Revitalizing Liberal Values In A Globalizing World:

Revitalizing Liberal Values in a Globalizing World Ruud Lubbers, 2000-12-15 The longest serving Dutch Prime Minister 1982-94 Professor Lubbers is known for his support of liberal values social equity human rights democratic governments and spirituality In this book he explores ways to conciliate these values with global economization Dr Lubbers argues that the global economy created by new information technologies has led to a competitive world atmosphere that works against social equity local movements and national interests In this context he urges that steps be taken to ensure that the new era evolves in the interests of justice peace and fairness Such steps may include combining the governance of nation states providing development assistance supporting initiatives in legislation and jurisprudence such as an international criminal court and initiating a global dialogue on values For Dr Lubbers liberal values mean a just sustainable and participatory society This volume presents the third in a series of lectures that offer reflections by well known figures on topical liberal oriented themes This particular lecture has the distinction of never having been delivered since Toronto was in the midst of a crippling snowstorm on the afternoon of 14 January 1999 when Lubbers was scheduled to speak at Victoria University The two earlier volumes in the series present lectures by John Kenneth Galbraith and Michael Ignatieff **The British Liberal Tradition** Roy Jenkins, 2001-01-01 Lord Jenkins tells the story of the rise and fall of the British Liberal party under prime ministers Gladstone Churchill Asquith and Lloyd George and explores the place of current British Prime Minister Tony Blair in this tradition **John Kenneth Galbraith** Conrad Waligorski, 2006-06-08 John Kenneth Galbraith The Economist as Political Theorist is a comprehensive analysis of John Kenneth Galbraith's political economy placing him within the development and evolution of twentieth century American liberalism This book examines the continuing link between politics and economics in American political discourse by locating Galbraith in a framework of liberal and conservative theory controversy alternatives and policy By analyzing Galbraith's complex arguments Waligorski addresses important issues about the content and nature of American political thought and policy conflict including freedom equality inequality individualism democracy the legitimate role of government the nature of a good society the structure of modern capitalism and the failure of contemporary economic theory to serve as a guide to a better life Many of the issues that drive contemporary politics today are simultaneously political economic and ideological As an economist political theorist and cultural critic Galbraith epitomizes this interconnection **Three Plays of Maureen Hunter** Hunter, Maureen, 2003 Book is clean and tight No writing in text Like New **War Crimes and the Culture of Peace** Louise Arbour, 2002-12-15 In 1996 Louise Arbour was appointed by the Security Council of the United Nations as Chief Prosecutor for the International Criminal Tribunals for the former Yugoslavia and Rwanda Reflecting on these experiences she argues in War Crimes and the Culture of Peace that the level of public awareness and understanding of the significance of these events is minimal in part as a result of the way in which international criminal law is practiced Justice Arbour contends that previous efforts to unite

concepts of international law and criminal law in the practice of these tribunals are evolving and suggests that the ties between personal criminal accountability and peace should be central to the decisions made in the future concerning procedural models for the permanent International War Crimes Tribunals As a result the public might better understand the context and causes of such crime and the notion of crime as a breach of the peace would be made central to these trials Justice Arbour delivered War Crimes and the Culture of Peace as the fifth annual Senator Keith Davey Lecture at Victoria University at the University of Toronto in January 2001

□□□□□□□□ □□□,2005-01-01 **The League of Nations** M. Cottrell,2017-09-11 The League of Nations occupies a fascinating yet paradoxical place in human history Over time it s come to symbolize both a path to peace and to war a promising vision of world order and a utopian illusion an artifact of a bygone era and a beacon for one that may still come As the first experiment in world organization the League played a pivotal but often overlooked role in the creation of the United Nations and the modern architecture of global governance In contrast to conventional accounts which chronicle the institution s successes and failures during the interwar period Cottrell explores the enduring relevance of the League of Nations for the present and future of global politics He asks What are the legacies of the League experiment How do they inform current debates on the health of global order and US leadership Is there a dark side to these legacies Cottrell demonstrates how the League of Nations soul continues to shape modern international relations for better and for worse Written in a manner accessible to students of international history international relations and global politics it will also be of interest to graduates and scholars

Reviving Classical Liberalism Against Populism Nils Karlson,2023-12-30 This open access book by Nils Karlson explores the strategies used by left and right wing populists to make populism intelligible recognizable and contestable It presents a synthesized explanatory model for how populists promote autocratization through the deliberate polarization of society It traces the ideational roots of the core populist ideas and shows that these ideas form a collectivistic identity politics Karlson argues that to fight back requires the revival of liberalism itself by defending and developing the liberal institutions the liberal spirit liberal narratives and liberal statecraft The book also presents and discusses an extensive list of counterstrategies against populism Written within the tradition of political theory and institutional economics this book uses a wide variety of sources including results and analyses from social psychology ethics law and history

A Radical Proposal to Reinvigorate the Teaching of the Liberal Arts Michael Wayne Santos,2020-09-15 This book offers a clarion call in the words of Franklin Roosevelt to try something And not just any something A systematic integrated chronological multi disciplinary approach to reinvigorate the teaching of the liberal arts and put them back where they belong at the center of a student s educational experience It does not pretend to offer a cure all or a one size fits all solution to everything that is ailing American higher education or even secondary education It does however offer a place to begin a discussion to invite experimentation and to initiate reform based on solid pedagogy and 2 500 years of time tested wisdom in the human experience As such it should be of interest to many people Those in higher

education serious about the crisis facing their institutions could benefit from taking up the gauntlet this volume throws down For students and parents the book raises alternatives and poses some hard questions that they should be asking not only as they consider colleges and universities but of their secondary schools In fact anyone who keeps a close eye on the state of education would be interested in what this book adds to the discussion **Globalization and Its New Divides** Paul van Seters, Bastiaan de Gaay Fortman, Arie de Ruijter, 2003 Most of the contributions in this volume originated as papers for two workshops of the Anniversary Conference of Tilburg University that was held in Tilburg the Netherlands on 26-28 March 2003 The Conference was entitled Sustainable Ties in the Information Society One of the workshops was on The Information Society and Its Discontents The Search for New Recipes and Reform the other one was on Social Cohesion Information Society and Education In light of obvious overlap of themes and content after the Conference it was decided to join the efforts of the two work shops and to strive for an integrated publication
