Fifteen major paintings and a number of drawings by Watteau that illustrate the connections between painting and the performing arts in Paris are explored In addition drawings and prints by other 18th century artists featuring musical or theatrical subjects and objects and musical instruments are included Publisher description **Fragonard** Perrin Stein,Marie-Anne Dupuy-Vachey,Eunice Williams,Kelsey Brosnan,2016 One of the most forward looking artists of the eighteenth century Jean Honor Fragonard 1732 1806 was a virtuoso draftsman whose works on paper count among the great achievements of his time This book showcases Fragonard s mastery and experimentation in a range of media from vivid red chalk to luminous brown wash as well as etching watercolor and gouache With essays that focus on the role of drawing in his creative process and provide a modern reevaluation of his graphic work the book offers

fresh perspectives on this innovative and independent artist who began his career in the Rococo era but lived through and adapted to changing times in France and who chose to leave the more defined path of official patronage in order to work for private clients Unlike many earlier painters who used drawings primarily as preparatory tools Fragonard explored their potential as works of art in their own right ones that permitted him to work with great freedom and allowed his genius to shine The 100 featured works come from New York collections public and private balancing a mix of well loved masterpieces new discoveries and works that have long been out of the public eye Fragonard Drawing Triumphant illuminates the approach of a ceaselessly inventive artist whose draftsmanship was at the core of his remarkable body of work     Daumier Drawings Colta Feller Ives, Margret Stufmann, Martin Sonnabend, Metropolitan Museum of Art (New York, N.Y.), 1992 By combining Daumier's drawings with selected examples of his paintings prints and bronzes this book traces the evolution of the artist's succinct and emphatically expressive style from its roots in the European tradition exemplified by Rembrandt Rubens and Fragonard to its modern manifestations in the works of Degas Cezanne Toulouse Lautrec and Beckmann In the course of his long and productive career Daumier returned again and again to favorite themes often after considerable lapses of time Thus the works here are grouped by their subject matter into six sections studies of individual figures and faces narrative scenes inspired by history or literature views of contemporary urban and domestic life dramatic portrayals of lawyers in court depictions of street performers and episodes in the wanderings of Don Quixote and Sancho Panza
