**New Lights in the Valley** Tennant S. McWilliams, 2007-08-16 A scholarly narrative of The University of Alabama at Birmingham from its nascent beginnings through the mid 1990s

The Possible South R. Bruce Brasell, 2015-11-09 Using cultural theory author R Bruce Brasell investigates issues surrounding the discursive presentation of the American South as biracial and explores its manifestation in documentary films including such works as Tell about the South broken ground and Family Name After considering the emergence of the region s biraciality through a consideration of the concepts of racial citizenry and racial performativity Brasell examines two problems associated with this framework First the framework assumes racial purity and second it assumes that two races exist In other words biraciality enacts two denials first the existence of miscegenation in the region and second the existence of other races and ethnicities Brasell considers bodily miscegenation discussing the racial closet and the southeastern expatriate road film Then he examines cultural miscegenation through the lens of racial

poaching and 1970s southeastern documentaries that use redemptive ethnography In the subsequent chapters using specific documentary films he considers the racial in betweenness of Spanish speaking ethnicities Mosquitoes and High Water Living in America Nuestra Comunidad probes issues related to the process of racial negotiation experienced by Asian Americans as they seek a racial position beyond the black and white binary Mississippi Triangle and engages the problem of racial legitimacy confronted by federally non recognized Native groups as they attempt the same feat Real Indian **Sharing the Prize** Gavin Wright, 2013-02-25 Southern bus boycotts and lunch counter sit ins were famous acts of civil disobedience but were also demands for jobs in the very services being denied blacks Gavin Wright shows that the civil rights struggle was of economic benefit to all parties the wages of southern blacks increased dramatically but not at the expense of southern whites

**After the Dream** Timothy Minchin, 2011-03-25 Martin Luther King s 1965 address from Montgomery Alabama the center of much racial conflict at the time and the location of the well publicized bus boycott a decade earlier is often considered by historians to be the culmination of the civil rights era in American history In his momentous speech King declared that segregation was on its deathbed and that the movement had already achieved significant milestones Although the civil rights movement had won many battles in the struggle for racial equality by the mid 1960s including legislation to guarantee black voting rights and to desegregate public accommodations the fight to implement the new laws was just starting In reality King s speech in Montgomery represented a new beginning rather than a conclusion to the movement a fact that King acknowledged in the address After the Dream Black and White Southerners since 1965 begins where many histories of the civil rights movement end with King s triumphant march from the iconic battleground of Selma to Montgomery Timothy J Minchin and John Salmond focus on events in the South following the passage of the 1964 Civil Rights Act and the 1965 Voting Rights Act After the Dream examines the social economic and political implications of these laws in the decades following their passage discussing the empowerment of black southerners white resistance accommodation and acceptance and the nation s political will The book also provides a fascinating history of the often overlooked period of race relations during the presidential administrations of Ford Carter Reagan and both George H W and George W Bush Ending with the election of President Barack Obama this study will influence contemporary historiography on the civil rights movement

Department of Health, Education, and Welfare. Secretary's Committee on Mental Retardation, 1969 **"Everybody was Black Down There"** Robert H. Woodrum, 2007 In 1930 almost 13 000 African Americans worked in the coal mines around Birmingham Alabama They made up 53 percent of the mining workforce and some 60 percent of their union s local membership At the close of the twentieth century only about 15 percent of Birmingham s miners were black and the entire mining workforce had been sharply reduced Robert H Woodrum offers a challenging interpretation of why this dramatic decline occurred and why it happened during an era of strong union presence in the Alabama coalfields Drawing on union company and government records as well as interviews with coal miners Woodrum examines the complex connections between racial ideology and technological and economic change Extending the chronological scope of previous studies of race work and unionization in the Birmingham coalfields

Woodrum covers the New Deal World War II the postwar era the 1970s expansion of coalfield employment and contemporary trends toward globalization The United Mine Workers of America s efforts to bridge the color line in places like Birmingham should not be underestimated says Woodrum Facing pressure from the wider world of segregationist Alabama however union leadership ultimately backed off the UMWA s historic commitment to the rights of its black members Woodrum discusses the role of state UMWA president William Mitch in this process and describes Birmingham s unique economic circumstances as an essentially Rust Belt city within the burgeoning Sun Belt South This is a nuanced exploration of how despite their central role in bringing the UMWA back to Alabama in the early 1930s black miners remained vulnerable to the economic and technological changes that transformed the coal industry after World War II     **The National Real Estate Journal** ,1917
