Retread Sports:

Global esports Dal Yong Jin, 2021-03-25 Global esports explores the recent surge of esports in the global scene and comprehensively discusses people's understanding of this spectacle. By historicizing and institutionalizing esports, the contributors analyze the rapid growth of esports and its implications in culture and digital economy. Dal Yong Jin curates a discussion as to why esports has become a global phenomenon. From games such as Spacewar to Starcraft to Overwatch, a key theme distinguishing this collection from others is a potential shift of esports from online to mobile gaming. The book addresses why many global game players and fans play and enjoy online and mobile games in professional game competitions and therefore they investigate the manner in which the transfer to from and between online and mobile gaming culture is occurring in a specific subset of global youth. The remaining focus identifies the major platforms used to enjoy esports including broadcasting and smartphones. By analyzing these unexamined or less discussed agendas, this book sheds light on the current debates on the growth of global esports culture.

Play It Forward Ed Wingham, 2013-07-16 The quiet solitude of Bears Cove ushers Cronin and Sonya MacArthur into its seclusion as a respite replete with the accentuations of small town life only to discover worldly elements that will not be denied.

Viable Utopian Ideas Art Shostak, 2015-06-11 Utopias whether philosophical literary or actual experiments are attempts to solve all social problems. In the wake of the attack on the World Trade Center, unfolding corporate scandals, and other devastating shocks, it is natural to search for practical lessons in utopian literature. In this collection, noted sociologists renew the call to develop an altruistic social order. They address a wide variety of topics as they look for viable utopian ideas that can be applied to today's society. Written in an engaging jargon-free style and directed to introductory sociology students as well as anyone concerned with social problems, the book provides both visionary ideals and insights for pragmatic decision making as we venture into an uncertain future.

The 100 Greatest Moments in St. Louis Sports Bob Broeg, 2000 St. Louis produced the 1904 Olympics, the man who created tennis's Davis Cup, the first forward pass in football, one of the best collections of soccer talent in North America, a man named Stan, a record-smashing seventy home runs in one season, and most recently the Super Bowl champion Rams.

Multicampus University Systems Ishmael I. Munene, 2014-08-27 In the face of increasing social demand and cutbacks in state budgetary support, universities in African countries are now turning towards a multicampus system strategy. As African governments have adopted neoliberal education policies that place premium on entrepreneurialism, profit making, privatization, and markets as drivers of university development, a reshaping of the academic work and organizational framework have taken place. However, little is known about the impact of this paradigm shift on access, quality, and governance in higher education. This book fills the void in research and academic knowledge about the impact of the emerging university configurations in Africa. It analyzes the paradox surrounding the performance of multicampus universities.

systems as avenues of broadening university access but whose structural success may be qualitatively contested This book offers a refreshing examination of the African multicampus university system from both an African and global perspective It makes use of empirical data from Kenya collected during extensive fieldwork along with substantive library and documentary resources on the rest of the continents to fortify arguments and demonstrate important conclusions This allows for a comparative analysis of policies and strategies used in the establishment of campuses both within and beyond national boundaries in the continent and will be a welcome contribution to the existing repertoire on African universities
