Revolution and Survival Richard K. Debo,1979 Revolution and Survival Richard K. Debo,1979 **The Allied Intervention in Russia, 1918-1920** I. Moffat,2015-02-26 This work explores the reasons for the Allied intervention into Russia at the end of the Great War and examines the military diplomatic and political chaos that resulted in the failure of the Allies and White Russians to defeat the Bolshevik Revolution *International Law and Revolution* Owen Taylor,2019-05-23 This book explores the historical inter relations between international law and revolution with a focus on how international anti capitalist struggle plays out through law The book approaches the topic by analysing the meaning of revolution and what revolutionary activity might look like before comparing this with legal activity to assess the basic compatibility between the two It then moves on to examine two prominent examples of revolutionary movements engaging with international law from the twentieth century the early Soviet Union and the Third World movement in the nineteen sixties and seventies The book proposes that the form of law or its base logic is rooted in capitalist social relations of private property and contract and that therefore the law is a particularly inhospitable place to advance revolutionary breaks with established distributions of power or wealth This does not mean that the law is irrelevant to revolutionaries but that turning to legal means comes with tendencies towards conservative outcomes In the light of this the book considers the possibility of how or whether international law might contribute to the pursuit of a more egalitarian future *International Law and Revolution* fills a significant gap in the field of international legal theory by offering a deep theoretical reflection on the meaning of the concept of revolution for the twenty first century and its link to the international legal system It develops the commodity form theory of law as applied to international law and explores the limits of law for progressive social struggle informed by historical analysis It will therefore appeal to students and scholars of public international law legal history human rights international politics and political history Revolution and World Order David Armstrong,1993-06-10 In this important study David Armstrong examines the impact of revolutionary states on the international system These states have always posed major problems for the achievement of world order revolution is often accompanied by international as well as civil conflict while revolutionary doctrines have proven to be highly disruptive of the existing structure of international politics Dr Armstrong asks whether revolutionary states are socialized into adopting acceptable patterns of international behaviour or whether it is international society that is forced to change when these new states appear He looks in detail at the French American and Russian revolutions and at several post 1945 revolutionary states he also examines the relationship between revolutionary states and the principal ordering devices of international society international law diplomacy and the balance of power His book is a major contribution to international relations and an important development and application of the international society concept Twilight of Empire Borislav Chernev,2017-06-16 *Twilight of Empire* is the first book in English to examine the Brest Litovsk Peace Conference during the later stages of World War I with the use of extensive

archival sources Two separate peace treaties were signed at Brest Litovsk the first between the Central Powers and Ukraine and the second between the Central Powers and Bolshevik Russia Borislav Chernev through an insightful and in depth analysis of primary sources and archival material argues that although its duration was short lived the Brest Litovsk settlement significantly affected the post Imperial transformation of East Central Europe The conference became a focal point for the interrelated processes of peacemaking revolution imperial collapse and nation state creation in the multi ethnic entangled spaces of East Central Europe Chernev s analysis expands beyond the traditional focus on the German Russian relationship paying special attention to the policies of Austria Hungary Bulgaria and Ukraine The transformations initiated by the Brest Litovsk conferences ushered in the twilight of empire as the Habsburg Hohenzollern and Ottoman Empires all shared the fate of their Romanov counterpart at the end of World War I

Revolutionary Pairs Larry Ceplair, 2020-07-21

When examining history one must be careful not to blame rapid political change solely on famine war economic inequality or structural disfunctions alone These conditions may linger for decades without social upheaval Successful revolution requires two triggering elements a crisis or conjuncture and revolutionary actors who are organized in a dedicated revolutionary party armed with a radical ideology and poised to act While previous revolutions were ignited by small collectives many in the twentieth century relied on strategic relationships between two exceptional leaders Marx and Engels Communism Lenin and Trotsky Russia Gandhi and Nehru India Mao and Zhou China and Castro and Guevara Cuba These partnerships changed the world In *Revolutionary Pairs* Marx and Engels Lenin and Trotsky Gandhi and Nehru Mao and Zhou Castro and Guevara Larry Ceplair tells the stories of five revolutionary struggles through the lens of famous duos While each relationship was unique Castro and Guevara bonded like brothers Mao and Zhou like enemies in every case these leaders seized the opportunity for revolution and recognized they could not succeed without the other The first cross cultural exploration of revolutionary pairs this book reveals the undeniable role of personality in modern political change

Reinterpreting Revolutionary Russia I. Thatcher, 2006-08-04

This is a stimulating and highly original collection of essays from a team of internationally renowned experts The contributors reinterpret key issues and debates including political social cultural and international aspects of the Russian revolution stretching from the late imperial period into the early Soviet state

Revolutionary Contagion and International Politics Chad E. Nelson, 2022

A unique theory of what happens when leaders fear a revolution abroad will spread to their own country and how that affects international relations When do leaders fear that a revolution elsewhere will spread to their own polities and what are the international effects of this fear In *Revolutionary Contagion* Chad E Nelson develops and tests a theory that explains how states react to ideological driven revolutions that have occurred in other nations To do this he analyzes four key revolutionary movements over two centuries liberalism communism fascism and Islamism He further explains that the key to understanding the response to revolutions lies in focusing on the extent to which leaders fear upheaval in their own countries According to the theory Nelson argues fear of contagion is driven more by the

characteristics of the host rather than the activities of the infecting agents In other words leaders will fear revolutionary contagion when they have significant revolutionary opposition movements that have an ideological affinity with the revolutionary state A powerful theory of the profound effects revolutions have on international relations this book shows why one simply cannot make sense of international politics including patterns of alliances and wars in certain situations without considering the fear of contagion

Paris 1919 Margaret MacMillan, 2007-12-18 A landmark work of narrative history Paris 1919 is the first full scale treatment of the Peace Conference in more than twenty five years It offers a scintillating view of those dramatic and fateful days when much of the modern world was sketched out when countries were created Iraq Yugoslavia Israel whose troubles haunt us still Winner of the Samuel Johnson Prize Winner of the PEN Hessell Tiltman Prize Winner of the Duff Cooper Prize Between January and July 1919 after the war to end all wars men and women from around the world converged on Paris to shape the peace Center stage for the first time in history was an American president Woodrow Wilson who with his Fourteen Points seemed to promise to so many people the fulfillment of their dreams Stern intransigent impatient when it came to security concerns and wildly idealistic in his dream of a League of Nations that would resolve all future conflict peacefully Wilson is only one of the larger than life characters who fill the pages of this extraordinary book David Lloyd George the gregarious and wily British prime minister brought Winston Churchill and John Maynard Keynes Lawrence of Arabia joined the Arab delegation Ho Chi Minh a kitchen assistant at the Ritz submitted a petition for an independent Vietnam For six months Paris was effectively the center of the world as the peacemakers carved up bankrupt empires and created new countries This book brings to life the personalities ideals and prejudices of the men who shaped the settlement They pushed Russia to the sidelines alienated China and dismissed the Arabs They struggled with the problems of Kosovo of the Kurds and of a homeland for the Jews The peacemakers so it has been said failed dismally above all they failed to prevent another war Margaret MacMillan argues that they have unfairly been made the scapegoats for the mistakes of those who came later She refutes received ideas about the path from Versailles to World War II and debunks the widely accepted notion that reparations imposed on the Germans were in large part responsible for the Second World War Praise for Paris 1919 It s easy to get into a war but ending it is a more arduous matter It was never more so than in 1919 at the Paris Conference This is an enthralling book detailed fair unfailingly lively Professor MacMillan has that essential quality of the historian a narrative gift Allan Massie The Daily Telegraph London
