Changing Role of the American Prosecutor John Worrall, M. Elaine Nugent-Borakove, 2014-03-14 Leading prosecution researchers throughout the United States are brought together in this book to illuminate the new environment of prosecution in America the prosecution of troubling and emerging crime problems prosecutorial problem solving and community prosecution and the future of prosecution in the twenty first century The contributors explore how American prosecutors are moving away from a traditional reactive approach to the crime problem and instead how they are developing creative problem solving strategies for dealing with crime and disorder The American Prison Lynne Goodstein, Doris L.

MacKenzie, 2013-03-08 Despite the dire forecasts of others who had themselves edited books we proceeded with the project of an edited volume on the American prison although with more than a little trepidation We had heard the horror stories of authors turning in their chapters months or years late or never at all of publishers delaying publication dates of volumes that read more like patchwork quilts than finely loomed cloth As if to prove the others wrong our experience in editing this volume has been marvelous and we think the volume reflects this Most likely the success of our experience and of the volume stems from two elements first the professionalism and commitment of the authors themselves and second the fact that early in the life of this volume most of the authors convened for a conference to critique and coordinate the chapters This book brings together an illustrious group of criminologists and correctional scholars who wrote chapters explicitly for this volume Co hesiveness was furthered by the charge we gave to each author to 1 present the major issues 2 review the empirical research and 3 discuss the implications of this work for present and future correctional policy The goal of this project was to examine the major correctional issues facing prison systems The chapters scrutinize the issues from the perspective of the system and the individual from theory to practical and daily management problems from legal to psychological concerns **21st Century Criminology: A Reference Handbook** J. Mitchell Miller, 2009-08-06 Criminology
