

Project: Investigation of a settlement

Introduction - An independent study of a known settlement

For this project, you will be gathering information about a settlement that you know. This settlement may be a rural or urban settlement. You can add to the information that you already know about this settlement by searching the web, reading books or news articles (online, in magazines or newspapers) and through conversations with your parents about what they know of this particular settlement.

Project outline

1. a) Describe the settlement you have chosen and its different types of land use.
b) Create a sketch map of this settlement indicating all the different land use types. Refer to the image below for an example of what a sketch map might look like.

Note: This is just an example to give you an idea of what to include in your map. The layout of your own map will depend on the settlement you have chosen and should be drawn on an A4 size sheet of blank paper. Your sketch map should include suitable labels and a map key.

2. Identify specific features or landmarks (natural and/or human-made) that can be found throughout your chosen settlement. Name these and mark them on your sketch map.
