Return Afghanistan:

Return Migration to Afghanistan Marieke van Houte, 2017-02-08 This book overcomes the dichotomies generalizations and empirical shortcomings that surround the understanding of return migration within the migration development peace building nexus Using the concept of multidimensional embeddedness it provides an encompassing view of returnees identification with and participation in one or multiple spaces of belonging It introduces Afghan return migration from Europe as a relevant case study since the country's protracted history of conflict and migration shows how the globally changing political discourses of recent decades have shaped migration strategies The author's findings highlight the fact that policy is responding inadequately to complex issues of migration conflict development and return since the expectations on which it is based only account for a small minority of returnees This thought provoking book will appeal to scholars of migration and refugee studies as well as a wider audience of sociologists anthropologists demographers and policy makers

Return Migration and Psychosocial Wellbeing Zana Vathi, Russell King, 2017-03-27 Return migration is a topic of growing interest among academics and policy makers Nonetheless issues of psychosocial wellbeing are rarely discussed in its context Return Migration and Psychosocial Wellbeing problematises the widely held assumption that return to the country of origin especially in the context of voluntary migrations is a psychologically safe process By exploding the forced voluntary dichotomy it analyses the continuum of experiences of return and the effect of time the factors that affect the return process and associated mobilities and their multiple links with returned migrants wellbeing or psychosocial issues Drawing research encompassing four different continents Europe North America Africa and Asia to offer a blend of studies this timely volume contrasts with previous research which is heavily informed by clinical approaches and concepts as the contributions in this book come from various disciplinary approaches such as sociology geography psychology politics and anthropology Indeed this title will appeal to academics NGOs and policy makers working on migration and psychosocial wellbeing and undergraduate and postgraduate students who are interested in the fields of migration social policy ethnicity studies health studies human geography sociology and anthropology
