Revi Lona:

Revi-Lona Frank Cowan, 1889 Lost race adventure novel set in the Antarctic about a matriarchy amidst super scientific technology and prehistoric monsters Locke A spectrum of fantasy page 59 Science-fiction, the Early Years Everett Franklin Bleiler, 1990 In this volume the author describes more than 3000 short stories novels and plays with science fiction elements from earliest times to 1930 He includes imaginary voyages utopias Victorian boys books dime novels pulp magazine stories British scientific romances and mainstream work with science fiction elements Many of these publications are extremely rare surviving in only a handful of copies and most of them have never been described before *Revi Lona* Frank Cowan, 2014-03-30 This Is A New Release Of The Original 1879 Edition Egypt Land Scott Trafton, 2004-11-19 Explores the relation between nineteenth century American interest in ancient Egypt in architecture literature and science and the ways Egypt was deployed by advocates for slavery and by African American writers Mothers and Masters in Contemporary Utopian and Dystopian Literature Mary Elizabeth Theis, 2009 Because advances made by science and technology far outstripped improvements in human nature utopian dreams of perfect societies in the twentieth century quickly metamorphosed into dystopian nightmares which undermined individual identity and threatened the integrity of the family Armed with technological and scientific tools totalizing social systems found in literature abolish the distinction between public and private life and thus penetrate and corrupt the very core of all utopian blueprints and visions the education of future generations At the heart of the family mothers as parents transmit their diverse cultural traditions while socializing their children and thus compete with ideologically driven systems that usurp their role as educators Mothers and Masters in Contemporary Utopian and Dystopian Literature focuses therefore on the thematic importance of this and other maternal roles for generic metamorphosis the shift to dystopia invariably is signaled by the inversion of traditional maternal roles The longevity of the utopian dystopian literary tradition and persistence of the maternal model of human relationships serve as points of reference in this post modern age of relative cultural values Meta utopian exploration of this thematic tension between utopia and dystopia reminds us that no place may not be home but we need to keep going there

Antarctica in Fiction Elizabeth Leane, 2012-06-29 This first comprehensive exploration of literary responses to Antarctica maps the far south as a space of the imagination *South Pole* Elizabeth Leane, 2016-04-15 As one of two points where the Earth's axis meets its surface the South Pole should be a precisely defined place But as Elizabeth Leane shows in this book conceptually it is a place of paradoxes An invisible spot on a high featureless ice plateau the Pole has no obvious material value yet it is a highly sought after location and reaching it on foot is one of the most extreme adventures an explorer can undertake The Pole is as Leane shows a deeply imagined place and a place of politics where a series of national claims converge Leane details the important challenges that the South Pole poses to humanity asking what it can teach us about ourselves and our relationship with our planet She examines its allure for explorers such as Robert F Scott and Roald

Amundsen not to mention the myriad writers and artists who have attempted to capture its strange inhospitable blankness She considers the Pole s advantages for climatologists and other scientists as well as the absurdities and banalities of human interaction with this place Ranging from the present all the way back to the ancient Greeks she offers a fascinating and lavishly illustrated story about one of the strangest and most important places on Earth **Classics of Fantastic**

Literature Robert Reginald,Robert Menville,2005-01-01 Includes plot summaries and detailed descriptions of 194 works of science fiction from the 19th and 20th centuries Futurescapes Ralph Pordzik,2009 This book testifies to the growing interest in the many spaces of utopia It intends to map out on utopian and science fiction discourses some of the new and revisionist models of spatial analysis applied in Literary and Cultural Studies in recent years The aim of the volume is to side step the established generic binary of utopia and dystopia or science fiction and thus to open the analysis of utopian literature to new lines of inquiry The essays collected here propose to think of utopias not so much as fictional texts about future change and transformation but as vital elements in a cultural process through which social spatial and subjective identities are formed Utopias can thus be read as textual systems implying a distinct spatial and temporal dimension as spatial practices that tend to naturalize a cultural and social construction that of the good life the radically improved welfare state the Christian paradise the counter society etc and make that representation operational by interpellating their readers in some determinate relation to their givenness as sites of political and individual improvement This volume is of interest for all scholars and students of literature who wish to explore the ways in which utopias of the past and recent present have circulated as media of cultural exchange and homogenization as sites of cultural and linguistic appropriation and as foci for the spatial formation of national and regional identities in the English speaking world **They R. ; Melville** Reginald,Robert Reginald,Douglas Menville,2008-10
