Frank P. Mintz, 1985-08-06 Book on the revisionist historiography of the Pearl Harbor attack the roots of the Japanese American war and the collapse of American relations with Japan in 1941 Includes the change in beliefs in American society on the topic since 1945 The Origins of Revisionist and Status-Quo States J. Davidson, 2016-04-30 Explaining why some states seek the status quo and others seek revision in international relations Davidson argues that governments pursuing revisionist policies are responding to powerful domestic groups such as nationalists and those in the military that believe they can defeat their rivals He draws on examples of France Italy and Great Britain to enhance understanding of a fundamental source of instability in international affairs *The American Trajectory* David Ray Griffin, 2018-08-05 In *The American Trajectory* Divine or Demonic David Ray Griffin traces the trajectory of the American Empire from its founding through to the end of the 20th century A prequel to Griffin's *Bush and Cheney* this book demonstrates with many examples the falsity of the claim for American exceptionalism a secular version of the old idea that America has been divinely founded and guided Supported by extensive research Griffin thoroughly debunks the myth of an American Empire as a benign exceptionalist divinely ordained historical agent Instead of Manifest Destiny what reality based Griffin charts is the malign ways of US foreign policy since the 19th century a trajectory founded by slavery and genocide of indigenous peoples and then imperially expanded non stop Malign happens to be a term currently very much in vogue across the Beltway but always to designate US competitors Russia and China Griffin consistently challenges Beltway gospel demonstrating that if the US had not entered WWI there may have been no WWII He unmasks the lies surrounding the true story of the Pearl Harbor attacks He asks If the US was really guided by God how could it choose to bomb Hiroshima and Nagasaki knowing that the atomic bombs were not necessary to end the war Griffin also shows how the Cold War was actually conceptualized several years before the 1950 National Security Council paper 68 NSC 68 He revisits the origins of irrational hatred of Iran the demonization of Cuba the lies surrounding the Vietnam debacle the false flags across Europe via Operation Gladio the destruction of Yugoslavia the decades long evisceration of Iraq and the ramifications of the Full Spectrum Dominance doctrine This sharp concise history of the American Empire ultimately demonstrates in Griffin's analysis the fraud of endorsing self praising American Exceptionalism A must read Pepe Escobar Asia Times Hong Kong **Prologue**, 1996
