Requiem For A Vampire:

Celluloid Vampires Stacey Abbott, 2009-03-06 In 1896 French magician and filmmaker George Méliès brought forth the first celluloid vampire in his film *Le manoir du diable*. The vampire continues to be one of film's most popular gothic monsters and in fact today more people become acquainted with the vampire through film than through literature such as Bram Stoker's classic *Dracula*. How has this long legacy of celluloid vampires affected our understanding of vampire mythology? And how has the vampire morphed from its folkloric and literary origins? In this entertaining and absorbing work Stacey Abbott challenges the conventional interpretation of vampire mythology and argues that the medium of film has completely reinvented the vampire archetype. Rather than representing the primitive and folkloric, the vampire has come to embody the very experience of modernity. No longer in a cape and coffin, today's vampire resides in major cities, listens to punk music, embraces technology and adapts to any situation. Sometimes she's even female. With case studies of vampire classics such as *Nosferatu*, *Martin*, *Blade* and *Habit*, the author traces the evolution of the American vampire film, arguing that vampires are more than just blood drinking monsters; they reflect the cultural and social climate of the societies that produce them, especially during times of intense change and modernization. Abbott also explores how independent filmmaking techniques, special effects, makeup and the stunning and ultramodern computer generated effects of recent films have affected the representation of the vampire in film.

The Encyclopedia of Best Films Jay Robert Nash, 2019-10-23 This all inclusive A-Z encyclopedia by one of the world's foremost experts on cinema provides comprehensive annotations of the best films produced from 1914 on. The work offers more than 5,000 three to five star entries: three stars good, four stars excellent, five stars masterpiece, and yes, author Jay Robert Nash has viewed every single one of them as well as many more that did not make the cut. In addition to a précis, each film's entry also includes a listing of the cast as well as the key principles involved in production, from the director to the hair stylist. Especially unique to this book is a rating system that helps parents determine whether or not a film is appropriate for their children. Unlike the industry rating system which can be influenced by studio lobbying, Nash objectively evaluates each film and confers upon it one of four recommendations for viewing: recommended, acceptable, cautionary and unacceptable. Backmatter includes a list of top films by genre (i.e. animated, drama, sports, mystery, adventure, etc.) as well as an annotated name index listing all persons mentioned along with their dates of birth and death. Rounding out this essential volume for the film buff are over 500 still photos from the author's private collection.

Character Counts Michael Glenn Maness, 2010-12

Seventies British Cinema Robert Shail, 2019-07-25

Seventies British Cinema provides a comprehensive re evaluation of British film in the 1970s The decade has long been written off in critical discussions as a doldrums period in British cinema perhaps because the industry facing near economic

collapse turned to unacceptable low culture genres such as sexploitation comedies or extreme horror. The contributors to this new collection argue that 1970s cinema is ripe for reappraisal, giving serious critical attention to populist genre films; they also consider the development of a British art cinema in the work of Derek Jarman and Peter Greenaway and the beginnings of an independent sector fostered by the BFI Production Board and producers like Don Boyd. A host of highly individual directors managed to produce interesting and cinematically innovative work against the odds, from Nicolas Roeg to Ken Russell to Mike Hodges. As well as providing a historical and cinematic context for understanding Seventies cinema, the volume also features chapters addressing Hammer horror, the Carry On films, Bond films of the Roger Moore period, Jubilee and other films that responded to Punk rock heritage cinema, and case studies of key seventies films such as *The Wicker Man* and *Straw Dogs*. In all, the book provides the final missing piece in the rediscovery of British cinema's complex and protean history. Contributors: Ruth Barton, James Chapman, Ian Conrich, Wheeler Winston Dixon, Christophe Dupin, Steve Gerrard, Sheldon Hall, I. Q. Hunter, James Leggott, Claire Monk, Paul Newland, Dan North, Robert Shail, Justin Smith, and Sarah Street.

Encyclopedia of French Film Directors Philippe Rège, 2009-12-11 Cinema has been long associated with France, dating back to 1895 when Louis and Auguste Lumière screened their works, the first public viewing of films anywhere. Early silent pioneers Georges Méliès, Alice Guy, Blach-Z and others followed in the footsteps of the Lumière brothers and the tradition of important filmmaking continued throughout the 20th century and beyond. In *Encyclopedia of French Film Directors*, Philippe Rège identifies every French director who has made at least one feature film since 1895. From undisputed masters to obscure one timers, nearly 3 000 directors are cited here, including at least 200 filmmakers not mentioned in similar books published in France. Each director's entry contains a brief biographical summary, including dates and places of birth and death, information on the individual's education and professional training, and other pertinent details such as real names when the filmmaker uses a pseudonym. The entries also provide complete filmographies, including credits for feature films, shorts, documentaries, and television work. Some of the most important names in the history of film can be found in this encyclopedia, from masters of the Golden Age, Jean Renoir and René Clair, to French New Wave artists such as François Truffaut and Jean-Luc Godard.

Gothic Cinema Xavier Aldana Reyes, 2019-12-12 Arguing for the need to understand Gothic cinema as an aesthetic mode, this book explores its long history from its transitional origins in phantasmagoria shows and the first trick films to its postmodern fragmentation in the Gothic pastiches of Tim Burton. But what is Gothic cinema? Is the iconography of the Gothic film equivalent to that of the horror genre? Are the literary origins of the Gothic what solidified its aesthetics? And exactly what cultural roles does the Gothic continue to perform for us today? *Gothic Cinema* covers topics such as the chiaroscuro experiments of early German cinema, the monster cinema of the 1930s, the explained supernatural of the old dark house mystery films of the 1920s and the Female Gothics of the 1940s, the use of vibrant colours in the period Gothics of the late 1950s, the European exploitation booms of the 1960s and 1970s, and the animated films and Gothic

superheroes that dominate present times Throughout Aldana Reyes makes a strong case for a medium specific and more intuitive approach to the Gothic on screen that acknowledges its position within wider film industries with their own sets of financial pressures and priorities This groundbreaking book is the first thorough chronological transhistorical and transnational study of Gothic cinema ideal for both new and seasoned scholars as well as those with a wider interest in the Gothic

Book of the Dead Jamie Russell, 2005 From 1932's *White Zombie* to *28 Days Later* and the current crop of Japanese shockers the zombie movie has been one of the most enduring mainstays of international horror cinema Now for the first time ever the complete history of zombie cinema is told in this lavishly illustrated and fully cross referenced celebration of living dead cinematic culture
