*Terror in Global Narrative* George Fragopoulos, Liliana M. Naydan, 2016-12-08 This is a collection of interdisciplinary essays that examines the historical political and social significance of 9 11 This collection considers 9 11 as an event situated within the much larger historical context of late late capitalism a paradoxical time in which American and capitalist hegemony exist as pervasive and yet under precarious circumstances Contributors to this collection examine the ways in which 9 11 changed both everything and at the same time nothing at all They likewise examine the implications of 9 11 through a variety of different media and art forms including literature film television and street art

*Prayers of Jewish Women* Markus H. McDowell, 2006 Markus McDowell examines how the literature of the Second Temple period portrays women at prayer through an examination of the literary context and character of those prayers The goal of this work is a greater understanding of how women were portrayed in literary sources and an offering of some fresh insights for the study of women s religious and social roles in the ancient world The texts are analyzed and categorized within five areas social location content form occasion and gender perspective The prayers are also compared and contrasted with men s prayers in the same sources The analysis includes locating as much as possible the historical literary and cultic context of each document in which these prayers appear By examining all prayers in these texts uttered by women not just prayers of named or prominent women and then comparing them with all the prayers of men in those same texts certain patterns appear This study adds to our knowledge of women and religion in Second Temple Judaism by primarily exploring patterns that appear among the prayers in the literature of the Second Temple period While there are fewer prayers by women than men in this literature the prayers of women are not portrayed as significantly different from those of men in terms of social location content form or occasion At the same time the prayers of women exhibit other patterns of language and in a minor way form and occasion that differ from the prayers of men
