The Visible and the Revealed Jean-Luc Marion, 2009-08-25 In *The Visible and the Revealed* Jean-Luc Marion brings together his most significant papers dealing with the relationship between philosophy and theology Covering the ground from some of his earliest writings on this topic to very recent reflections they are particularly useful for understanding the progression of Marion's thought on such topics as the saturated phenomenon and the possibility of something like Christian Philosophy The book contains his seminal pieces on the saturated phenomenon and on the gift although the essays also explore more recent developments of his thought on these topics Several chapters explicitly explore the boundary line between philosophy and theology or their mutual enrichment and influence In one of the final pieces *The Banality of Saturation* Marion considers some of the most recent objections brought against his notion of the saturated phenomenon and responds to them in detail suggesting that saturated phenomena are neither as rare nor as inflexible as often assumed The work contains two chapters not previously available in English and brings together several other pieces previously translated but now difficult to find For readers interested in the relation between the two disciplines this is indispensable reading

The Self-revelation of God Samuel Harris, 1887 **Radical Revelation** Balázs M. Mezei, 2017-11-30 This volume offers a practical and innovative interpretation of divine revelation from a philosophical theological perspective Balázs M. Mezei outlines the most important presuppositions of our notion of divine revelation in a historic and semantic setting as well as elaborating upon the methodology of model analysis He then introduces and analyses the notion of self-revelation as the most important modern understanding of divine revelation and presents the notion of apocalyptic personhood as a corollary of radical personhood which is further developed into apocalyptic phenomenology Mezei further examines the remarkable development of some of the most important notions in the history of Christianity along with the homogenous infrastructure of these notions in the very essence of the religion the doctrine of Trinity Covering

aspects of revelation from semantics to historical and cognitive origins and engaging with a wide variety of texts including Augustine Thomas Aquinas and Joseph Ratzinger Mezei makes a strong and clear statement when explaining what the radical revelation is how it can be understood and its overall importance
