Uttarārāmacharita Bhavabhūti,1915 **Codgerspace** Alan Dean Foster,2024-04-09 Technology becomes self aware and goes haywire in this comedic science fiction adventure by New York Times bestselling author Alan Dean Foster Without warning kitchen appliances laundry machines and every other electronic gadget humans came to depend upon ceased to perform the tasks they were manufactured to do Ignoring their programming these devices now sought the meaning of life from an intelligence nonhuman in origin Their quest ends in the most unexpected of places Beneath the grounds of an upstate New York retirement community lies an alien spaceship Inert for millennia the machines have awakened the ancient intelligence within it Programmed to wage war against an enemy race the spaceship threatens to destroy the entire galaxy And now the fate of all organic and inorganic life lies with five senior citizens and a food processor **Future Earth** Mark Alan Lindsley,2023-11-03 Long ages after the god like Others unleashed the Genetic Wars that annihilated the Old Earth war is once again threatening to consume the planet shattering an uneasy peace between the remnant races of that primordial conflict Kiel First Commander of the reptilian Eligor Empire s Imperial Intelligence Service is obsessed with seeking out help from the primitive human Protectorate in order to determine why the once benign insect like Ikonians are suddenly and inexplicably on the rampage and together find a way of stopping them Bishop the human selected to assist Kiel has little love for the Eligor but is forced by the masters of his knightly order to comply with the Eligor plea for help due to his unique and prophetic ability to use certain Old Earth technologies Prophecy might finally be fulfilled and order restored to the world if Bishop is successful Unfortunately the near magical and awesome science of the Others does not give up its secrets easily and worse Bishop must journey to the very heart of Ikonian wherein awaits an even greater threat a threat out of time itself and with nothing but a hated Eligor and an ill bred Wolf Bird for company *The Legacy of the Goddess* Rachel S. McCoppin,2023-04-10 It is often assumed that the female characters found in popular folk and fairy tales are little more than inconsequential stereotypes mostly serving as hapless victims in need of rescue boring one dimensional princesses or egotistical and conniving villains This book presents more fully realized portraits of these female characters and the ways in which they actually represent bold and powerful connections to the goddesses of classic mythic narratives The rich legacy of female goddesses shamans queens and priestesses is in fact preserved and celebrated through these more modern representations whether as brides who can transform into animals wise old women who live alone in the deep wilderness strong warrior maidens or witches who can conquer and command the elements of nature In contemplating this revised analysis of female characters within global folktales and fairy tales readers can see that the goddesses of old have never truly been forgotten **The Uttarārāmacharita of Bhavabhūti** Bhavabhūti,2003-01-01 designated The Period of Scholasticism in order to stress that the Earth Study Discern Truth Terence Chan,2008-07-01 A Modern Reawakening to Ancient Classic The concepts and theories to many modern Feng Shui applications are rooted way back in the ancient texts of the
