The Guattari Effect Eric Alliez, Andrew Goffey, 2011-06-30 The Guattari Effect brings together internationally renowned experts on the work of the French psychoanalyst philosopher and political activist F lix Guattari with philosophers psychoanalysts sociologists anthropologists and artists who have been influenced by Guattari s thought Best known for his collaborative work with Gilles Deleuze Guattari s own writings are still a relatively unmined resource in continental philosophy Many of his books have not yet been

translated into English Yet his influence has been considerable and far reaching This book explores the full spectrum of Guattari s work reassessing its contemporary significance and giving due weight to his highly innovative contributions to a variety of fields including linguistics economics pragmatics ecology aesthetics and media theory Readers grappling with the ideas of contemporary continental philosophers such as Badiou i ek and Ranci re will at last be able to see Guattari as the extraordinary philosopher Deleuze claimed him to be with his distinctive radical ideas about the epoch of global deterritorialization we live in today forged within the practical contexts of revolutionary politics and the materialist critique of psychoanalysis

Relationescapes Erin Manning,2012-08-17 A new philosophy of movement that explores the active relation between sensation and thought through the prisms of dance cinema art and new media With Relationescapes Erin Manning offers a new philosophy of movement challenging the idea that movement is simple displacement in space knowable only in terms of the actual Exploring the relation between sensation and thought through the prisms of dance cinema art and new media Manning argues for the intensity of movement From this idea of intensity the incipency at the heart of movement Manning develops the concept of preacceleration which makes palpable how movement creates relational intervals out of which displacements take form Discussing her theory of incipient movement in terms of dance and relational movement Manning describes choreographic practices that work to develop with a body in movement rather than simply stabilizing that body into patterns of displacement She examines the movement images of Leni Riefenstahl tienne Jules Marey and Norman McLaren drawing on Bergson s idea of duration and explores the dot paintings of contemporary Australian Aboriginal artists Turning to language Manning proposes a theory of prearticulation claiming that language s affective force depends on a concept of thought in motion Relationescapes takes a Whiteheadian perspective recognizing Whitehead s importance and his influence on process philosophers of the late twentieth century Deleuze and Guattari in particular It will be of special interest to scholars in new media philosophy dance studies film theory and art history

[The Changing South Pacific](#) Serge Tcherkézoff,Françoise Douaire-Marsaudon,2008-12-01 The texts collected in this volume take an anthropological approach to the variety of contemporary societal problems which confront the peoples of the contemporary South Pacific religious revival the sociology of relations between local groups regions and nation States the problem of culture areas the place of democracy in the transition of States founded on sacred chiefdoms the role of ceremonial exchanges in a market economy and so forth Each chapter presents a society seen from a specific point of view but always with reference to the issue of collective identity and its confrontation with history and change The collection thus invites the reader to understand how the inhabitants of these societies seek to affirm both an individual identity and a sense of belonging to the contemporary world In doing so it informs the reader about the contemporary realities experienced by the inhabitants of the South Pacific with a view to contributing to an intercultural dialogue between the reader and these inhabitants

The Dead Do Not Die Sven Lindqvist,2014-06-03 Sven Lindqvist is one of our most original writers on race colonialism and genocide and his signature

approach uniting travelogues with powerful acts of historical excavation renders his books devastating and unforgettable. Now for the first time Lindqvist's most beloved works are available in one beautiful and affordable volume with a new introduction by Adam Hochschild. *The Dead Do Not Die* includes the full unabridged text of *Exterminate All the Brutes*, called a book of stunning range and near genius by David Levering Lewis. In this work Lindqvist uses Joseph Conrad's *Heart of Darkness* as a point of departure for a haunting tour through the colonial past retracing the steps of Europeans in Africa from the late eighteenth century onward and thus exposing the roots of genocide via his own journey through the Saharan desert. The full text of *Terra Nullius* is also included for which Lindqvist traveled 7 000 miles through Australia in search of the lands the British had claimed as their own because it was inhabited by lower races: the native Aborigines, nearly nine tenths of whom were annihilated by whites. The shocking story of how no man's land became the province of the white man was called the most original work on Australia and its treatment of Aborigines I have ever read, marvelous by Phillip Knightley, author of *Australia: Australian Aboriginal Studies*, 2005.

A World of Relationships Sylvie Poirier, 2005-01-01. Drawing on her three years of field work in the Balgo Hills during the 1980s and on recent ethnographic literature, Poirier's anthropology at U Laval, Quebec, explains dialectical aspects of Australian Aboriginal social and cosmological realities. She focuses on the relations among the ancestral order, the land, and human and non-human agencies.

Le front national Michel Wieviorka. *Le Front national* a-t-il extrinsèque la naissance jusqu'à quel point l'est-il encore? Il est généralement tenu pour populiste, mais n'est-il pleinement cet étiquetage? Capable de parler avec un certain succès au nom des oubliés et des invisibles et ainsi de se référer des figures sociales, le FN n'est pas seulement une force nationaliste. Porté par la hantise de l'islam, il semble soucieux de se rapprocher des Juifs et de s'écarter de son lourd passé antisémite, mais n'est-il pas ici profondément ambivalent? Ses succès politiques récents dessinent une carte de France inédite dans laquelle les villes et même les banlieues dites difficiles prennent leur distance avec ce parti, tandis que des pans entiers de son lectorat résident aujourd'hui dans des zones périurbaines; cette tendance est-elle appelée se renforcer? En retraçant l'histoire de ce parti, l'ouvrage répond entre autres ces questions en mettant à disposition du lecteur des connaissances précises, documentées et jour sur le Front national. Et pour comprendre l'installation durable de cette force politique, elle-même en changement, il analyse les transformations sociales, politiques, économiques et culturelles de la France.

Assimilating Identities Laurent Dousset, 2005. An historical and structural investigation of the diffusion of taxonomic elements of the section system as known among dialect groups of the Australian Western Desert. Foreword
