Revolution And Class Struggle A Reader In Marxist Politics:

Revolution and Class Struggle Robin Blackburn, 1978 **Trotsky, Trotskyism and the Transition to Socialism** Peter Beilharz, 2019-11-19 First published in 1987 Trotskyists have long dominated the revolutionary tradition on the Western left Written from a critical socialist standpoint this book provides an analysis of Trotskyism and argues that Trotskyism is increasingly irrelevant as a means of achieving socialism It argues that as the realisation grows that the revolutionary tradition and the authoritarianism which necessarily result from it are wrong the importance of the problem of the transition to socialism increases It argues that on this point Trotskyism is weak that Trotskyism's proposals for socialist transition are largely rhetorical and that its democratic impulse is weak It supports this argument by showing that Trotsky's philosophy of history implicit in his writings which the author characterises as evolutionary and necessitarian coupled with a failure to grasp the moral basis of the socialist case has a disabling effect on Trotsky's account of the transition to socialism and on his explanation of Stalinism Moreover it argues that Trotsky's intellectual and political heirs have been unable to escape from the contradictions inherent in his thought **The Origins of the Stalinist Political System** Graeme Gill, Graeme J. Gill, 2002-07-18 New and challenging perspectives on Soviet political development from 1917 to 1941 **Marxism, Modernity and Postcolonial Studies** Crystal Bartolovich, Neil Lazarus, 2002-07-11 At a time when even much of the political left seems to believe that transnational capitalism is here to stay Marxism Modernity and Postcolonial Studies refuses to accept the inevitability of the so called New World Order By giving substantial attention to topics such as globalisation racism and modernity it provides a specifically Marxist intervention into postcolonial and cultural studies An international team of contributors locate a common ground of issues engaging Marxist and postcolonial critics alike Arguing that Marxism is not the inflexible monolithic irrelevance some critics assume it to be this collection aims to open avenues of debate especially on the crucial concept of modernity which have been closed off by the widespread neglect of Marxist analysis in postcolonial studies Politically focused at times polemical and always provocative this book is a major contribution to contemporary debates on literary theory cultural studies and the definition of postcolonial studies *The Bloomsbury Companion to Marx* Andrew Pendakis, Imre Szeman, Jeff Diamanti, 2018-12-27 There are very few figures in history that have exerted as much and as varied an influence as Karl Marx His work represents an unrivalled intervention into fields as various as philosophy journalism economics history politics and cultural criticism His name is invoked across the political spectrum in connection to revolution and insurrection social justice and economic transformation The Bloomsbury Companion to Marx is the definitive reference guide to Marx's life and work Written by an international team of leading Marx scholars the book offers comprehensive coverage of Marx's life and contexts sources influences and encounters key writings major themes and topics and reception and influence The defining feature of this Companion is its attention to the new directions in Marxism that animate the theoretical scientific and political sides of Marx's thought Gender and the growing importance of Marxist

feminism is treated as equally important to clarifying Marx today as traditional and diverse categories of critique such as class capital and mode of production Similarly this Companion showcases the methodological and political importance of Marxism to environmentalist politics Finally the volume examines in detail non European Marxisms demonstrating the centrality of Marxist thought to political movements both within and beyond the global north This book is the ideal research resource for anyone working on Marx and his ideas today and as an entry point if you are approaching Marx's thought for the first time

Circling Marx: Essays 1980-2020 Peter Beilharz, 2020-12-07 Karl Marx circles us and we him This reflects the power of his legacy but it also indicates the nature of the intellectual process We move around objects of interest and insight working by successive approximations Peter Beilharz has been circling Marx for forty years This volume of essays expands the metaphor by working through three circles in the history of Marxism The first works with Marx the second with the classical legacy through to Bolshevism and western marxism the third steps closer to the present in thinkers such as Bauman Heller and Castoriadis Read together these essays represent a lifetime's engagement with Marx and his intellectual consequences

After Postcolonialism Epifanio San Juan, 2000 This innovative analysis of the Philippine historical crisis is accompanied by a critique of a U S racial formation in which Filipinos constitute the largest Asian group Literary and artistic expressions by Filipinos manifest a new emerging identity defined by the multicultural debates crossing the Pacific transforming the Philippines into a borderland of East and West Caught betwixt the Asian continent and the hegemonic power of the United States the Philippines occupies a contested space between past and present Between the memory of colonial experience and an emergent nation making dream can a meaningful future be envisioned This provocative book explores this problematic zone of difference through a critique of the Western production of knowledge in the context of local resistance While Americanization of the Filipino continues the encounter of globalizing and nationalizing forces has precipitated a profound political and social crisis whose outcome may be a paradigmatic lesson for many so called third world countries What happens in this Southeast Asian nation may foretell the fate of the ideals of democracy and social justice now beleaguered by the market and the unrelenting commodification of everyday life
