Reviving The World Court:

Encyclopedia of Government and Politics M. E. Hawkesworth, Maurice Kogan, 1992 **Encyclopedia of Government and Politics** Mary Hawkesworth, Maurice Kogan, 2013-11-07 This is a brand new edition of the critically acclaimed Encyclopedia of Government and Politics which has been fully revised and updated to provide a systematic account of politics and political studies at the beginning of the new millennium Providing a penetrating analysis of government and politics at a global regional and nation state level the Encyclopedia assesses both traditional and contemporary approaches and projects the paths of future research The articles provide a degree of critical analysis far beyond a simple descriptive outline of the subject Internationally respected contributors have been carefully selected to present contending approaches to related topics both to clarify the political implications of the various methodologies and to enrich the portrayal of political life With its expanded revised and updated coverage Encyclopedia of Government and Politics is more than ever an indispensable tool for students teachers professional analysts and policy makers **The Survey**, 1928 **The Revival of Israel** Moses Hess, 1995-01-01 Its author Moses Hess 1812 1875 was a German socialist who brought his revolutionary zeal to the preaching of Jewish nationalism The Revival of Israel combines a fervent sense of national destiny with ethical socialism and religious conservatism Hess believed that Papal Rome represented the source of anti-Semitism and that universal ideals of justice and equality were inherent in the history and aspirations of the Jewish people who could fulfill their historical promise only in their ancient Holy Land under their own rule Without spiritual regeneration Judaism was in danger of becoming nothing more than a creed or cult too many German Jews had already assimilated He looked above all to France home of revolution to protect the Jews considering it the sacred duty of Christians to help them regain their promised land Unnoticed at first The Revival of Israel was later discovered and adopted by the Zionists **Revival: Legitimacy Deficit in Custom: Towards a Deconstructionist Theory (2001)** Ben Chiagra, 2017-07-05 This title was first published in 2001 A discussion of customary international law CIL Throughout the study particular values are examined for their potential effect on the legitimacy of the process of custom The writer argues that in order to achieve legitimacy enhancing transparency in the process of custom it must be acknowledged first that the power applied by international tribunals when they inaugurate new norms of customary international law always creates categories of dominance and subservience inclusion and exclusion Such an acknowledgement would foster a situation where both the power applied by tribunals and the manner in which it is applied can legally be scrutinized for excesses that limit first the transparency of the process of custom and second the legitimacy of norms of customary international law *The European Union, the United Nations, and the Revival of Confederal Governance* Frederick Lister, 1996-07-11 Before it became a federation the United States was briefly a confederation a much looser union composed of states rather than of peoples Unions of states to promote economic well being and to prevent war are now being revived Mr Lister analyzes modern confederalism and how it is functioning in the

single market of the European Union and how it might function if the collective security system of the United Nations could be carried out as originally planned by a confederal style partnership of the world's independent states. Political scientists have traditionally classified voluntary polities as confederations, federations or unitary states. But they have ignored the first of these classes perhaps because Alexander Hamilton, wishing to mobilize support for the new federal constitution, discredited not only the United States Confederation but the whole class of confederations as a viable method of governance. More than 200 years later, confederation as a form of governance is still under a cloud. Yet it has been resurfacing largely unrecognized for what it is in the repertory of government. In the treaties of Rome and Maastricht and in the collective security system of the Charter of the European Union and the United Nations are already involved in forms of governance that are confederal in all but name. Lister's book describes confederal governance and how such unions of states differ from intergovernmental organizations on the one hand and federations on the other. Meticulously researched and carefully argued, it draws upon his five years of study of confederal unions from Ancient Greece through the 19th century Germanic Confederation and the German Zollverein. But his book is not a history of confederations. Instead, it shows how long-term alliances sometimes evolve into unions of states and in time into communities of the peoples who live in those states. It also shows how the ties of confederal union have been institutionalized in modern times in the EU and how they might be institutionalized in a global collective security body. Finally, the book stresses the urgency of moving in this direction because we shall face a very serious security problem in the next century. With the steady leakage of nuclear materials in Russia, the non-proliferation approach to controlling weapons of mass destruction appears to be breaking down. Lister argues that if and when governments are confronted with this looming problem, perhaps in the not too distant future, the confederal model may be the one that they will need to have updated and at their disposal.

The Revival of Private Law in Central and Eastern Europe Donald D. Barry, George Ginsburgs, William B. Simons, 2023-12-18. This series critically examines issues of legal doctrine and practice in Central and Eastern Europe, including studies on the harmonization of legal principles and rules, the legal impact of the intertwining of domestic economies on the one hand with regional economies and the processes of international trade and investment on the other. The series offers a forum for discussion of topical questions of public and private law from domestic, regional and international perspectives. Comparative research that provides insights in legal developments that can be communicated to those interested in questions not only of law but also of politics, economics and of society of countries in the region also finds a home in the series.
