Revolt Against Reason

Joan Stambaugh

Revolt Against Reason:

The Revolt Against Reason Arnold Lunn, 1950 Revolt Against Modernity Ted V. McAllister, 1996 Provides the first comparison of the thought of these two political philosophers and its influence on contemporary American conservatism

The Revolt Against Reason Sir Arnold Henry Moore Lunn, 1951 *In Praise of Idleness* Bertrand Russell, 2020-08-26
Intolerance and bigotry lie at the heart of all human suffering So claims Bertrand Russell at the outset of *In Praise of Idleness* a collection of essays in which he espouses the virtues of cool reflection and free enquiry a voice of calm in a world of maddening unreason From a devastating critique of the ancestry of fascism to a vehement defence of useless knowledge with consideration given to everything from insect pests to the human soul this is a tour de force that only Bertrand Russell could perform
The Real is Not the Rational Joan Stambaugh, 1986-01-01 What is real What is man Beginning with these two fundamental questions *The Real is not the Rational* searches back into the history of philosophy for the development of these issues It presents selected key stages in the history of the rationalist tradition indicating the direction in which rationalism sought what is real The role of non rationalist tendencies within rationalism and the shift to an emphasis on the irrational in the nineteenth century are also examined The study seeks alternatives to the rational irrational dilemma alternatives found in Heidegger who takes the non rational seriously It also looks for alternatives in Buddhism which dissolves the dichotomy between the rational and the irrational since its prime concern was never with reason but has always been soteriological

The Problem of Atheism Augusto Del Noce, 2022-01-05 In 1964 Augusto Del Noce assembled in a book some of his best works on Marxism atheism and the history of modern philosophy The result was *Il problema dell'ateismo* which he always regarded as foundational to his way of thinking The book remains his best known work and is still in print in Italy almost sixty years later *The Problem of Atheism* offers the first English translation of this landmark book one of the earliest works to recognize the new secularizing trends in Western culture following World War II Del Noce situates atheism historically reconstructing its philosophical trajectory through European modernity Documenting the author's entire intellectual experience these essays explore the birth of modern philosophy reckon with the great European crisis of 1917 to 1945 and the Cold War that followed and mine the opposition between Marxism and the rise of the affluent society The result is rich with premonitions of the cultural landscape that would take shape throughout the 1960s and the decades that followed Proving its English translation to be long overdue *The Problem of Atheism* remains relevant to contemporary debates about secularization political theology and modernity
Margins of Disorder Gal Gerson, 2004-08-06 Traces how progressive liberals in Edwardian Britain responded to contemporary intellectual trends
