## **Revelation A Novel Of The Vietnam War:**

Revelation Ned Ricks, 2005-02 After a long hospital stay for wounds received U S Army Captain Davis arrives at his first command in Vietnam and receives the shocking news that his predecessor was murdered by soldiers of the troop and still at large Now he is surrounded by over a hundred armed men at least one of whom is a murderer Book Jacket

Understanding Scripture Robert P. Vande Kappelle, 2020-12-16 The Bible is the single most important book in the history of Western civilization it is also the most widely misunderstood To understand the Bible we must consider its historical and literary context Utilizing the contributions of three disciplines biblical introduction biblical theology and biblical interpretation Understanding Scripture sets the record straight Intended as a handbook or study guide this work provides forty practical guidelines to make your reading of the Bible more useful and your understanding clearer The goal of this book is not simply to persuade you to read the Bible more frequently but to encourage you to read it with discernment The forty concepts alluded to in the book s subtitle are not factual in nature meaning they are little concerned with biblical information Rather they comprise interpretive tools insider techniques used by biblical scholars but widely unknown or ignored by average readers or believers Parabolic in nature the forty statements are designed to promote conversation rather than close or clinch an argument This book is designed to keep you awake at night romancing Scripture rather than mastering it nourishing your spirituality rather than gorging or starving it Understanding Scripture is useful for individual or group study Each chapter concludes with questions suitable for discussion or reflection *The American Novel of War* Wallis R.

Sanborn, III, 2012-10-16 In song verse narrative and dramatic form war literature has existed for nearly all of recorded history Accounts of war continue to occupy American bestseller lists and the stacks of American libraries This innovative work establishes the American novel of war as its own sub genre within American war literature creating standards by which such works can be classified and critically and popularly analyzed Each chapter identifies a defining characteristic analyzes existing criticism and explores the characteristic in American war novels of record Topics include violence war rhetoric the death of noncombatants and terrain as an enemy Securing Life Robert P. Vande Kappelle, 2016-06-02 Securing Life represents a novel yet timely approach to reading and understanding the Bible While reverence for the Bible and respect for its authority remain high in our society biblical illiteracy misinterpretation and selective reading place us at risk The Bible seems to have a conserving effect on conservative readers a moderating effect on moderate readers and a liberating effect on liberal readers Do biblical texts contain conserving and liberating messages simultaneously Should biblical texts be limited to specific meaning and perspective acceptable by all or do they contain multiple levels of meaning While this book addresses these questions it does not approach the Bible as an answer book but rather as a collection of books multifaceted in nature its enduring purpose being to provide us with perspective for living faithfully and fully through the stages and seasons of our lives in harmony with God nature others and self Rather than starting chronologically with creation followed by accounts of

the patriarchs the exodus the conquest and the monarchy this book follows a compositional approach used by the Yahwist an unknown author in Judea who composed Israel's first religious epic Like the Yahwist this book moves backward from Covenant through Community to Creation but because it includes the New Testament it moves forward to New Covenant through New Community to New Creation A chapter is devoted to each topic These motifs are preceded by five preparatory chapters three dealing with introductory matters one with biblical theology the doctrine of God and one with biblical anthropology the doctrines of sin and salvation Utilizing the contributions of three disciplines biblical introduction biblical theology and biblical interpretation Dr Vande Kappelle demonstrates that the Bible like religion in general has both a conserving and liberating effect providing perspective for formation and for transformation **Curating and Re-Curating**

**the American Wars in Vietnam and Iraq** Christine Sylvester, 2019-03-04 We have long saved and curated objects from wars to commemorate the war experience These objects appear at national museums and memorials and in war novels and memoirs Through them we institutionalize narratives and memories of national identity power and purpose This book asks whose vantage points on the American wars in Vietnam and Iraq are available and where for public consumption it also considers whose war experiences are not represented are minimized or ignored in ways that advantage contemporary militarism In looking at how professional curators ordinary civilian curators and veteran and civilian writers exhibit the American wars in Vietnam and Iraq Sylvester shows that war authority is widely dispersed and nonconsensual By looking beyond official renditions of a war scholars policymakers and other citizens are able to grasp war as a violent rather than abstractly heroic mode of politics **The Grand Finale** Anton Wessels, 2020-07-13 We often hear that we are living in

apocalyptic times Wars like those in the Middle East are just more signs that the end is near That however is a misunderstanding of the message of the Bible and the Qur'an The basic meaning of apocalypse is disclosure revelation bringing to light what is happening now and what has happened throughout all of history The apocalypse is not about making predictions about the future but about determining who bears responsibility for injustice in the world In that sense all times including ours are apocalyptic though in a different way than what is usually thought Since the devastating Greek conquest of the world by Alexander the Great there have been apocalyptic insights and revelatory readings of the whole Hebrew Bible The same is true of the New Testament with Rome as the world power then The same apocalyptic message is confirmed by the Qur'an when the Byzantines and the Persians fought for mastery of the world The apocalyptic message is that God will put an end to the unjust dominion of violence money and lies God's kingdom will certainly arrive but not through violence after all there is no violence in God Diognetus **Pynchon and History** Shawn Smith, 2013-11-05 First Published in 2005

While many previous books on Pynchon allude to his fictional engagement with historical events and figures this book explores Pynchon as a historical novelist and by extension historical thinker The book interprets Pynchon's four major novels V Gravity's Rainbow Vineland and Mason Dixon through the prism of historical interpretation and representation In doing so

it argues that Pynchon's innovative narrative techniques express his philosophy of history and historical representation through the form of his texts

**The Bloomsbury Handbook of Anglophone Literature and Migration** Nicoletta Vallorani, Simona Bertacco, William Boelhower, 2025-10-16 Focusing on a significant 70 year period as a climactic phase of displacement the book investigates the role of literature in producing new modes of representing and understanding migration in a global context Globally felt and reported as a geographical sociological anthropological and historical phenomenon migration has produced an unprecedented corpus of literary narratives that demands to be approached through its own set of cross disciplinary critical approaches This Handbook explores tales of migration via a systematic study of the large corpus of Anglophone literary texts that have been written by migrant authors and or on the topic of migration between 1946 and 2016 from the start of the United Nations International Migration Report to the first year in which the number of displaced people reached the level of the Second World War marking a new phase in global migrations Given the dominance of English as a world language often used by writers who are not native speakers the volume covers Anglophone writing providing a substantially representative corpus that includes texts from or about Europe Africa North and Central America and the South Asia and Pacific region Starting from a critical approach that is inherently interdisciplinary authors consider the notion of the border and how it has changed over time show how traditional literary genres have morphed and hybridized to become suitable expressive tools for the new stories of migration reflect on how the movement across borders and countries creates migrant identities that are not only linguistic but invests all aspects of one's life and worldview and includes authors voices a small but representative group to both justify and test the critical approaches proposed

**The American Novel Now** Patrick O'Donnell, 2010-01-21 The American Novel Now navigates the vast terrain of the American novel since 1980 exploring issues of identity history family nation and aesthetics as well as cultural movements and narrative strategies from over seventy different authors and novels Discusses an exceptionally wide range of authors and novels from established figures to significant emerging writers Toni Morrison Thomas Pynchon Louise Erdrich Don DeLillo Richard Powers Kathy Acker and many more Explores the range of themes and styles offered in the wealth of contemporary American fiction since 1980 in both mainstream and experimental writings Reflects the liveliness and diversity of American fiction in the last thirty years Written in a style that makes it ideal for students and scholars while also accessible for general readers

contexts that have shaped American writing Twentieth Century and Contemporary American Literature in Context provides wide coverage of authors works genres and movements that are emblematic of the diversity of modern America Not only are major literary movements represented such as the Beats but this work also highlights the emergence and development of modern Native American literature African American literature and other representative groups that showcase the diversity of American letters A rich selection of primary documents and background material provides indispensable information for student research

*Tragic Novels, René Girard and the American Dream* Carly Osborn, 2020-05-14 This book draws on the philosopher Ren Girard to argue that three twentieth century American novels Jeffrey Eugenides s *The Virgin Suicides* Rick Moody s *The Ice Storm* and Richard Yates s *Revolutionary Road* are tragedies Until now Girardian literary analysis has generally focused on representations of human desire in texts and neglected both other emotions and the place of tragedy Carly Osborn addresses these omissions by using Girardian theory to present evidence that novels can indeed be tragedies The book advances the scholarship of tragedy that has run from Aristotle to Nietzsche to Terry Eagleton proposing a new way to read modern novels through ancient traditions In addition this is the first work to examine the place of women as victims or in Girardian terms scapegoats in twentieth century fiction specifically by considering the representation of women s bodies and ambivalence about their identities In deploying a rich and vivid array of tragic tropes *The Virgin Suicides* *The Ice Storm* and *Revolutionary Road* participate in a deep rooted American tragic tradition *Tragic Novels the American Dream* and Ren Girard will be of interest to those working at the intersection of philosophy and literature as well as Girard specialists

*Monsters and Monstrosity* Daniela Carpi, 2019-06-17 Every culture knows the phenomenon of monsters terrifying creatures that represent complete alterity and challenge every basic notion of self and identity within a cultural paradigm In Latin and Greek culture the monster was created as a marvel appearing as something which like transgression itself did not belong to the assumed natural order of things Therefore it could only be created by a divinity responsible for its creation composition goals and stability but it was triggered by some in or non human action performed by humans The identification of something as monstrous denotes its place outside and beyond social norms and values The monster evoking transgression is most often indistinguishable from reactions to the experience of otherness merging the limits of humanity with the limits of a given culture The topic entails a large intersection among the cultural domains of law literature philosophy anthropology and technology Monstrosity has indeed become a necessary condition of our existence in the 21st century it serves as a representation of change itself In the process of analysis there are three theoretical approaches psychoanalytical representational ontological The volume therefore aims at examining the concept of monstrosity from three main perspectives technophobic xenophobic superdiversity Today s globalized world is shaped in the unprecedented phenomenon of international migration The resistance to this phenomenon causes the demonization of the Other seen as the antagonist and the monster The monster becomes therefore the ethnic Other the alien To reach this new perspective on

monstrosity we must start by examining the many facets of monstrosity also diachronically from the philological origin of the term to the Roman and classical viewpoint from the Renaissance medical perspective to the religious background from the new filmic exploitations in the 20th and 21st centuries to the very recent ethnological and anthropological points of view to the latest technological perspective dealing with artificial intelligence [The Encyclopedia of Twentieth-Century Fiction, 3 Volume Set](#) Brian W. **The Verse Novel in Young Adult Literature** Brenna Friesner, 2016-11-16 Throughout history the verse novel has persisted as a modest but noteworthy literary subgenre from classic works like Eugene Onegin to contemporary volumes by Vikram Seth Dorothy Porter and Derek Walcott In particular the verse novel has emerged as a popular form for young adult readers such as the Newbery Medal winner *Out of the Dust* by Karen Hesse As this unique form continues to flourish it merits closer examination In *The Verse Novel in Young Adult Literature* Brenna Friesner explores both the history and current use of the verse novel in teen fiction Examining more than 220 titles written over the last few decades Friesner discusses the verse novel s evolution analyzes key works and considers how these novels can grapple with content that distinguishes them from traditional fiction Though this study includes volumes written throughout history its focus on contemporary novels further demonstrates the form s relevance for today s teens By explaining its current popularity this book acknowledges the verse novel s potential to provide accessible authentic stories for young adults to enjoy *The Verse Novel in Young Adult Literature* will be of interest to librarians and teachers as well as anyone wanting to learn more about this burgeoning aspect of young adult literature

*Writing Wars* David F. Eisler, 2022-12-14 Choice Outstanding Academic Title 2024 Senators Bob and Elizabeth Dole Biennial Award for Distinguished Book in Veterans Studies winner Who writes novels about war For nearly a century after World War I the answer was simple soldiers who had been there The assumption that a person must have experienced war in the flesh in order to write about it in fiction was taken for granted by writers reviewers critics and even scholars Contemporary American fiction tells a different story Less

than half of the authors of contemporary war novels are veterans And that s hardly the only change Today s war novelists focus on the psychological and moral challenges of soldiers coming home rather than the physical danger of combat overseas They also imagine the consequences of the wars from non American perspectives in a way that defies the genre s conventions To understand why these changes have occurred David Eisler argues that we must go back nearly fifty years to the political decision to abolish the draft The ramifications rippled into the field of cultural production transforming the foundational characteristics authorship content and form of the American war fiction genre

**American Fiction in Transition** Adam Kelly,2013-04-25 American Fiction in Transition is a study of the observer hero narrative a highly significant but critically neglected genre of the American novel Through the lens of this transitional genre the book explores the 1990s in relation to debates about the end of postmodernism and connects the decade to other transitional periods in US literature Novels by four major contemporary writers are examined Philip Roth Paul Auster E L Doctorow and Jeffrey Eugenides Each novel has a similar structure an observer narrator tells the story of an important person in his life who has died But each story is equally about the struggle to tell the story to find adequate means to narrate the transitional quality of the hero s life In playing out this narrative struggle each novel thereby addresses the broader problem of historical transition a problem that marks the legacy of the postmodern era in American literature and culture

**Building a Republican Nation in Vietnam, 1920-1963** Nu-Anh Tran,Tuong Vu,2022-12-31 Western observers have long considered communism to be synonymous with Vietnam s modern historical experience Eager to make sense of the North Vietnamese victory in the Vietnam War scholars and journalists have spilled

much ink on the history of Vietnamese communists But this preoccupation has obscured the diversity of ideas and experiences that defined Vietnam in the twentieth century in which communism represented just one of many tendencies Building a Republican Nation in Vietnam 1920 1963 posits that republicanism shaped modern Vietnam no less profoundly than communism Republicans championed representative government the universal rights of man civil liberties and the primacy of the nation These ideas infused the thinking of Vietnamese reformers dissidents and revolutionaries from the 1900s onward including many men and women who went on to lead the struggle for independence Republicanism was also one of the chief inspirations for the establishment of the Republic of Vietnam also known as South Vietnam in 1955 This interdisciplinary volume brings together eleven essays by historians political scientists literary scholars and sociologists who make use of fresh sources to study the development of republicanism from the colonial period to the First Republic of Vietnam 1955 1963 The introduction by coeditors Nu Anh Tran and Tuong Vu critically analyzes the existing scholarship on the First Republic explains how the concept of republicanism can illuminate developments in the Saigon based state and situates the regime in a comparative context with South Korea Peter Zinoman s chapter reviews the historiography on republicanism and modern Vietnam and heralds the arrival of the republican moment in the field of Vietnam studies Several chapters by Nguy n L ng H i Kh i Martina Thuchhi Nguyen and Yen Vu examine the transformation of republican ideas Nu Anh Tran and Duy Lap Nguyen explore competing concepts of democracy and the factional politics of the First Republic The essays by Jason Picard Cindy Nguyen Ho ng Phong Tu n Nguy n Th Minh and Y Thien Nguyen analyze nation and state building efforts in the 1950s and 1960s Collectively the essays give voice to Vietnamese republicans from the ideas they espoused to the institutions they built and the legacies they left behind

**Christian Fundamentalism and the Culture of Disenchantment** Paul Maltby, 2013-02-05 Within the familiar clash of religious conservatism and secular liberalism Paul Maltby finds a deeper discord an antipathy between Christian fundamentalism and the postmodern culture of disenchantment Arguing that each camp represents the poles of America s virulent culture wars he shows how the cultural identity lifestyle and political commitments of many Americans match either the fundamentalist profile of one who cleaves to metaphysical and authoritarian beliefs or the postmodern profile of one who is disposed to critical inquiry and radical democratic values Maltby offers a critique that operates in both directions His use of the resources of postmodern theory to contest fundamentalism s doctrinal claims ultra right politics anti environmentalism and conservative aesthetics informs his engagement with contemporary fundamentalist painting spiritual warfare fiction dominionist attitudes to nature and a profoundly undemocratic interpretation of Christianity At the same time Maltby identifies some of fundamentalism s legitimate spiritual concerns assesses the cost of perpetual critique and exposes the deficit of spiritual meaning that haunts the culture of disenchantment
