*The Persistent Prison?* Maeve Winifred McMahon, 1992-01-01 The Prison system is widely believed to be an immutable element of contemporary society Many criminologists and sociologists of deviance believe that decarceration movements have failed to yield progressive reform and that feasible alternatives to the prison system do not exist Maeve McMahon challenges these views Reconstructing the emergence of critical perspectives on decarceration she examines analytical and empirical problems in the research She also points out how indicators of community programs and other penalties serving as alternatives to prison have typically been overshadowed through critical focus on their effects in widening the net of control McMahon presents a detailed analysis of decreasing imprisonment and of the part played by alternatives in this during the postwar period in Ontario Drawing from extensive documentary research and from interviews with former correctional officials she charts the changing climates of opinions and socio economic factors which facilitated decarceration By situating her analysis in the context of theoretical and political arguments about the possibility of decarceration McMahon provides in her work a stimulus to the development of progressive penal politics not just in Canada but in all western countries **The**

**Future of Policing** Jennifer Brown, 2013-10-08 The police service in England and Wales is facing major challenges in its financing political oversight and reorganisation of its structures Current economic conditions have created a wholly new environment whereby cost saving is permitting hitherto unthinkable changes in the style and means of delivery of policing services In the context of these proposed changes Lord Stevens formerly Commissioner of the Metropolitan Police Service was asked to chair an Independent Commission looking into the future of policing The Commission has a wide ranging remit and the papers in this book offer up to date analysis of contemporary problems from the novel perspective of developing a reform agenda to assist the Commission Bringing together contributions from both key academic thinkers and police professionals this book discusses new policing paradigms lays out a case for an evidence based practice approach and draws attention to developing areas such as terrorism public order and hate crime Policing is too important to be left to politicians as the health of a democracy may be judged by the relationship between the police and the public The aim of this book is to question and present analyses of problems offer new ideas and propose realistically achievable solutions without being so timid as to preserve the status quo It will be of interest to both academics and students in the fields of criminology and policing studies as well as professionals in the policing service NGOs and local authority organisations A Sociology of

Crime Stephen Hester, Peter Eglin, 2017-05-15 A Sociology of Crime has an outstanding reputation for its distinctive and systematic contribution to the criminological literature Through detailed examples and analysis it shows how crime is a product of processes of criminalisation constituted through the interactional and organizational use of language In this welcome second edition the book reviews and evaluates the current state of criminological theory from this grammatical perspective It maintains and develops its critical and subversive stance but greatly widens its theoretical range including

dedicated chapters on gender race class and the post als including postcolonialism It now also provides questions exercises and further readings alongside its detailed analysis of a set of international examples both classical and contemporary

**Indigenous Homelessness** Evelyn Peters,Julia Christensen,2016-10-28 Being homeless in one s homeland is a colonial legacy for many Indigenous people in settler societies The construction of Commonwealth nation states from colonial settler societies depended on the dispossession of Indigenous peoples from their lands The legacy of that dispossession and related attempts at assimilation that disrupted Indigenous practices languages and cultures including patterns of housing and land use can be seen today in the disproportionate number of Indigenous people affected by homelessness in both rural and urban settings Essays in this collection explore the meaning and scope of Indigenous homelessness in the Canada Australia and New Zealand They argue that effective policy and support programs aimed at relieving Indigenous homelessness must be rooted in Indigenous conceptions of home land and kinship and cannot ignore the context of systemic inequality

institutionalization landlessness among other things that stem from a history of colonialism Indigenous Homelessness Perspectives from Canada New Zealand and Australia provides a comprehensive exploration of the Indigenous experience of homelessness It testifies to ongoing cultural resilience and lays the groundwork for practices and policies designed to better address the conditions that lead to homelessness among Indigenous peoples **Disarm, Defund, Dismantle** Shiri

Democratic Policing in a Changing World Peter K. Manning,2015-11-17 Democratic policing today is a widely used approach to policing not only in Western societies but increasingly around the world Yet it is rarely defined and it is little understood by the public and even by many of its practitioners Peter K Manning draws on political philosophy sociology and criminal justice to develop a widely applicable fundamental conception of democratic policing In the process he delineates today s relationship between democracy and policing Democratic Policing in a Changing World documents the failure of police reform showing that each new approach such as crime mapping and hot spots policing fails to alter any fundamental practice and has in fact increased

social inequalities He offers a new and better approach for scholars policy makers police governments and societies

*Community Policing* Dominique Wisler,Ihekwoaba D. Onwudiwe,2009-06-10 Community oriented policing COP is the ideology and policy model espoused in the mission statements of nearly all policing forces throughout the world However the COP philosophy is interpreted differently by different countries and police forces resulting in practices that may in fact run far afield of the community based themes of partnership *Alternative dispute resolution* Jeremy McBride,Claude

Samson,1993 Introducing Criminology Clive Coleman,Clive Norris,2013-06-17 This book answers the basic questions what is crime what is criminology before examining the ways in which crime has been studied and looking at the main approaches and schools of thought within criminology and how these have been developed *Ethnography and the*

*Evocative World of Policing* Matthew Bacon,Bethan Loftus,Mike Rowe,2023-12-04 This book demonstrates the unique contribution police ethnographies make to our understanding of policing cultures and practices in a variety of international settings It features contemporary examples of police ethnographies that demonstrate the continuing value of ethnographic work to our understanding of policing The first section of the book focuses on the police and Anglo American policing The second section is international in scope and seeks to enrich our understandings of policing beyond the police Chapters explore police interactions during a stop and search and at a carnival They peer behind the scenes at the control room and at the use of intelligence We listen in to the experiences of new recruits and the stories told in canteens They also take us into the world of private security agencies to Kenya and to Vietnam The book explores the position of ethnographers asking whether we do too much with rather than on the police and whether our work reveals more about us as academics than them as officers Together they are revealing of a changing policing landscape *Ethnography and the Evocative World of Policing* demonstrates the unique value of ethnographic work in the fields of policing studies and criminology It will be a key resource for scholars and researchers of policing criminology sociology law and research methods The chapters in this book were originally published in two special issues of *Policing and Society* **Eyes Everywhere** Aaron Doyle,Randy Lippert,David

Lyon,2013-03-01 In many countries camera surveillance has become commonplace and ordinary citizens and consumers are increasingly aware that they are under surveillance in everyday life Camera surveillance is typically perceived as the archetype of contemporary surveillance technologies and processes While there is sometimes fierce debate about their introduction many others take the cameras for granted or even applaud their deployment Yet what the presence of surveillance cameras actually achieves is still very much in question International evidence shows that they have very little effect in deterring crime and in making people feel safer but they do serve to place certain groups under greater official scrutiny and to extend the reach of today s surveillance society *Eyes Everywhere* provides the first international perspective

on the development of camera surveillance It scrutinizes the quiet but massive expansion of camera surveillance around the world in recent years focusing especially on Canada the UK and the USA but also including less debated but important contexts such as Brazil China Japan Mexico South Africa and Turkey Containing both broad overviews and illuminating case studies including cameras in taxi cabs and at mega events such as the Olympics the book offers a valuable oversight on the status of camera surveillance in the second decade of the twenty first century The book will be fascinating reading for students and scholars of camera surveillance as well as policy makers and practitioners from the police chambers of commerce private security firms and privacy and data protection agencies      **Policing Across the World** R.I.

Mawby,2013-04-15 This wide ranging text provides an overview of policing across different societies and considers the issues facing the US and British police in a wider international context The book is designed as a coherent introduction to the police

**Writing the World of Policing** Didier Fassin,2017-10-25 In his edited collection Writing the World of Policing The Difference Ethnography Makes renowned anthropologist sociologist Didier Fassin brings together some of the greatest minds in the social sciences to reflect on the question of urban policing in disadvantaged neighborhoods worldwide The aim of the volume is both to show how ethnography can illuminate the role of policing in society as well as to show how an attention to law enforcement can alter and provoke the practice of ethnography itself Spanning five continents and tackling such concepts as accountability complicity morality detention alibi and others this volume is bound to become one of the major statements on a topic of increasing interest Structured around three sections position observation and description the book mirrors the process of the ethnographic method itself taking us deep within each local context it investigates while never losing sight of the global relevance of crime law and the exercise of power inherent to both      **The Handbook of Social**

Martin,2019-10-15 What if the job of police was to cultivate the political will of a community to live with itself rather than enforce law keep order or fight crime In *Sentiment Reason and Law* Jeffrey T Martin describes a

world where that is the case The Republic of China on Taiwan spent nearly four decades as a single party state under dictatorial rule 1949 1987 before transitioning to liberal democracy Here Martin describes the social life of a neighborhood police station during the first rotation in executive power following the democratic transition He shows an apparent paradox of how a strong democratic order was built on a foundation of weak police powers and demonstrates how that was made possible by the continuity of an illiberal idea of policing His conclusion from this paradox is that the purpose of the police was to cultivate the political will of the community rather than enforce laws and keep order As *Sentiment Reason and Law* shows the police force in Taiwan exists as an anthropological fact bringing an order of reality that is always simultaneously and inseparably meaningful and material Martin unveils the power of this fact demonstrating how the politics of sentiment that took shape under autocratic rule continued to operate in everyday policing in the early phase of the democratic transformation even as a more democratic mode of public reason and the ultimate power of legal right were becoming more significant
