Knowledge Management for the Information Professional Taverekere Srikantaiah,Michael E. D. Koenig,2000 Comprises 28 essays on knowledge management in a broader transorganizational context Covers five major areas overview of knowledge management background issues in knowledge management creating the culture of learning and knowledge sharing in the organization tools and technologies involved and case studies of its application in a number of contexts

*Value Based Performance Measures* Nils Eikermann,2020-08-19 Nils Eikermann describes the framework conditions for the application of value based performance measures and critically analyses selected ones The disclosure of value based performance indicators is important in order to demonstrate the successful management of a company and to satisfy the increasing information needs of investors However companies adapt the developed theoretical concepts of value based performance measures to their practical needs and thus investors are no longer able to compare the performance of companies In addition there is a variety of different metrics from which companies can choose The empirical study aims to reduce existing research gaps and is divided into three parts the analysis of annual reports of selected European companies the calculation of a standardised value based performance measure and a value relevance study in the form of an association study      *The Routledge Companion to Auditing* David Hay,W. Robert Knechel,Marleen Willekens,2014-09-15 Auditing has

been a subject of some controversy and there have been repeated attempts at reforming its practice globally This comprehensive companion surveys the state of the discipline including emerging and cutting edge trends It covers the most important and controversial issues including auditing ethics auditor independence social and environmental accounting as well as the future of the field This handbook is vital reading for legislators regulators professionals commentators students and researchers involved with auditing and accounting The collection will also prove an ideal starting place for researchers from other fields looking to break into this vital subject      *Reader's Guide to the Social Sciences* Jonathan

Michie,2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology law psychology organizational behavior and the history and development of the social sciences in a broader sense      **The Economics and Politics of Accounting**

Christian Leuz,Dieter Pfaff,Anthony Hopwood,2005-09-15 Accounting and the role of accountants has permeated the modern societies For the most part we have accepted the impartiality and objectivity of accounting and not recognized how accounting systems are embedded in a country s economic and legal framework much of which is in turn shaped by political processes This web of interactions results in complex economic and political questions which require accounting researchers to focus on several related trends information economics regulatory economics sociology and political science Although

considerable progress has been made in the field of accounting many fundamental questions are still subject to debate In this book leading international scholars address a number of important questions What is the role of accounting in security valuation decision making and contracting What can we learn from economics based research in accounting What is the role of auditing and how can accounting standards be enforced What are the cost and benefits of accounting and disclosure regulation What is the role of accounting in society How does lobbying affect the political process of standard setting What are the consequences of the internationalization of standard setting This seminal book will be of interest to academics researchers and graduate students of Accounting Finance Business Studies Sociology and Political Economy The UK Accounting Standards Board, 1990-2000 David Tweedie, Allan Cook, Geoffrey Whittington, 2023-07-28 In the late 1980s financial accounting in Britain was in disarray Creative accounting was rife The authority of the industry s standard setters had been drastically compromised when their rules for inflation accounting were first ignored by many firms and then abandoned There were calls for government to replace the accountants self regulation with a tough regulatory regime close to the American model Also rapid change in the financial industry was generating complex new financial schemes for which existing accounting standards were inadequate This book tells the story of the next decade the problems the standard setters faced both technical and political the resistance they met the solutions they developed and the durability of their work Innovations they developed have become part of global accounting standards The story is told in the words of three board members all of whom had spent their careers in accounting one as a senior technical partner of a Big 4 audit firm one as an executive in major multinational businesses one as a university professor respectively the Chairman Sir David Tweedie the Technical Director Allan Cook and the academic board member Professor Geoffrey Whittington The medium is for the most part conversation with the standard setters questioned by Cambridge Professor Geoff Meeks recorded over three years producing a more vivid picture of motivations and events Also in this technically demanding subject it has the advantage of a simpler more informal and engaging conversational style and language The book will appeal not just to accountants interested in the origins of the rules they are following and students learning why those rules were adopted but also to anyone interested in how in spheres beyond accounting to harness the expertise and support of business regulatees without suffering regulatory capture

**Achieving Global Convergence of Financial Reporting Standards** Christopher Patel, Parmod Chand, 2011-12-15 This research monograph examines whether International Financial Reporting Standards IFRS are interpreted and applied in a consistent manner within and across countries and questions the implicit assumption that accounting convergence will automatically lead to comparability in financial reporting

**Brookings-Wharton Papers on Financial Services: 2000** Robert E. Litan, Anthony M. Santomero, 2010-12-01 The third in a series of annual volumes on the financial sector from the Brookings Institution and the Wharton School at the University of Pennsylvania explores the ongoing process of globalization in the financial services industry Leading financial experts from the corporate government

and academic communities examine global trends in banking in reinsurance industries and in securities markets the challenges these trends pose for national regulations the evolution of global accounting standards the alleged effects of global hedge funds on capital flows into and out of emerging markets and the erosion of legal barriers to the establishment of foreign financial services firms around the world Opening remarks by Secretary of the Treasury Lawrence Summers present both national security and economic arguments for direct American support for increased global interdependence in trade in goods and services including U S support for international financial institutions

**Intangibles** Baruch Lev, 2000-12-01 This book is the first comprehensive scientifically based study of the nature and impact of intangibles Weaving case studies and real world examples with contemporary business theory Baruch Lev establishes an economic framework to analyze managerial and investment issues concerning intangibles surveys the impact of intangibles on corporate performance and market values including management difficulties risk questions of property rights marketability and cost structure analyzes information deficiencies associated with intangibles including the major economic principles governing intangible investments limits of management information systems and recommendations for improved accounting disclosure sets forth a comprehensive information system aimed at satisfying the needs of both internal and external decision makers to reflect the impact and value of intangibles within the context of enterprise performance

**The Ethics of Tax Evasion** Robert W. McGee, 2011-12-21 Why do people evade paying taxes This is the central question addressed in this volume by Robert McGee and a multidisciplinary group of contributors from around the world Applying insights from economics public finance political science law philosophy theology and sociology the authors consider the complex motivations for not paying taxes and the conditions under which this behavior might be rationalized Applying theoretical approaches as well as empirical research The Ethics of Tax Evasion considers three general arguments for tax evasion 1 in cases where the government is corrupt or engaged in human rights abuses 2 where citizens claim inability to pay unfairness in the tax system paying for things that do not benefit the taxpayer excessively high tax rates or where taxes are used to support an unpopular war and 3 through philosophical moral or religious opposition The authors further explore these issues by asking whether attitudes toward tax evasion differ by country or other demographic variables such as gender age ethnicity income level marital status education or religion The result is a multi faceted analysis of tax evasion in cultural and institutional context and more generally a study in ethical dilemmas and rational decision making
