Library, 1913 **Post-War Business Planners in the United States, 1939-48** Charlie Whitham, 2016-10-20 During the Second World War several independent business organizations in the US devoted considerable energy to formulating and advocating social and economic policy options for the US government for implementation after the war This planning community of far sighted businessmen joined with academics and government officials in a nationwide endeavor to ensure that the colossal levels of productivity achieved by the US during wartime continued into the peace At its core this effort was part of a wider struggle between liberals moderates and conservatives over determining the economic and social responsibilities of government in the new post war order In this book Charlie Whitham draws on an abundance of unpublished primary material from private and public archives that includes the minutes memoranda policy statements and research studies of the major post war business planning organisations on a wide range of topics including monetary policy demobilization labor policy international trade and foreign affairs This is the untold story of how the post war business planners of all hues helped shape the moderate consensus which prevailed after 1945 over a permanent but limited government responsibility for fiscal welfare and labor affairs advanced American interests overseas and established **Report of the Commission on Post-war Training and Adjustment** Commission on post-war training and adjustment, 1942 *Post-war Economic Policy and Planning* United States. War Relocation Authority, The Politics of Childhood in Cold War America Ann Maire Kordas, 2015-10-06 This study examines how childhood and adolescence were shaped by and contributed

to Cold War politics in America **Chasing Automation** Jerry Prout, 2022-07-15 Chasing Automation tells the story of how a group of reform minded politicians during the heyday of America's industrial prowess 1921-1966 sought to plan for the technological future Beginning with Warren G Harding and the Conference he convened in 1921 Jerry Prout looks at how the US political system confronted the unemployment caused by automation Both liberals and conservatives spoke to the crucial role of technology in economic growth and the need to find work for the unemployed and Prout shows how their disputes turned on the means of achieving these shared goals and the barriers that stood in the way This political history highlights the trajectories of two premier scientists of the period Norbert Wiener and Vannevar Bush who walked very different paths Wiener began quietly developing his language of cybernetics in the 1920s though its effect would not be realized until the late 1940s The more pragmatic Bush was tapped by FDR to organize the scientific community and his ultimate success the Manhattan Project is emblematic of the technological hubris of the era Chasing Automation shows that as American industrial productivity dramatically increased the political system was at the mercy of the steady advance of job replacing technology It was the sheer unpredictability of technological progress that ultimately posed the most formidable challenge Reformers did not succeed in creating a federal planning agency but they did create an enduring safety net of laws that workers continue to benefit from today as we face a new wave of automation and artificial intelligence **In Thrall to Political Change** Malcolm Anderson, 2011-08-25 This is the first history of the French police and gendarmerie for the period since the establishment of a democratic Republican regime in 1870 down to the present day Based on archival material and on the vast amount of recent research by French scholars on the subject it covers dramatic and often harrowing developments anarchist and communist subversion violent demonstrations and strikes fascist threats war and occupation colonial conflicts and regime change which have made policing in France troubled and controversial As well as a chronological history the book contains a thematic treatment of the police and the Republican regime including the complex police justice and police military relations the politics of police officials analysing the charge of racism politico police scandals and inequalities of policing of major controversies over political policing municipal or central control of the police and modernisation and of areas which pose problems for which there is no clear solution use of force and police violence police accountability private security and internationalization In conclusion the relations between the police and the public and the place of the police in the political order are assessed It is interdisciplinary in approach using the academic literature in sociology history political science criminal justice as well as the writings of police practitioners The subject is placed in the context of international debates on policing and the language used is free of jargon and the use without explanation of French terms The bibliography and sources are a basic guide for further study of the subject The Politics Of Realignment Peter F Galderisi, Michael S Lyons, Randy T. Simmons, John G Francis, 2019-07-11 The landslide reelection of President Ronald Reagan in 1984 prompted political analysts to consider the possibility of a national realignment of the electorate toward the

Republican party The 1986 elections however proved any predictions of a national realignment to be premature A major shift in voting patterns had not taken place except in the Mountain West where a realignment was already in place Once second only to the southern states in Democratic attachments these western states Arizona Colorado Idaho Montana Nevada New Mexico Utah and Wyoming now compose the most Republican region in the nation The contributors to this volume assert that this substantial change in electoral patterns which has spanned nearly forty years resulted not from a westward migration but from a widespread conversion among those who are born and remain in the region In analyzing this realignment these writers some of the nation s best electoral scholars provide historical and contemporary overviews and assess the important issues not only for voters but also for party organizations and members of Congress Their focus in *The Politics of Realignment* however is on the Mountain West s role in contemporary American politics The authors present a comprehensive investigation into the meaning of this regional realignment for national politics

Education for Victory, 1942 *Adolescents and War* Brian K Barber, 2009-10-22 Experts aim to understand and document the intricacies of youth who have been involved in political violence They argue that the assumption that youth are automatically debilitated by this violence is too simplistic effective care must include an awareness of motives and beliefs roles they played in the conflict relationships et cetera *Domestic Commerce* United States. Bureau of Foreign and Domestic Commerce, 1943 **World War Veterans' Legislation** United States. Congress. House. Committee on World War Veterans' Legislation, 1944
