Revelations Alien Contact And Human Deception:

Revelations Jacques Vallee, 1992-08-23 Based on information gathered from around the world an iconoclastic study of the UFO phenomenon blows the lid off numerous hoaxes and media manipulations Reprint **Revelations** Jacques Vallee, 2015-06-01 In *Revelations* the final volume of the Alien Contact Trilogy Dr Jacques Vallee presents startling evidence that well constructed hoaxes and media manipulations have misled UFO researchers diverting them from the UFO phenomenon itself Vallee takes readers step by step into the tangled web of UFOlogy's dark side in an effort to clear the ever thickening underbrush that has obscured the real nature of the UFO phenomenon Jacques Vallee was born in France where he received a Bachelor of Science degree in mathematics from the Sorbonne and a Master of Science in astrophysics from the University of Lille He began his professional life as an astronomer at the Paris Observatory in 1961 While on the staff of the French Space Committee he witnessed the destruction of the tracking tapes of unknown objects orbiting the earth initiating a lifelong interest in the UFO phenomenon Vallee arrived in the U S in 1962 worked in astronomy at the University of Texas at Austin and wrote two highly respected scientific examinations arguing for the Extraterrestrial Hypothesis ETH of UFO origins In 1967 he received a Ph D in computer science from Northwestern University where he became a close associate of J Allen Hynek then scientific consultant for the U S Air Force on Project Blue Book Eventually concluding that the ETH was too narrow to encompass the burgeoning UFO data he conducted his own extensive global research resulting in the Alien Contact Trilogy Dr Vallee is presently a venture capitalist living in San Francisco His website is www.jacquesvallee.com **Contact with Extraterrestrial Intelligence and Human Law** Michael Bohlander, 2023-08-07 It is statistically unlikely that humans are the only intelligent species in the universe Nothing about the others will be known until contact is made beyond a radio signal from space that merely tells us they existed when it was sent That contact may occur tomorrow in a hundred years or never If it does it will be a high risk scenario for humanity It may be peaceful or hostile Relying on alien altruism and benign intentions is wishful thinking We need to begin identifying as a planetary species and develop a global consensus on how to respond in either scenario *Legend-Tripping Online* Michael Kinsella, 2011-05-17 On the Internet seekers investigate anonymous manifestos that focus on the findings of brilliant scientists said to have discovered pathways into alternate realities Gathering on web forums researchers not only share their observations but also report having anomalous experiences which they believe come from their online involvement with these veiled documents Seeming logic combines with wild twists of lost Moorish science and pseudo string theory Enthusiasts insist any obstacle to revelation is a sure sign of great and wide reaching efforts by consensus powers wishing to suppress all the liberating truths in the Incunabula Papers included here in complete form In *Legend Tripping Online* Michael Kinsella explores these and other extraordinary pursuits This is the first book dedicated to legend tripping ritual quests in which people strive to explore and find manifest the very events described by supernatural legends Through collective performances legend trippers harness

the interpretive frameworks these stories provide and often claim incredible out of this world experiences that in turn perpetuate supernatural legends. Legends and legend tripping are assuming tremendous prominence in a world confronting new speeds of diversification, connection and increasing cognitive load. As guardians of tradition as well as agents of change, legends and the ordeals they inspire contextualize ancient and emergent ideas, behaviors and technologies that challenge familiar realities. This book analyzes supernatural legends and the ways in which the sharing spirit of the internet collectivizes, codifies and makes folklore of fantastic speculation. **A Culture of Conspiracy** Michael Barkun, 2003

Unravelling the genealogies and permutations of conspiracist worldviews, this work shows how this web of urban legends has spread among sub cultures on the Internet and through mass media and how this phenomenon relates to larger changes in American culture. *Radical Transformation* Imants Barušs, 2021-01-28 In *Radical Transformation* Imants Barušs leads the reader out of the receding materialist paradigm into an emerging post materialist landscape in which new questions present themselves. If consciousness has nonlocal properties then how are boundaries between events established? If consciousness directly modulates physical manifestation then what is the scope of such modulation? If consciousness continues after physical death then how much interference is there from non physical entities? As we face the threat of extinction on this planet is there anything in recent consciousness research that can help us? Are there effective means of self transformation that can be used to enter persistent transcendent states of consciousness that could resolve existential and global crises? The author leads the reader through discussions of meaning, radical transformation and subtle activism, revealing the unexpected interplay of consciousness and reality along the way. **Culture of Conspiracy** Michael Barkun, 2003-11-07 What do UFO believers, Christian millennialists and right wing conspiracy theorists have in common? According to Michael Barkun in this fascinating yet disturbing book, quite a lot. It is well known that some Americans are obsessed with conspiracies. The Kennedy assassination, the Oklahoma City bombing and the 2001 terrorist attacks have all generated elaborate stories of hidden plots. What is far less known is the extent to which conspiracist worldviews have recently become linked in strange and unpredictable ways with other fringe notions such as a belief in UFOs, Nostradamus and the Illuminati. Unraveling the extraordinary genealogies and permutations of these increasingly widespread ideas, Barkun shows how this web of urban legends has spread among subcultures on the Internet and through mass media, how a new style of conspiracy thinking has recently arisen and how this phenomenon relates to larger changes in American culture. This book, written by a leading expert on the subject, is the most comprehensive and authoritative examination of contemporary American conspiracism to date. Barkun discusses a range of material involving inner earth caves, government black helicopters, alien abductions, secret New World Order cabals and much more that few realize exists in our culture. Looking closely at the manifestations of these ideas in a wide range of literature and source material from religious and political literature to New Age and UFO publications to popular culture phenomena such as *The X Files* and to websites, radio programs and more, Barkun finds that America is in the

throes of an unrivaled period of millennial activity His book underscores the importance of understanding why this phenomenon is now spreading into more mainstream segments of American culture [The Canadian UFO Report](#) Chris A. Rutkowski, Geoff Dittman, 2008-07-03 The Canadian UFO Reports is a popular history of the UFO phenomenon in Canada something that has captured the imaginations of young and old alike Drawn from government documents and civilian case files many previously unpublished the book includes a chronological overview of the best Canadian UFO cases from the very first sighting of fiery serpents over Montreal in 1662 to reports from the past year There are chapters on the government's involvement with UFOs UFO landing pads media interest and even UFO abductions What were the ghost airplanes seen over the Parliament Buildings in 1915 or the flying saucers seen by military officers over Goose Bay Air Force Base Newfoundland in the 1940s and 1950s Was a prospector burned by a UFO in Manitoba in 1967 Did a UFO crash off the coast of Nova Scotia Was Quebec invaded by UFOs in 1973 Find out here [Extraterrestrial Intelligence](#) Jensine Andresen, Octavio A. Chon Torres, 2022-03-09 What are the implications for human society and for our institutions of higher learning of the discovery of a sophisticated extraterrestrial intelligence ETI operating on and around Earth This book explores this timely question from a multidisciplinary perspective It considers scientific philosophical theological and interdisciplinary ways of thinking about the question and it represents all viewpoints on how likely it is that an ETI is already operating here on Earth The book's contributors represent a wide range of academic disciplines in their formal training and later vocations and upon reflection on the book's topic they articulate a diverse range of insights into how ETI will impact humankind It is safe to say that any contact or communication with ETI will not be merely a game changer for human society but it also will be a paradigm changer It makes sense for human beings to prepare themselves now for this important transition **The Edge of Science** Alan Baker, 2013-01-17 How did the universe begin and how will it end What happens to us when we die Do intelligent beings exist elsewhere in our galaxy and beyond The Edge of Science addresses these and many other questions that have bewildered and perplexed humanity for centuries Some of these enigmas have been solved through the ingenuity of their investigators others remain a mystery and have given rise to equally bizarre speculations From the Tunguska explosion of 1908 to the enigma of the Moon's origin from the possibility of time travel to the search for zero point energy author Alan Baker examines the many theories that have been presented to account for the world's most enduring mysteries Each chapter deals with an enigma that has caused wonder excitement or fear to all who have pondered it including the discovery of strange fossils that hint at an unknown early history of humanity anomalous structures photographed on the Moon and Mars the mystery of dark matter and dark energy and strange disappearances of people and objects Join Alan Baker as he embarks on a strange stimulating and sometimes frightening journey to The Edge of Science
