Repression And Resistance In Communist Europe:

Repression and Resistance in Communist Europe Jason Sharman, 2004-06 This book explores the role of coercion in the relationship between the citizens and regimes of communist Eastern Europe Looking in detail at Soviet collectivisation in 1928-34 the Hungarian Uprising of 1956 and the Polish Solidarity Movement of 1980-84 it shows how the system excluded channels to enable popular grievances to be translated into collective opposition how this lessened the amount of popular protest affected the nature of such protest as did occur and entrenched the dominance of state over society **Patterns of**

Repression and Resistance in Communist Europe Jason Campbell Sharman, 1999 *Worlds Apart? A Postcolonial Reading of post-1945 East-Central European Culture* Cristina Sandru, 2013-01-16 This study explores the relation of the Eastern European problematic to postcolonial critical practice interrogating the extent to which postcolonialism can help illuminate instances of imperial domination in non Third World contexts It argues that colonisation is to be understood principally as a condition of ideological domination that has engendered similar forms of literary and cultural resistance consequently it offers a comparative framework which enables a reading in differential contexts of texts that ostensibly have little in common but which on close examination reveal a shared imaginative space rhetoric and narrative agency The book consists of two interrelated parts Part one is a critical discussion of the ideologies cultural imaginaries and representational practices articulated in a diverse range of representative postcolonial and post 1945 East Central European texts these are shown to share despite dissimilar conditions of production uncannily related narrative modes and thematic emphases Part two is a comparative literature case study which discusses two authors whose work is both highly representative of the cultural formations discussed in the first part Milan Kundera and Salman Rushdie and at the same time highly controversial The chapters dedicated to Kundera's and Rushdie's work examine the cultural geography of their novels particularly in the writers use of memory and story telling to reconfigure history and personal identity in conditions of literal and metaphorical displacement While their novels thrive on ironic subversion and ambiguity they simultaneously gesture towards a redemptive space of the imagination transcending the constraints of both locality and history **Ideologies of Eastness in Central**

and Eastern Europe Tomasz Zarycki, 2014-03-21 This book explores how the countries of Eastern Europe which were formerly part of the Soviet bloc have since the end of communist rule developed a new ideology of their place in the world Drawing on post colonial theory and on identity discourses in the writings of local intelligentsia figures the book shows how people in these countries no longer think of themselves as part of the east and how they have invented new stereotypes of the countries to the east of them such as Ukraine and Belarus to which they see themselves as superior The book demonstrates how there are a whole range of ideologies of eastness how these have changed over time and how such ideologies impact in a practical way relations with countries further east **The Baltic States from the Soviet Union to the European Union**

Richard C. M. Mole, 2012 This book provides an informative and interesting overview of developments in Estonia Latvia and

Lithuania as they made the transition from Soviet domination to membership of the EU It focuses in particular on the concepts of identity sovereignty and power in the domestic and international politics of the Baltic states

Eastern Europe and the Challenges of Modernity, 1800-2000 Stefano Bianchini, 2015-03-02 This book presents a concise and comprehensive overview of the mainstream flows of ideas politics and itineraries towards modernity in Central and Eastern Europe and the Balkans over two centuries from the beginning of the nineteenth century to the end of the Gorbachev administration Unlike other books on the subject which view modernity based on the idea of Western European supremacy this book outlines the various different pathways of development and of growing industrialisation urbanisation and secularisation which took place across the region It provides rich insights on the complex networks whereby very varied

ideas aspirations and policies interacted to bring about a varied pattern of progress and of integration and isolation with different areas moving in different ways and at different paces Overall the book presents something very different from the traditional picture of the two Europes Particular examples covered include agrarian reform movements in various phases different models of socialism and different models of socialist reform **Minority Rights in Central and Eastern Europe** Bernd Rechel,2010-06 This book provides a comprehensive assessment of minority rights in Central and Eastern Europe covering all the countries of the region that have joined the EU since 2004 including Poland Czech Republic Hungary Slovenia Estonia Lithuania Latvia Slovakia Romania and Bulgaria **Transitional Justice in Eastern Europe and the Former Soviet Union** Lavinia Stan,2009-01-13 This book examines transitional justice in Eastern Europe and the former USSR exploring their attempts to come to terms with the gross human abuses which characterized their communist past It considers transitional justice in all its aspects explaining why different countries adopted different models and how successful they have been **The European Union and its Eastern Neighbours** Elena Korosteleva,2012-05-15 This book explores the EU s relations with its eastern neighbours Based on extensive original research including surveys focus groups a study of school essays and in depth interviews with key people in Belarus Ukraine Moldova Russia and in Brussels it assesses why the EU s initiatives have received limited legitimacy in the neighbourhood The European Neighbourhood Policy of 2004 and the subsequent Eastern Partnership of 2009 heralded a new form of relations with the EU s neighbours partnership based on joint ownership and shared values which would complement if not entirely replace the EU s traditional governance framework used for enlargement These initiatives have however received a mixed response from the EU s eastern neighbours The book shows how the key elements of partnership have been forged mainly by the EU rather than jointly and examines the idea and application of external governance and how this has been over prescriptive and confusing

Globalization and the State in Central and Eastern Europe Jan Drahokoupil,2009 This book examines the transformation of the state in Central and Eastern Europe since the end of communism and adoption of market oriented reform in the early 1990s exploring the impact of globalization and economic liberalization on the region s states societies and political economy It compares the different policies and national strategies adopted by key Central and Eastern European states including the Czech Republic Poland Hungary and Slovakia showing how initial internally oriented strategies of market reform privileging domestic sources of investment had by the late 1990s given way to externally oriented strategies emphasising the promotion of competitiveness by attracting foreign investment It explores the reasons behind this convergence considering the influence of internal and external forces and the roles of interests institutions and ideas It argues that internationalization of the state is forged in the processes through which domestic groups linked to transnational capital attain domestic influence necessary to shape state policy and strategy These groups the comprador service sector in particular constitute and organize political social and institutional support of the competition state in the region Overall this book not only provides a detailed

account of the political economy of post communist transformation in Central and Eastern Europe but also the processes by which states adapt to the forces of globalization *East European Diasporas, Migration, and Cosmopolitanism* Ulrike Ziemer, Sean P. Roberts, 2013 Following the collapse of the communist regimes in Eastern Europe and the Soviet Union there were considerable migration flows the migrations and subsequent diasporas often having special characteristics given the relative lack of migration in communist times and the climate of increasing nationalism which had the potential of working against multiculturalism This book explores these migrations and diasporas and examines the nature of the associated cosmopolitanism *Central and Eastern Europe After Transition* Wojciech Sadurski, 2016-04-08 How have national identities changed developed and reacted in the wake of transition from communism to democracy in Central and Eastern Europe Central and Eastern Europe After Transition defines and examines new autonomous differences adopted at the state and the supranational level in the post transitional phase of the post Communist area and considers their impact on constitutions democracy and legal culture With representative contributions from older and newer EU members the book provides a broad set of cultural points for reference Its comparative and interdisciplinary approach includes a useful selection of bibliographical resources specifically devoted to the Central Eastern European countries transitions **New Europe's New Development Aid** Balázs Szent-Iványi, Simon Lightfoot, 2015-04-17 This book examines the international development policies of five East Central European new EU member states the Czech Republic Hungary Poland Slovakia and Slovenia These countries turned from being aid recipients to donors after the turn of the millennium in the run up to EU accession in 2004 The book explains the evolution subsequent to EU accession and current state of foreign aid policies in the region and the reasons why these deviate from many of the internationally agreed best practices in development cooperation It argues that after the turn of the millennium a Global Consensus has emerged on how to make foreign aid more effective for development A comparison between the elements of the Global Consensus and the performance of the five countries reveals that while they have generally implemented little of these recommendations there are also emerging differences between the countries with the Czech Republic and Slovenia clearly aspiring to become globally responsible donors Building on the literatures on foreign policy analysis international socialization and interest group influence the book develops a model of foreign aid policy making in order to explain the general reluctance of the five countries in implementing international best practices and also the differences in their relative performance **Democracy and Myth in Russia and Eastern Europe** Alexander Wöll, Harald Wydra, 2007-10-18 This book explores democracy and democratization in Eastern Europe focusing on the influence of politically important literary and historical myths in pre communist and communist Eastern Europe and Russia The Economic Sources of Social Order Development in Post-socialist Eastern Europe Richard Connolly, 2013 Nearly twenty years after the collapse of socialism the countries of post socialist Eastern Europe have experienced divergent trajectories of political development This book looks at why this is the case based on the assumption that societies or social

orders can be distinguished by the extent to which competitive tendencies contained within them economic political social and cultural are resolved according to open rule based processes The book explores which economic conditions allow for increased levels of political competition and it tests the hypothesis that the nature of a country's ties with the international economy and the level of competition within a country's economic system will shape the trajectory of political competition within that society The book goes on to argue that after several decades of relative bloc autarky during the socialist period the ongoing process of reintegration with the international economy across the post socialist region has resulted in distinct patterns of structural economic development and that that these patterns are of crucial importance in explaining the variation in social order type across the post socialist region By offering a more precise analysis of the causal mechanisms that link economic and political competition the book makes a useful contribution to research on the different patterns of political behaviour that have been observed across the post socialist region since the collapse of the socialist regimes The New Right in the New Europe Seán Hanley, 2007-08-07 Using the Czech example this book considers the emergence of centre right parties in Eastern Europe following the collapse of communism

Cinema, State Socialism and Society in the Soviet Union and Eastern Europe, 1917-1989 Sanja Bahun, John Haynes, 2014-07-25 This book presents a comprehensive re examination of the cinemas of the Soviet Union and Central and Eastern Europe during the communist era It argues that since the end of communism in these countries film scholars are able to view these cinemas in a different way no longer bound by an outlook relying on binary Cold War terms With the opening of archives in Eastern Europe and the former Soviet Union much more is known about these states and societies at the same time the field has been reinvigorated by its opening up to more contemporary concepts themes and approaches in film studies and adjacent disciplines Taking stock of these developments this book presents a rich varied tapestry relating specific films to specific national and transnational circumstances rather than viewing them as a single monolithic Cold War Communist cinema East European Fault Lines Janusz Bugajski, 2019-04-10 This book provides a comparative analysis of oppositionist trends in the Soviet satellite states of contemporary Eastern Europe It evaluates the extent and objectives of independent social activism in these countries and explores both the causes and effects of public dissent
