

The background of the book cover is a painting of a rugged, rocky coastline. The rocks are dark and jagged, with some white patches of snow or ice. The sea is a deep blue, and the sky is a lighter blue with some white clouds. The overall mood is somber and contemplative.

Ingmar Persson

Retreat Of Reason A Dilemma In The Philosophy Of Life:

The Retreat of Reason Ingmar Persson, 2005-11-03 One of the main original aims of philosophy was to give us guidance about how to live our lives The ancient Greeks typically assumed that a life led in accordance with reason a rational life would also be the happiest or most fulfilling Ingmar Persson's book resumes this project which has been largely neglected in contemporary philosophy But his conclusions are very different by exploring the irrationality of our attitudes to time our identity and our responsibility Persson shows that the aim of living rationally conflicts not only with the aim of leading the most fulfilling life but also with the moral aim of promoting the maximization and just distribution of fulfilment for all Persson also argues that neither the aim of living rationally nor any of the fulfilment aims can be rejected as less rational than any other We thus face a dilemma of either having to enter a retreat of reason insulated from everyday attitudes or making reason retreat from its aspiration to be the sole controller of our attitudes The Retreat of Reason explores three areas in which there is a conflict between the rational life and a life dedicated to maximization of fulfilment Persson contends that living rationally requires us to give up first our temporal biases secondly our bias towards ourselves and thirdly our responsibility to the extent that it involves the notion of desert and desert entailing notions But giving up these attitudes is so overwhelmingly hard that the effort to do so not only makes our own lives less fulfilling but also obstructs our efficient pursuit of the moral aim of promoting a maximum of justly distributed fulfilment Ingmar Persson brings back to philosophy the ambition of offering a broad vision of the human condition The Retreat of Reason challenges and disturbs some of our most fundamental ideas about ourselves **Routledge Philosophy GuideBook to Mill on Utilitarianism** Roger

Crisp, 2002-09-11 Mill was one of the most important British philosophers of the nineteenth century his Utilitarianism is a pivotal work in ethical thought This book written specifically for students coming to Mill and perhaps philosophy for the first time will be an ideal guide Mill on Utilitarianism introduces and assesses Mill's life and the background of Utilitarianism the ideas and text of Utilitarianism the continuing importance of Mill's work to philosophy This is the first book dedicated to Utilitarianism itself Concisely written and engaging it is perfect reading for those studying Mill or moral philosophy **The**

Blackwell Guide to Ethical Theory Hugh LaFollette, Ingmar Persson, 2013-04-16 Building on the strengths of the highly successful first edition the extensively updated Blackwell Guide to Ethical Theory presents a complete state of the art survey written by an international team of leading moral philosophers A new edition of this successful and highly regarded Guide now reorganized and updated with the addition of significant new material Includes 21 essays written by an international team of leading philosophers Extensive substantive essays develop the main arguments of all the leading viewpoints in ethical theory Essays new to this edition cover evolution and ethics capability ethics virtues and consequences and the implausibility of virtue ethics **Revisiting Kant's Universal Law and Humanity Formulas** Sven Nyholm, 2015-07-24

This book offers new readings of Kant's universal law and humanity formulations of the categorical imperative It shows how

on these readings the formulas do indeed turn out being alternative statements of the same basic moral law and in the process responds to many of the standard objections raised against Kant's theory. Its first chapter briefly explores the ways in which Kant draws on his philosophical predecessors such as Plato and especially Plato's Republic and Jean-Jacque Rousseau. The second chapter offers a new reading of the relation between the universal law and humanity formulas by relating both of these to a third formula of Kant's viz the law of nature formula and also to Kant's ideas about laws in general and human nature in particular. The third chapter considers and rejects some influential recent attempts to understand Kant's argument for the humanity formula and offers an alternative reconstruction instead. Chapter four considers what it is to flourish as a human being in line with Kant's basic formulas of morality and argues that the standard readings of the humanity formula cannot properly account for its relation to Kant's views about the highest human good.

Armstrong's Materialist Theory of Mind Peter R. Anstey, David Braddon-Mitchell, 2022 Armstrong's Materialist Theory of Mind is one of a handful of texts that began the physicalist revolution in the philosophy of mind. In this collection distinguished philosophers examine what we still owe to it how to expand it as well as looking back on how it came about.

The Ends of Harm Victor Tadros, 2011-09-15 How can the brutal and costly enterprise of criminal punishment be justified? This book makes a provocative original contribution to the philosophical literature and debate on the morality of punishing arguing that punishment is justified in the duties that offenders incur as a result of their wrongdoing.

Preference and Information Dan Egonsson, 2016-12-05 Is it important to our quality of life that the preferences we satisfy are rational and well informed? Standard preferentialist theories allege that a person's preferences and their satisfaction are the correct measure of well-being. In preference sensitive theories preferences are important but do not count for everything. This raises the question of whether we ought to make demands on these preferences. In this book Egonsson presents a critical analysis of the Full Information Account of the Good which claims that only the satisfaction of rational and fully informed preferences has value for a person. The problems he deals with include how is an information requirement to be formulated and shaped? Is it possible to design a requirement that is both neutral to the agent's epistemic situation and reasonable? Is the requirement reasonable? Does it make sense to claim that some are better off if we satisfy the preferences they would have had in some merely hypothetical circumstances? This is an important new book on preference rationality which will be of great interest to academics and students of ethics quality of life and rationality.

Moral Error Theory Jonas Olson, 2014-01-23 Jonas Olson presents a critical survey of moral error theory the view that there are no moral facts and so all moral claims are false. In Part I History he explores the historical context of the debate and discusses the moral error theories of David Hume and of some more or less influential twentieth century philosophers including Axel H. Gerstner, Bertrand Russell, Ludwig Wittgenstein and Richard Robinson. He argues that the early cases for moral error theory are suggestive but that they would have been stronger had they included something like J. L. Mackie's arguments that moral properties and facts are metaphysically queer.

Part II Critique focuses on these arguments Olson identifies four queerness arguments concerning supervenience knowledge motivation and irreducible normativity and goes on to establish that while the first three are not compelling the fourth has considerable force especially when combined with debunking explanations of why we tend to believe that there are moral properties and facts when in fact there are none One conclusion of Part II is that a plausible error theory takes the form of an error theory about irreducible normativity In Part III Defence Olson considers challenges according to which that kind of error theory has problematic ramifications regarding hypothetical reasons epistemic reasons and deliberation He ends his discussion with a consideration of the implications of moral error theory for ordinary moral thought and talk and for normative theorizing

Autonomy, Rationality, and Contemporary Bioethics Jonathan Pugh, 2020 What should we do when autonomy and rationality seem to be in conflict in medical decision making as when there seems no good reason for a patient's wishes Jonathan Pugh offers a new framework for thinking about the concept of autonomy grounded in an understanding of the different roles that rational beliefs and rational desires have to play

Religion, Intolerance, and Conflict Steve Clarke, Russell Powell, Julian Savulescu, 2013-05-30 The relationship between religion intolerance and conflict has been the subject of intense discussion particularly in the wake of the events of 9 11 and the ongoing threat of terrorism This book contains original papers written by some of the world's leading scholars in anthropology psychology philosophy and theology exploring the scientific and conceptual dimensions of religion and human conflict Authors investigate the following themes the role of religion in promoting social cohesion and the conditions under which it will tend to do so the role of religion in enabling and exacerbating conflict between different social groups and the conditions under which it will tend to do so and the policy responses that we may be able to develop to ameliorate violent conflict and the limits to compromise between different religions The book also contains two commentaries that distill synthesize and critically evaluate key aspects of the individual chapters and central themes that run throughout the volume The volume will be of great interest to all readers interested in the phenomenon of religious conflict and to academics across a variety of disciplines including religious studies philosophy psychology theology cognitive science anthropology politics international relations and evolutionary biology
