Retours Journal De Budapest:

La crisis de memoria y la Segunda Guerra Mundial Susan Rubin Suleiman, Daniel Aguirre Oteiza, 2019-05-21 Tanto los psicólogos como los historiadores han demostrado que el recuerdo de acontecimientos pasados no es estable sino cambiante y está sujeto a la influencia de las circunstancias actuales y los proyectos futuros de los individuos o los grupos sociales De manera semejante la historia misma es según la sugerente formulación de István R. V. la perpetua recreación del pasado Está claro que la Segunda Guerra Mundial y el Holocausto están entre nosotros En este libro estudio casos concretos en los que los recuerdos personales de la guerra presentados como memorias literarias ficción autobiográfica compleja película histórica pica o documental personal coinciden con la memoria pública o colectiva Susan Rubin Suleiman Journal of the Statistical Society of London ,1908 Journal des débats politiques et littéraires ,1929 **Official Journal** ,1926

Perspectives on Synchronicity, Inspiration, and the Soul Rico Sneller, 2020-07-07 This book explores the notion of the human psyche soul and its continuing usefulness in the background of the ongoing and always accelerating technological scientific revolution The main argument here follows the assumption that this revolution while not necessarily being a threat to humankind is often blind or ignorant as to its subject the human being In the first chapters the reader is invited to reflect on the notion of thinking as a phenomenon of consciousness that transcends merely having thoughts Relating thinking to consciousness requires reconsidering the phenomena of inspiration and ecstasy Provided that such a thing as inspiration exists it makes sense to revise the solipsist or substantialist account often given of the human mind The book defines inspiration as a clairvoyance of one's psyche and ecstasy as the experience of this clairvoyance Next a case is made for synchronicity experiences as a key to a better understanding of the human psyche While being enigmatic all throughout synchronicity experiences both on the individual and on the collective level help overcome both subject object and body mind dualisms It is not likely though that the solution they could offer will be readily accepted by what is called science today since it challenges one of the latter's basic premises causality As a more concrete example of a condensed synchronicity experience the author dwells on physiognomy In the final chapter death and suffering are discussed as extreme and therefore relevant experiences of consciousness The book interprets death in terms of enhanced subliminality and suffering as unconscious resistance against maturing Generally this book explores a psycho-philosophical tradition rooted in Romantic thinking from Schelling and Schopenhauer until Klages and Jung which has hitherto been unjustly neglected if not repressed by mainstream materialism and positivism It makes a strong case for an intellectual account of the soul Cinéma hongrois Kristian Feigelson, 2003 *Plutôt qu'un traitement monographique ce numéro propose une approche multidisciplinaire axée sur le thème du temps et de l'histoire Divers aspects du cinéma hongrois de 1945 nos jours sont abordés à l'attrait puis le rejet du stalinisme les années 60* l'après 1989 Journal des transports ,1894 Journal of the Royal Statistical Society Royal Statistical Society (Great Britain), 1924 Published papers whose appeal lies in their subject matter rather than their technical
